**Policy 0200**

### **School District Philosophy**

It is the responsibility of the Board of Education to ensure that all children located within our school district have access to a quality education that enables them to achieve their full potential and to fully participate now and in the future in the social, economic, and educational opportunities of our local community, state and nation. Our beliefs are grounded on two principles. First, that a general diffusion of knowledge is essential for the future welfare of the children we serve. Second, that a successful public education system is directly related to a strong, dedicated, and supportive family and that parental involvement in the school is essential for the maximum educational achievement of a child.

In carrying out its responsibilities, the Board of Education is guided by the desire to use the resources of the community, staff and students to provide the highest quality education permitted by financial resources. In reaching decisions, the Board will act in the best interests of its students.

To this end the Board of Education has adopted the following:

### **School District Vision**

A community united to improve the quality of life through education.

### **School District Mission**

By providing a quality education, the Independence School District will ensure that each learner will achieve the skills and self-confidence to be successful in an ever-changing world.

### **School District Values**

All students can learn  
All people have the right to be accepted and treated with respect  
Schools will be safe, orderly and caring environments  
Effective teaching / learning is the responsibility of the family, school and community

### **School District Goals**

Increase student achievement  
Attract, support, and retain high quality staff  
Improve relationships through effective communication  
Maximize resources to facilitate learning

#### **School Board Purpose and Roles**

The Board of Education is a representative body elected by the registered voters of the Independence School District. It is the purpose and the role of the Board of Education to exercise general supervision over the schools of the district, and to ensure that the schools are maintained as provided in state statutes, the rules and regulations of the Missouri State Board of Education and/or the Missouri Department of Elementary and Secondary Education, and the policies, rules and regulations of the school district. In addition, the Board is accountable to the electorate, and shall be responsive to the educational needs and imposed financial constraints of the district. In conducting its various functions as the legislative and policy-making authority for the district, the Board recognizes the following general responsibilities as paramount:

*Legislative and Policy Making* – The Board is responsible for the development of policies, rules and regulations to serve as guidelines for the general management and administrative actions of the district. The establishment of the goals and objectives of the school district and the methods of financial support needed to reach those goals and objectives are a part of the policy-making function of the Board.

*Executive* – The Board shall employ a superintendent to serve as the chief executive officer of the district. The Board shall delegate, in writing to the superintendent, the executive and administrative duties and responsibilities necessary for carrying out its policies, and shall hold the superintendent accountable.

*Appraisal* – The Board is responsible for evaluating the effectiveness of its policies and their implementation to determine the efficiency of operation, the value of the activities and instruction and the need to revise existing activities and programs. The Board shall hold the superintendent responsible for furnishing complete information necessary for the Board's evaluation of the district's programs.

*Provision of Financial Resources* – The Board is responsible for the adoption of the annual budget, which will provide financial basis for personnel, facilities, materials and equipment to enable the district to carry out its educational program. The Board will exercise fiscal responsibility that includes long range implications as well as short range effect.

*Staffing and Appraisal* – The Board is responsible for employing the professional and support staff necessary for carrying out the district's instructional program. The Board is also responsible for establishing salary schedules, terms of employment, and other policies district-wide, and for regular evaluation of its staff.

*Public Relations* – The Board is responsible for keeping the district patrons informed about the schools, and for keeping itself and the school staff informed about the needs and wishes of the

public.

**Policy 0310**  
**Page 2**

*Educational Planning and Evaluation* – The Board is responsible for establishing educational goals which will guide both the Board and the staff in working together toward the continued improvement of the educational programs of the district. It is responsible for providing for an ongoing evaluation of the school program as measured through the goals and objectives set forth by the Independence School District and by the Missouri State Board of Education.

*Judicial* – The Board is responsible for acting as a court of appeals for the professional and support staff members, students, and the district patrons when issues involve Board policies and their fair implementation.

The Board of Education shall control all aspects of the operations of the district within the limits of the law. However, the Board will make its members, the district professional and support staff, and the district patrons aware that the Board has the authority to take official action only when it is acting as a whole. The Board shall be the final authority. No section of the policies, rules and regulations may be construed to limit the statutory powers of the Board to exercise its own prudent judgment.

The achievement level of students shall be the guiding standard through which all success shall be measured.

## **Policy 0311**

### **School Board Organization**

#### **Statement of Practices**

##### **Attendance**

Members shall attend all regularly scheduled Board of Education meetings insofar as possible. Any member failing to attend the meeting of the Board for three (3) consecutive regular meetings, unless excused by a majority of the Board for reasons satisfactory to the Board, shall be deemed to have vacated the seat; and the secretary of the Board shall certify that fact to the Board. The vacancy shall be filled as other vacancies occurring in the Board. Attendance for purposes of this provision shall be defined as actual, physical attendance at the Board meeting until all of the business of the Board has been completed unless a member is excused by a majority of the Board.

##### **Knowledge**

Members shall come to Board of Education meetings informed concerning the issues to be considered.

##### **Abstentions**

Members shall avoid abstaining except when required by statute or Board policy. The members of the Board have been elected to make difficult decisions on behalf of the students, parents, patrons and employees of the district. The concept of trusteeship requires each member to review the issues under the Board's consideration and to take a stand regarding those issues. A member who has conformed to the above-described tenets of knowledge, open discussion, and independent judgment, should be prepared to cast a vote on each of the issues before that member.

##### **Cooperation/Delegation**

Members shall work with other Board members to establish effective Board policies and to delegate authority for the administration of the schools to the Superintendent. Members shall not attempt to by-pass, undermine, or usurp the Superintendent's authority and responsibility for the daily operation of the schools.

##### **Conflict of Interest**

Members shall avoid being placed in a position of conflict of interest, and shall not use the Board position for personal or partisan gain. Members shall conduct themselves in accordance with the conflict of interest policy and disclosure requirements prescribed by statute, Missouri Ethics Commission Rules and Regulations, and Board policy.

### **Confidentiality**

Members shall not disclose confidential information. Information is confidential if it is (a) communicated during executive session; or (b) otherwise communicated with a mutual understanding of confidentiality.

### **Acceptance of Gifts**

Members shall not solicit or accept gifts, payments, or anything greater than a nominal value item or holiday gifts of nominal value from any person, organization, group, or entity doing business or desiring to do business with the School District.

### **Contact with Vendors**

Members, if contacted by a vendor requesting information about the District's bidding procedures, whether of a general nature or with regard to specific goods or services to be bid, shall provide the vendor with the name and business telephone number of the administrator responsible for purchasing such goods or services. The member shall request that the vendor contact the relevant administrator and direct all questions and concerns to that administrator.

### **Board Communications to Staff**

All official communications, policies, and directives of staff interest and concern will be communicated to staff members through the Superintendent, and the Superintendent will employ such media as are appropriate to keep the staff fully informed of the Board's concerns and actions.

### **Visits to Schools**

Individual Board members who, in their parental capacity, wish to visit the school(s) or classroom(s) of their child(ren) will follow the regular procedures for visitors. Board members who wish to visit other schools or classrooms as an informal expression of interest in school affairs will report to the principal's office on entering the building so that the office will be aware of their presence. Official visits by Board members will be conducted only with the full knowledge of the Superintendent and principal(s) involved.

### **Educational Welfare**

Members shall remember always that the first and greatest concern must be the educational welfare of the students attending the School District.

#### **School Board Elections and Term**

The governance and control of The School District of the City of Independence shall be vested in a board of seven (7) directors elected by the qualified voters of the District as provided in the Revised Statutes of Missouri (RSMo).

The qualified voters of the School District shall biennially, on the first Tuesday after the first Monday of April, elect two (2) directors for terms of six (6) years, except, effective for Board elections beginning in April of 1994, and each six years thereafter, when three (3) directors shall be elected for terms of six (6) years.

Elections shall be conducted in accordance with all provisions of state law. An election shall not be held if the number of candidates who have filed for the Board is equal to the number or positions available.

#### **Qualified Voters in the School District**

An individual must be a registered voter in order to vote in a school election. In order to vote, a person must be eighteen (18) years of age or older, must be a citizen of the United States, and must reside in the School District thirty (30) days.

#### **Candidate Qualification - Method of Filing**

Qualified applicants for the Board may file for office beginning at 8:00 a.m. in the Superintendent's office commencing on the sixteenth (16th) Tuesday prior to the election and ending at 5:00 p.m. on the eleventh (11th) Tuesday before the election. The candidate shall declare his/her intent to become a candidate, in person and in writing to the secretary of the Board of Education. The names of qualified candidates shall be placed on the ballot in the order of filing. The notice of election and certification of candidates must be submitted to the county clerk by the tenth Tuesday prior to the election. Candidates must comply with all of the prevailing laws concerning eligibility and campaign financing.

A candidate who files for one vacancy and later decides to run for another shall be positioned on the ballot according to the time when his/her change of declaration is received by the secretary of the Board, not on the basis of when the first petition was filed.

Candidates must be citizens of the United States and resident taxpayers of the District, reside in his/her state for one year next preceding their election or appointment, and be at least twenty-four (24) years of age. Candidate must also complete a notarized copy of Missouri Department of Revenue Form 5120 (MCE Form 0320) attesting that the candidate is not currently aware of any delinquency in the filing or payment of state income taxes, personal property taxes,

municipal taxes or real property taxes on the candidate's place of residence provided on the Department of Revenue Form 5120. Candidates will be disqualified from participation in a Board election if the candidate is delinquent in the payment of any state income taxes, personal property taxes, municipal taxes, or real property taxes on the residence of the candidate. The candidate must further attest that they are not a past or present corporate officer of the office that owes any taxes to the state, which are not in dispute. Failure to accurately complete and file Form 5120 with the Department of Revenue may disqualify a candidate from the ballot. Each newly elected or appointed director shall qualify and take his/her oath of office in the manner prescribed by law and according to Policy 0330 - Oath of Office.

No person may be a candidate for a position on the Board if such person is registered as a sex offender or is required to be registered as a sex offender under state law. Any Board member who is likewise required to register or who is registered as a sex offender under state law will immediately be requested by the Board to resign from the Board. Should such Board member refuse to resign, the member will be ineligible to serve as a Board member at the end of his/her term.

In addition, no person shall qualify as a candidate for the Board of Education who has been found guilty of or has pled guilty to a felony or misdemeanor under federal law or to a felony under Missouri law or has been found guilty of an offense in another state, that would be considered to be a felony in the State of Missouri.

It is not the District's responsibility to investigate and determine a candidate's eligibility. That responsibility rests with the Department of Revenue and/or the County Election Authority.

If the vacancy occurs less than six (6) months prior to the next school board election, the Board may use its discretion whether to fill the vacancy.

**Oath of Office**

Within seven (7) days after their election, the newly elected or appointed members of the Board shall take the oath of office prescribed by Article VII, Section II, of the Constitution of Missouri, RSMo. Section 162.301(1).

**OATH OF OFFICE**

I, \_\_\_\_\_, do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of Missouri, and that I will faithfully and impartially discharge the duties of school director in and for The School District of the City of Independence, County of Jackson, State of Missouri, to the best of my ability according to the law, so help me God.

**School Board Organization**

**Code of Ethics**

The Board shall be guided by the following:

- A. As a member of a local Board, representing all citizens of my district, I recognize:
1. That my fellow citizens have entrusted me with the educational development of the children and youth of this community.
  2. That the public expects my first and greatest concern to be in the best interest of each and every one of these young people without distinction as to who they are, what their background may be, or where they may live.
  3. That the future welfare of this community, of the State and of the nation depends in the largest measure upon the quality of educational experiences we provide in the public schools to fit the needs of every learner.
  4. That my fellow Board members and I must take the initiative in helping all the people of this community to have all the facts all the time about their schools, to the end that they will readily provide the finest school program, school staff and school facilities.
  5. That legally, the authority of the Board is derived from the State which ultimately controls the organization and operation of the school district and which determines the degree of discretionary power left with the Board and the people of this community for the exercise of local autonomy.
  6. That I must never neglect my personal obligation to the community and my legal obligation to the State, nor surrender these responsibilities to any other person, group or organization; but beyond these, I have a moral and civic obligation to the Nation which can remain strong and free only so long as public schools in the United States are kept free and strong.
- B. In view of the foregoing consideration, it shall be my constant endeavor:
1. To devote time, thought and study to the duties and responsibilities of a school Board member so that I may render effective and creditable service.
  2. To work with my fellow Board members in a spirit of harmony and cooperation in spite of differences of opinion that arise during vigorous debate of points and issues.

3. To base my personal decision upon all available facts in each situation; to vote my honest conviction in every case, unswayed by partisan bias of any kind; thereafter to abide by and upon the final majority decision of the Board.
4. To resist every temptation and outside pressure to use my position as Board member to benefit either myself or any other individual or agency apart from the total interest of the district.
5. To bear in mind under all circumstances that the primary function of the Board is to establish policies by which the schools are to be administered, but that the administration of school matters shall be left to the employed superintendent and his or her professional or non-professional staff.
6. To welcome and encourage active cooperation by citizens and organizations in the district with respect to establishing policy on current school operation and proposed future developments.
7. Finally, to strive step by step toward ideal conditions for the most effective Board service to my community, in a spirit of teamwork and devotion to public education as the greatest instrument for the preservation and perpetuation of our representative democracy.

## **GENERAL ADMINISTRATION**

## **Policy 1100** **(Regulation 1100)**

### **Religion**

The School District supports the constitutional separation of church and state. The philosophy of the District is to share with the community the responsibility for education. Since religious observances and the display of religious symbols rightfully belong in the home and in the church or synagogue and not in a tax-supported entity, the District urges that the responsibility for the use of such symbols, and observances of religious occasions, be the province of the home and community.

The District respects the diversity of its community, staff, and student body and wishes to encourage the teaching and appreciation of cultural pluralism in the District curriculum and school-sponsored activities without emphasizing or giving school time to religion(s) or religious celebrations beyond the scope of the curriculum.

It is expected that all activities during school time will be geared toward instruction and will have curriculum significance in accordance with the District's curriculum guides. When developing instructional units and educational activities, staff members should recognize the differences between the religious and the cultural heritage of groups in a pluralistic society.

**Calendar Requirements**

**School Year and School Day**

The Board will annually adopt a school calendar that will provide for a minimum of 173 days and 1,044 hours of pupil attendance.

The length of the school day will meet State Department of Elementary and Secondary Education requirements for six (6) clock hours of instruction. A school year and school day in excess of the state required minimum may be recommended by the Superintendent and approved by the Board.

If the District's schools are dismissed due to inclement weather after school has been in session for three or more hours, that day shall count as a full day. When the total hours lost due to inclement weather exceed twelve (12) hours, the time must be made up in half- or full-day additions to the school term.

The District shall be required to make up no more than eight (8) school days lost or canceled due to inclement weather and half the number of days in excess of eight days.

**Calendar Requirements**

**School Day**

The length of the school day will meet State Department of Elementary and Secondary Education requirements for six clock hours of instruction. The length of the school day in excess of the state required minimum will be recommended by the Superintendent and approved by the Board. The specific daily opening and closing time for individual schools may vary to facilitate the scheduling of the District's transportation program.

If the District's schools are dismissed due to inclement weather after school has been in session for three or more hours, that day shall count as a full day.

Days that the District's schools are closed for inclement weather or emergency reasons, which cause a violation of the necessary 173 days of pupil attendance, will be made up in accordance with state statutes and as approved by the Board upon the Superintendent's recommendation.

**Equal Opportunity and Statement of Non-Discrimination, Harassment, and Retaliation**

The District is committed to providing equal opportunity in all areas of admission, recruiting, hiring, retention, promotion, contracted services, and access to programs, services, activities, and facilities. The District further commits itself to the policy that there shall be no unlawful discrimination, harassment, or retaliation against any person because of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law. The District is an equal opportunity employer.

The District's equal opportunity policy extends to prohibitions against discrimination, harassment, and retaliation of and against students or employees due to the individual's race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law. The District strictly prohibits such unlawful discrimination, harassment, and retaliation by its employees and students. The District also prohibits retaliatory action, harassment, or discrimination against individuals who make complaints of, report, or otherwise participate in the investigation of any such unlawful discrimination, harassment, or retaliation.

Persons who believe that they have been discriminated, harassed, and/or retaliated against in violation of this policy should report the alleged discrimination, harassment and/or retaliation to the Compliance Officer, unless the Compliance Officer is unavailable or the subject of the report. In that case, the report should be made directly to the alternative Compliance Officer (see Board Policy/Regulation 1310).

All employees, students, and visitors who have witnessed any incident or behavior that could constitute discrimination, harassment, or retaliation under this policy must immediately report such incident or behavior to the District's Compliance Officer for investigation.

If a student alleges sexual misconduct on the part of any District employee to any person employed by the District, that person will immediately report the allegation to the Children's Division (CD) of the Department of Social Services in accordance with state law.

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken.

**Public Notice**

The superintendent or designee will continuously publicize the District's policy prohibiting discrimination, harassment, and retaliation, and will disseminate information to employees, parents/guardians, and students, as well as to newly-enrolled students and newly-hired employees, regarding how to report discrimination, harassment, and retaliation.

**Freedom from Discrimination, Harassment, and Retaliation**

It is the policy of the Board of Education to maintain a learning and working environment that is free from discrimination, harassment, and retaliation on the basis of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law.

The District strictly prohibits unlawful discrimination, harassment, and retaliation against employees, students, or others, as provided in Board Policy/Regulations 1300 and 1310. These policies shall extend not only to students with regard to educational opportunities and freedom from discrimination, harassment, and retaliation, but also to employees with regard to employment opportunities, and to individuals with whom the Board does business.

It will be the policy of the District to continually evaluate its practices and procedures to ensure fair and equitable educational and employment opportunities and freedom from discrimination, harassment, and retaliation for all of its students and employees.

For the purposes of this Policy, the term “school personnel” includes Board members, school employees, agents, volunteers, contractors, and any other persons subject to the supervision and control of the District.

**Compliance Officer**

The Board will designate an individual to act as the compliance officer, and ensure that the compliance officer’s name, business address, and telephone number, as well as the District’s Board Policy 1300 are published to patrons, employees, and students on an annual basis.

The Board designates the following individual to act as the District’s compliance officer:

Human Resources Supervisor  
201 North Forest Avenue  
Independence, MO 64050  
(816) 521-5300  
Fax: (816) 521-5619

In the event the compliance officer is unavailable or is the subject of a report that would otherwise be made to the compliance officer, reports should instead be directed to the alternative compliance officer:

Director of Human Resources  
201 North Forest Avenue  
Independence, MO 64050  
(816) 521-5300  
Fax: (816) 521-5680

It shall be the compliance officer's responsibility to assure compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, and the Age Discrimination Act of 1975.

The compliance officer will act to promptly investigate all complaints, either formal or informal, verbal or written, of unlawful harassment, discrimination, or retaliation because of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law.

### **Discrimination**

It is the policy of the Board of Education to maintain a learning and working environment that is free from discrimination on the basis of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law.

The District does not and will not discriminate on the basis of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law in the educational programs, activities, and vocational opportunities offered by the District.

The District assures that it will comply with:

1. This Policy/Regulation and state and federal law.
2. The Missouri Human Rights Act, MO. Rev. Stat. § 213.010 et seq., which prohibits discrimination and harassment on the basis of race, color, religion, national origin, sex, disability and age. The Act also makes it unlawful to retaliate against any individual for filing a complaint of discrimination and/or harassment or for participating in an investigation into a complaint of discrimination and/or harassment.
3. Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d et seq., which prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance.

to employment opportunities and freedom from harassment, and to individuals with whom the District does business.

8. The National School Lunch Act, and other requirements of the U.S. Department of Agriculture (USDA), as it relates to school nutrition programs for which the District receives federal financial assistance, including the National School Lunch Program, the Special Milk Program, the School Breakfast Program, and the Summer Food Service Program.
9. All regulations, guidelines, and standards lawfully adopted under the above statutes by the United States Department of Education.

## **Harassment**

It is the policy of the Board of Education to maintain a learning and working environment that is free from harassment on the basis of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law. The District's prohibition against harassment extends not only to students with regard to educational opportunities, but also to employees with regard to employment opportunities, and to individuals with whom the Board does business.

It shall be a violation of District policy for any student, teacher, administrator, or other school personnel of this District to harass or unlawfully discriminate against any other student or staff member through conduct or communication of a sexual nature. Furthermore, it shall be a violation of this Policy for any person who is not an employee or student of the District to harass a staff member or student of the District through conduct or comments of a sexual nature while such employee is engaged in the performance of duties for the District or while such student is under District supervision.

It shall also be a violation of District policy for any teacher, administrator, or other school personnel of this District to tolerate harassment or sexual harassment of a student because of the student's race, color, religion, disability, age, sex, gender, national origin, as defined by this Policy, by a student, teacher, administrator, other school personnel, or by any third parties who

are participating in, observing, or otherwise engaged in activities, including sporting events and other extracurricular activities, under the auspices of the District.

### **Retaliation**

The District prohibits retaliation against any person who files a complaint of discrimination, harassment, or retaliation, and further prohibits retaliation against any person who testifies, assists, or otherwise participates in any investigation, proceeding, or hearing relating to such discrimination, harassment, or retaliation. The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who retaliates against any such person.

### **Consequences and Remedies**

When the District receives a report of unlawful discrimination, harassment, and/or retaliation, the District will take appropriate interim measures to protect the alleged victim(s). If, after investigation, it is determined that discrimination, harassment, and/or retaliation in violation of Policies 1300 and 1310 did occur, the District shall take prompt, effective, appropriate action reasonably calculated to end the harassment, discrimination, and/or retaliation and to protect individuals from further such harassment, discrimination, and/or retaliation.

The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who is found to have violated this Policy. Patrons, contractors, visitors, or others who violate this Policy may be prohibited from District property or otherwise restricted while on District property.

### **Grievances**

It is the policy of the District to process all grievances in a fair and expeditious manner. Regulation 1310 provides mechanisms for the resolution of grievances/complaints by employees, patrons, and/or students under this Policy.

### **Students with Disabilities**

This policy and corresponding regulation do not pertain to the identification, evaluation, or placement of students under Section 504. The topics of the identification, evaluation, and placement of students under Section 504 are addressed in the following separate District policies and regulations: Policy 2110 – Equal Education Opportunity, and Policy and Regulation 6250 – Instruction for Students with Disabilities.

#### **Parent/Family Involvement in Education**

The Board of Education recognizes the positive effects of parents/families' involvement in the education of their children. The Board also recognizes the importance of assisting schools in eliminating barriers that impede parent/family involvement and will facilitate an environment that encourages collaboration with parents/families and community. The Board is committed to strong parent/family involvement in working collaboratively with District staff as knowledgeable partners in educating District students. In order to implement the Board's commitment to parent/family involvement in education, the Superintendent will appoint a committee of parents, staff, and community representatives to serve as the District's Parent Involvement Committee. The Committee's responsibilities will include recommendations for program development, parent/staff training and program evaluation.

1. Promote regular, two-way, meaningful communication between home and school.
2. Promote and support responsible parenting.
3. Promote the fact that parents/families play an integral role in assisting their children to learn.
4. Actively solicit parent/family support and assistance for school programs.
5. Include parents as partners in decisions affecting their children and families.
6. Use available community resources to strengthen and promote school programs, family practices, and the achievement of students.

Program evaluation reports will be prepared and submitted to the Superintendent annually by June 1. The evaluation will be used to improve and/or create practices to enhance parent/family involvement.

**School/Community Relations**

**Relations with Law Enforcement Authorities**

It is the District policy to cooperate fully with law enforcement agencies in promoting the welfare of District's students, staff and the community. As provided in Policy and Regulation 2673, District officials will satisfy the reporting requirements of the Safe Schools Act. **(Regulation 1420)**

**School/Community Relations**

**Community Use of School Facilities**

School District facilities are available for community use when facilities are not required for instructional or administrative purposes. Use of District facilities is subject to approval of the community group's application and is subject to conditions established by the Board of Education as set forth in administrative regulations.

To the extent that school facilities are available for community use, such facilities will be open, under the same terms and conditions, to youth groups including but not limited to Boy Scouts, Girl Scouts, Big Brothers-Big Sisters of America, Boys and Girls Clubs of America, Little League Baseball and similar groups. When outside groups are permitted to use school facilities under this policy, the District will not lawfully discriminate against groups based upon a group's religious, political or philosophical content of the speech at such meetings.

**School/Community Relations**

**Polling Places on School Premises**

School District facilities may be used as polling places pursuant to Section 115.117.1 of the Revised Missouri Statutes.

Pursuant to Section 115.637(18) of the Revised Missouri Statutes, exit polling, surveying, sampling, electioneering, distributing campaign literature, posting sign or placing vehicles bearing signs with respect to any candidate or question to be voted on shall be prohibited on election day inside any School District building in which a polling place is located or within twenty-five (25) feet of the building's outer door closest to the polling place. The Board of Election Commissioners or a duly appointed election judge shall enforce the distance requirement.

On non-election days, the posting or placing of election campaign or candidate signs on School District property is prohibited except for twelve hours immediately prior to the opening of the polls on election day. Election campaign or candidate signs placed on School District property on election day pursuant to this Policy 1421 shall be removed from School District property on or before 6:00 a.m. on the day after election day. Any signs not so removed may be confiscated and destroyed by School District personnel.

**GENERAL ADMINISTRATION**

**Policy 1425**

**School/Community Relations**

**School Volunteers**

The District encourages participation of parents and citizens of the community to volunteer in the schools in order to serve as additional resources to the teachers and students. Prior to serving as a volunteer, each individual who may have unsupervised contact with a child must complete an application for the position, have a satisfactory criminal records check, and have a satisfactory check of the child abuse/neglect records maintained by the Missouri Department of Social Services.

**School/Community Relations**

**Visitors To Schools**

Principals and teachers shall welcome and encourage visits by parents/guardians, Board members, volunteers and patrons of the schools. All visitors shall report to the principal's office on entering the building so that the office will be aware of their presence. When a patron of the school has a need for a conference with a teacher or counselor, an appointment should be made so the staff member may proceed with his/her assigned duties without undue interruption.

Groups of visitors wishing to visit the school or facilities shall notify the Superintendent as far in advance as possible.

Students dismissed earlier in one school than others are not permitted to be on the grounds of any other school in the District.

All persons who do not obtain permission from the principal's office to visit the school, or visitors who create serious distractions to the learning environment in the building or on the premises, shall be considered trespassers and subject to arrest and prosecution.

In order to minimize the potential harm to staff and students, persons listed on the sex offenders list may not be present in any school building, or on district property, in any district vehicle utilized to transport students, or be present at school activities without the written permission of the Superintendent. If permission is granted for a specific event or events, the Superintendent will notify the principal, where the sex offender will be present.

**Observations by Parents, Advocates, or Others**

Under applicable state and federal law, a parent does not have a right to observe his/her child in the educational setting. However, if a parent, advocate or other person wishes to conduct an observation of any child, activity, teacher, or classroom, he or she must submit a written request to the building principal, within five school days of the date he or she wishes to observe, with the following information:

1. The name and position of the individual(s) who will be observing;
2. The date and time he or she wishes to observe;
3. The amount of time he or she wishes to observe;
4. The specific purpose for which he or she wishes to observe.

The building principal must then grant written permission for the observation to occur. The District reserves the right to deny any observation that it believes will disrupt the educational environment or may lead to a direct or indirect release of personally identifiable information about a student or students. The building principal or other administrator will provide a written or verbal explanation of its decision prior to the requested observation date.

**(Regulation 1431)**

**School/Community Relations**

**Code of Conduct - Adults**

The Board of Education believes in and fosters a safe and orderly environment for all students, staff, and visitors.

Therefore, the Board of Education has established a code of conduct for all employees, parents, patrons, and visitors on school premises and at school activities. All employees, parents, patrons, and visitors will be expected to conduct themselves in a manner reflective of a positive role model for children. Public displays contrary to this expectation as provided in Regulation 1431 will result in sanctions which will limit a person's access to school activities and school premises.

**School/Community Relations**

**Prohibition Against Firearms and Weapons**

The presence of firearms and weapons poses a substantial risk of serious harm to District students, staff and community members. Therefore, possession of firearms and weapons is prohibited on school premises at all times except for law enforcement officials. As used in this policy, the phrase “school premises” includes all District buildings, grounds, vehicles, and parking areas. This prohibition also extends to the sites of school activities whether or not those school activities are conducted on School District property.

Individuals found to be in violation of this policy will be dealt with severely. Students will be disciplined up to and including expulsion as provided in Policy/Regulation 2620. Law enforcement officials will be notified and the individual violating the policy will be directed to leave school premises. Non-students violating this policy will be barred from all school premises and school activities for a period of one year. Subsequent violations by the same individual will result in a permanent bar from school premises and school activities.

#### **Public Access to District Documents**

The District provides public access for the inspection and copying of the District's public records. As a general practice, the District requires advance payment of a copy fee which does not exceed the actual cost of document search and duplication. However, copies of the District's public records may be provided without a fee or at a reduced fee when it is determined by the Board that a reduction is in the public interest. In assessing fee reductions, the Board will consider the potential that the reduction will significantly contribute to public understanding of the District's operations and will consider the degree of commercial value to be gained by the person requesting a fee reduction.

Similarly the District will provide public access for inspection and duplication of the District's public records maintained on audio, video, or similar media. Public access includes but is not limited to computer facilities, recording tapes, discs, video tapes, films, pictures, slides, graphics, and illustrations. The District requires advance payment not to exceed the expense of duplication, staff time required to duplicate, programming if necessary and the cost of the disc or tape used for duplication.

In order to facilitate public access to the District's public records, the Board will appoint the Board Secretary as the custodian of records. The custodian will be responsible for maintaining the District's public records as well as for assuring access to the District's public records. The identity, business address, and office telephone number of the custodian of records will be published annually and will be available at the District's administrative office. The procedures for implementing public access provided in this policy are set forth in Regulation 1450.

**Community Involvement in Decision Making**

The Board of Education recognizes that many residents of the District may be especially qualified to take an active part in school affairs because of their training, experience, or personal characteristics and encourages them to take an active part in school affairs.

The Board shall give substantial weight to the advice it receives from individuals and community groups interested in the District's schools, but shall use its own judgment in arriving at decisions.

#### **Public Gifts to Schools**

The Board of Education recognizes the educational value of appropriate gifts to schools from Parent Teacher Associations (PTA), other civic groups, corporations, or individuals, and encourages their use to enrich the instructional program. Therefore, gifts which may serve to enhance and extend the work of the schools may be received by the District.

The superintendent is authorized to accept donations and gifts to the school district. The superintendent may designate other administrators to be authorized to accept the gifts for particular schools on behalf of the Board. All major donations or gifts will be reported to the Board of Education and publicly announced.

Instances where the superintendent / designee doubts the appropriateness or usefulness of a proposed donation or gift, the item(s) may be declined, or the matter be referred to the Board for consideration.

**School/Community Relations**

**Memorials**

Sadly the death of a student, former student, or staff member is an event that may occur at any time. Temporary memorials can provide students the opportunity to give testimony to their peers, as well as learn how to direct their generosity to grieving family members. The opportunity to participate in temporary activities and projects can help students and staff come to accept the finality of their loss. An initial memorial site will be designated by the principal where flowers, poems, pictures, stuffed animals in an area where those who wish not to be reminded can easily avoid that location. Memorial items will be removed after the family funeral in a way that permits presentation of these symbols of caring to the family.

Memorials for staff and students lost through suicide will not be established. This policy is the result of the fact that recognition of student suicide may adversely affect others predisposed to suicide.

**School/Community Relations**

**Public Complaints**

Although no member of the community shall be denied the right to petition the Board of Education for redress of a grievance, the complaints will be referred through the proper administrative channels for solution before investigation or action by the Board. Exceptions are complaints that concern Board actions or Board operations only.

The Board advises the public that the proper channeling of complaints involving instruction, discipline, or learning materials is as follows:

1. Teacher
2. Principal
3. Appropriate Central Office Administrator
4. Superintendent
5. Board of Education

Any complaint about school personnel will be investigated by the Administration before consideration and action by the Board.

### **Private, State and Federal Programs Administration**

#### **Private, State, and Federal Funding**

Grants from outside agencies are to be related to the needs and priorities of the District in the form of program improvement. Outside funds are to be regarded as supplemental in nature, intended to enhance or augment the usual efforts toward desired goals, quality of learning, inservice education, or capital improvement. Grants may lead to research and development that will be of value to the District. All such funds will be deposited, accounted, and reported through the District's accounting office. The Board directs that the Administration keep financial and program records to document the compliance with all state and federal requirements and to corroborate program success.

All employees of the School District who plan to apply to an outside agency (private, corporate, or governmental) for grants or other types of funds for District use must clear the request with the Superintendent of Schools or designee before preparing an application. The application must then be approved by the Board of Education before submission to the source of funding.

Grants cannot be requested that would require District expenditures not budgeted in the current fiscal year. District funds may not be obligated in advance for future years by the terms of a grant without prior Board approval.

If a grant requires participation by children in experimental types of instruction, written permission of parents must be secured.

**Head Start Program Policies – 1994**

**Conflict of Interest/Nepotism - Required by: Code of Federal Regulations (CFR) 130.31**

No Head Start employee shall solicit or accept gratuities, favors, or anything of monetary value from contractors or potential contractors.

Head Start shall not employ any individual if a director of that individual's immediate family is employed in an administrative capacity or is a director of the Head Start Policy committee. The term "immediate family" means wife, husband, son, daughter, mother, father, brother, sister or relative by marriage of comparable degree; the term "administrative capacity" means a position having responsibilities related to the selection, hiring or supervising of employees. If a vacant position cannot be filled without hiring such an individual, the policy may be waived. However, employment records must be maintained to provide evidence that no other individual within the service area is qualified and available for employment.

**Probationary Period - Required by: 45 CFR part 101, Subpart D**

All Head Start staff directors will be subject to a Probationary Period. The first six (6) months following appointment to a position is the "Probationary Period." The Probationary Period allows time to examine and act on the results of criminal records check and child abuse/neglect check.

Should a criminal record or child/abuse neglect record check reveal an arrest, pending criminal charge, or a conviction of a probationary employee, a review of the case by District administrators, the Head Start Director, and the Head Start Personnel Committee to assess the relevancy of an arrest charge or conviction to a hiring decision will be conducted. No probationary employee will be dismissed arbitrarily on the basis of arrest, a pending criminal charge, or a conviction.

The Probationary Period also permits the employee to demonstrate his or her capacity to perform and the employer to measure the employee's performance. There may be evaluations of the employee during the Probationary Period. There shall be an evaluation of the employee at the end of the six (6) months, and the employee shall receive a written copy of the evaluation.

At the end of this period, the employee shall be advised of the decision regarding his or her retention as an employee of Head Start.

At any time during the Probationary Period, the Head Start Director, after following procedures, may terminate an employee whose performance does not meet the required standards. The

employee may request notification in writing as to the reason for his or her dismissal, and any such notification shall become part of the permanent personnel records of the School District of Independence.

The School District of the City of Independence reserves the right to shorten the probationary period for any employee found to be fully qualified, and the District may end the probationary period if, in the sole discretion of the District, circumstances make an elongated probationary period necessary.

**Employee Grievance Procedure - Required by: CFR 1301.31**

All grievances and problems of the Head Start staff director must first be presented to the Head Start Director. Resident students must provide proof of residency in the District at the time of enrollment. To be a resident of the District, a student must both physically reside and be domiciled within District boundaries. In addition, the District will provide tuition-free special education services to resident students who qualify for special education services between the ages of 3 and 21 as required by law.

##### **Students Entitled to Enroll Without Proof of Residency**

The residency provisions of this policy are not applicable to homeless students, inter-District court-ordered desegregation students, wards of the state, students placed in residential care facilities, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, students with a disability identified under state eligibility criteria if the student in the district for reasons other than accessing the district's educational program, students attending regional or cooperative alternative education programs, students attending an alternative education program on a contractual basis, or students attending a school pursuant to R.S.Mo s/s 167.151(2) or (4). The exemptions to the residency requirement are expressly established by state law and entitle such students to tuition free school attendance. Additionally, a student may be partially exempt from the payment of tuition as set forth in Policy and Regulation 2240 and state law. For purposes of IDEA special education evaluation and provision of special education services, a student attending a private school located within the District will be evaluated as a resident student.

**Requests for Waiver of Proof of Residency Requirements**

Those students who are unable to satisfy the proof of residency requirements and who are not entitled to enroll as provided in the previous section of this Policy and state law may request a waiver of the proof of residency requirements. Upon filing a Request for Waiver of Proof of Residency (Form 2230.1) and satisfaction of all other enrollment requirements, the student will be conditionally enrolled and allowed to attend school pending a Board of Education hearing on the student's request unless there is reason to suspect that the admission of the pupil will create an immediate danger to the safety of other students or employees of the District. If there is reason to suspect that the student poses an immediate danger, the Superintendent/Designee may convene a hearing within five working days of the request to register and determine whether or not the pupil may register. (See Policy and Regulation 2200, Regulation 2230 and Policy and Regulation 2664).

#### **Admission and Tuition – Nonresident Students**

Nonresident students will be permitted to attend the District schools only upon the processing of the student's Request for Waiver of Proof of Residency (Form 2230.1) and payment in full of tuition as determined by District representative in their sole discretion, and provided the student is not barred from enrollment by provisions of the Safe Schools Act. (See Policy 2664.) Prior to the first day of school, the District must receive the full tuition payment as established by the Board, unless the student is exempt from tuition as required by law. All costs of transportation for any student admitted on a tuition basis will be the sole responsibility of the person enrolling the student, unless otherwise required by law. In no event shall the Independence School District be responsible for the transportation costs for a student admitted on a tuition basis. Tuition rates will be determined annually by the Board of Education on the basis of the per-pupil cost for the preceding year including operation, maintenance, and debt service of the schools.

In accordance with state law, the district will admit nonresident students ("transfer students") who reside in a Missouri school district that: (1) is located in the same or an adjoining county as the district (Jackson County, Missouri); and (2) is currently classified as unaccredited by the Missouri State Board of Education.

The unaccredited school district shall pay the full tuition for each semester before the transfer student will be enrolled or allowed to attend that semester, unless an alternative arrangement is made with the district and approved by the Board of Education. If a timely payment of tuition is not made, the transfer student shall not be entitled to attend the district.

Transfer students will be permitted to enroll in the district on a semester basis only. Transfer students will not be admitted during the term of a school semester. For the fall semester, applications will be accepted from January 1 to February 1. For the spring semester, applications will be accepted from October 1 through October 31. Late applications will not be considered. Students residing in an unaccredited district must submit an application by no later than January 1 for every school year they wish to attend the district, but students who have been admitted for the fall semester are not required to reapply for the spring semester.

Pursuant to guidance issued by the State Board, the district has adopted a procedure for establishment of class size and student-teacher ratios for all grade levels. The district will not enroll transfer students if enrollment would require the district to exceed its standards for class size and student-to-teacher ratios.

Within two (2) business days of enrollment in the District by state officials of a nonresident student pursuant to state statute, the Superintendent/designee will request the student's transfer and discipline records from all schools or facilities previously attended and from other state agencies

and entities involved in the placement of the student within the twenty-four (24) month period preceding enrollment. The Superintendent/designee is authorized to share relevant portions of such student's transfer and discipline records with District employees who, based upon their duties, have a need to know such information. Such records will be maintained in confidence for purposes of maintaining discipline and for assistance to the student.

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.

#### **Truancy and Educational Neglect**

The Board of Education believes regular attendance is important to academic success. Therefore, the Board directs that problems with attendance on the part of any student be investigated and acted upon promptly.

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 R.S.Mo. mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's nonattendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline to the Missouri Division of Family Services (DFS). The building principal shall inform the Superintendent/designee that a report has been made, and keep the Superintendent apprised of the status of the case.

### **Student Educational Records**

A cumulative educational record shall be maintained for each student from his/her entrance into school through the last date of attendance or through graduation, whichever occurs first.

Each student's educational record will include information required by state and federal statutes, regulations or agencies and shall include other information considered necessary by school officials.

The District will comply with the mandates of the Family Educational Rights and Privacy Act (FERPA) and the Safe Schools Act regarding confidentiality of student records and disclosure of personally identifiable information.

The parents/guardians of students who are attending or have attended the District's schools have the right to inspect and review the educational records of their students and to request amendment of their students' educational records. The District has adopted procedures (Regulation 2400) for the granting of parental requests for access to the educational records of their students within a reasonable period of time, but in no case more than forty-five (45) days after the request is made.

All information contained in a student's educational record, except information designated as directory information by the District, shall be confidential and shall be directly accessible only to school officials who demonstrate a legitimate educational interest in the student's records and to parents/guardians or eligible students.

Upon request by military recruiters or an institution of higher learning, the District will provide students' names, addresses and telephone listings. Parents will be notified annually of their right to individually request that such information not be released without prior parental consent. Military recruiters will be provided the same access to students as is given to institutions of higher learning.

#### **Grade Placement for Transfer Students**

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student's previous record, achievement tests administered, or other factors which the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

#### **Transfers from Unaccredited Schools**

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal through assessment of student's age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student's former school.

#### **Promotion and Retention**

The purpose of promotions and retentions is to provide maximum consideration for the long range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the last student attendance day.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District's objectives for reading, are contained in Regulation 2520 – Promotion and Retention.

**Student Academic Achievement****Graduation Requirements - Students with Disabilities**

The District must provide a free appropriate public education (FAPE) for students with disabilities pursuant to the Individuals with Disabilities Education Act (IDEA) until they graduate or until the student reaches twenty-one (21) years of age.

Students with disabilities pursuant to the IDEA who have completed four years of high school shall be allowed to participate in the graduation ceremony of the student's high school graduating class and all related activities if the student's individualized education program (IEP) prescribes special education, transition planning, transition services, or related services beyond the student's four years of high school, and the student's individualized education program team determines the student is making satisfactory progress toward the completion of the individual education program and participation in the graduation ceremony is determined appropriate.

The District shall provide timely and meaningful written notice to children with disabilities and their parents or guardians about this policy. [Notice of the District's policy shall be provided at the annual IEP meeting that occurs prior to the student's fourth year of high school.] The purpose of the notice is to inform parents and students about the policy and should not be confused with IDEA notices of action relating to the identification, evaluation, placement, or provision of FAPE.

This policy does not apply to non-IDEA students.

#### **Early Graduation**

Graduation, with all attendant privileges, will be allowed any time after seven (7) semesters of attendance beginning with grade nine and attainment of all requirements as set by the state and local School Boards. Early graduation should be part of a cooperative plan arrived at by students, their parent/guardian, and the school.

The above requirements may be modified in exceptional cases with approval of the Board of Education, upon recommendation of the Superintendent.

**Discipline**

The District has the authority to discipline for student conduct that is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, and during school-sponsored activities. Students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline up to and including expulsion. However, no student will be confined in an unattended locked space except for emergency situations while awaiting the arrival of law enforcement officials.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610, the code of student conduct, and/or state or federal law. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events); the reassignment of the student to another school; removal for up to ten (10) school days by building principals; extension of suspensions for a total of 180 days by the Superintendent; and longer term suspension and expulsion from school by the Board of Education. See also Policies 2610, 2662, and 2663.

Removal of any student who is a student with a disability under Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act is subject to state and federal procedural due process rights. See policy 2672 and its corresponding regulation.

The District will provide annual in-service training to all employees concerning the District's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities, and the requirements of student confidentiality.

Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to discipline the student, to deter future misconduct, and to provide a safe and positive environment in which students can learn. Students who engage in significant acts of misconduct off campus which materially and adversely impact the educational environment of district students to the extent allowed by law will be subject to discipline up to and including expulsion.

#### **Firearms and Weapons in School**

The District recognizes firearm and weapon possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms or weapons on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994 and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis. Students with disabilities under the Individuals with Disabilities Act and/or Section 504 of the Rehabilitation Act are entitled to the protections of those laws.

This policy will be annually submitted to the Department of Elementary and Secondary Education together with a report of disciplinary action taken for possession of a "firearm" or "weapon" as defined in Regulation 2620.

### **Closed Campus**

With the safety and welfare of the students in mind, the Board of Education has closed all campuses during the school day. Permission to leave school will be granted only for valid reasons, and only with a written request signed by a parent/guardian. In emergency situations, a telephone call from a parent/guardian may suffice, with approval of the building principal.

**Discipline****Student Use of Tobacco, Alcohol and Drugs****Smoking**

The Board of Education believes that smoking and the use of any tobacco products or substances appearing to be tobacco products are detrimental to the health and well-being of staff and students. Therefore, the Board prohibits the use, sale, transfer, and possession of any tobacco products or substances appearing to be tobacco products, i.e. e-cigarettes, at school and at school activities.

**Alcohol and Drug Use**

The improper use of controlled substances, alcohol, and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct, as well as the possession of drug paraphernalia, is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Pursuant to 29 U.S.C. 705(20c)(iv), a student with a 504/ADA disability who is currently engaging in the illegal use of alcohol or drugs is not considered a student with a disability under those laws, and the District may take disciplinary action – to the same extent that disciplinary action is taken against nondisabled students – in relation to that use or possession of alcohol or drugs. In such cases, the due process procedures contained in the Section 504 regulations will not apply to protect those students. This provision does not apply to students who are identified as disabled under the Individuals with Disabilities Education Act. However, school personnel may remove an IDEA disabled student to an interim alternative educational setting for not more than 45 school days without regard to whether that student's behavior is a manifestation of his/her disability where that student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the District's jurisdiction. "Illegal drug," as it pertains to the discipline of IDEA students, means a controlled substance but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or under any other authority.

The determination of whether or not a student is under the influence of alcohol or a controlled substance is based upon a variety of information including but not limited to physical appearances, speech patterns, and witnesses' statements. While not required, District administrators may request a student suspected of alcohol use to submit to a Breathalyzer. Conduct that includes possession of or use of alcohol or controlled substances as well as the possession of drug paraphernalia is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

(See also Policy 6130 – Drug Education.) Such programs will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. The District officials will cooperate fully with all law enforcement agencies in the prevention of crimes against District property as well as in the prosecution of persons involved in such conduct.

The District will seek restitution from students and other persons who have damaged or destroyed District property. As permitted by law, the District will also seek restitution from the parent/guardian of children involved in such misconduct.

**Discipline****Bullying**

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation toward District personnel or students on school grounds, during the school day, at any school-sponsored activity, or in any school-related context. Bullying of students and District personnel is prohibited on all school property, during any District-sponsored activity, and on all District school buses.

“Bullying” means intimidation, unwanted aggressive behavior, or any other unwanted negative action that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, cyberbullying, electronic or written communication, and any threat of retaliation for reporting such acts.

Bullying occurs when a student:

- Communicates to another individual by any means (including face to face, by telephone, in writing, through cyberbullying, or via electronic communications), an intention to intimidate, or inflict physical, emotional, or mental harm without legitimate purpose, or
- Physically contacts another individual with the intent to intimidate or to inflict physical, emotional, or mental harm without legitimate purpose. Physical contact does not require physical touching, although touching may be included.

“Cyberbullying” means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager.

The District shall have jurisdiction to prohibit cyberbullying that originates on a school’s campus or at a District activity if the electronic communication was made using the school’s technological resources, if there is sufficient nexus to the educational environment, or if the electronic communication was made on the school’s campus or at a District activity using the student’s own personal technological resources. The District may discipline any student for such cyberbullying to the greatest extent allowed by law.

### **Anti-Bullying Coordinator**

The Superintendent shall, on an annual basis, appoint a District employee who is teacher-level staff or above at each school to serve as the Anti-Bullying Coordinator.

The list of District Anti-Bullying Coordinators shall be kept on file at central office, along with this Policy.

### **Reporting**

District employees are required to report any instance of bullying of which the employee has first-hand knowledge. District employees who witness an incident of bullying are required to report the incident to the school Anti-Bullying Coordinator within two (2) school days of the employee witnessing the event, unless the Anti-Bullying Coordinator is unavailable or is the subject of a report. In that case, the report should be made directly to the District's Compliance Officer (see Board Policy 1310).

All District employees shall instruct all persons seeking to report an incident of bullying to communicate directly with the Anti-Bullying Coordinator.

If a verbal report is made, the person will be asked to submit a written complaint to the Anti-Bullying Coordinator. If such person refuses or is unable to submit a written complaint, the Anti-Bullying Coordinator will summarize the verbal complaint in writing.

Even if a written complaint is not directly filed, if the Anti-Bullying Coordinator otherwise learns about possible bullying or cyberbullying, the District will conduct a prompt, impartial, adequate, reliable, and through investigation to determine whether unlawful conduct occurred and will implement the appropriate interim measures, if necessary. The District may take action upon finding a violation of law, District policy, or District expectations even if a complaint is not directly filed.

### **Investigation**

Within two (2) school days of receiving a report of an incident of bullying, the Anti-Bullying Coordinator, the school principal, or his/her designee shall initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation.

The investigation shall be completed within ten (10) school days from the date of the written complaint of bullying, unless good cause exists to extend the investigation.

### **Retaliation**

The District prohibits retaliation against any person who files a complaint of bullying,

cyberbullying, or retaliation, and further prohibits retaliation against any person who testifies, assists, or otherwise participates in any investigation, proceeding, or hearing relating to such bullying, cyberbullying, or retaliation. The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who retaliates against any such person.

### **Consequences and Remedies**

When the District receives a report of bullying, cyberbullying, and/or retaliation, the District will take appropriate interim measures to protect the alleged victim(s). If, after investigation, it is determined that bullying, cyberbullying, and/or retaliation did occur, the District shall take prompt, effective, appropriate action reasonably calculated to end the bullying, cyberbullying, and/or retaliation and to protect individuals from further bullying, cyberbullying, and/or retaliation.

Students who are found to have violated this policy will be subject to the following consequences: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in-school suspension, out-of-school suspension, expulsion, and/or law enforcement contacted. Consequences imposed shall depend on factors such as: age of student(s), degree of harm, severity of behavior, disciplinary history and number of incidents.

The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who is found to have violated this Policy. Patrons, contractors, visitors, or others who violate this Policy may be prohibited from District property or otherwise restricted while on District property.

### **Public Notice**

The superintendent or designee will continuously publicize the District's anti-bullying policy and will disseminate information to employees, parents/guardians, and students, as well as to newly-enrolled students and newly-hired employees, regarding how to report incidents of bullying. This Policy shall also be published in District student handbooks.

In addition, the District shall:

- a. Provide information and appropriate training to district staff who have significant contact with students regarding the policy;
- b. Give annual notice of the policy to students, parents/guardians, and staff;

- c. Provide education and information to students regarding bullying, including information regarding the school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying (including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have
- d. engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying);
- e. Instruct school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques shall include, but not be limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills; and/or encouraging the student to develop an internal locus of control; and
- f. Implement programs and other initiatives to address bullying, respond to such bullying conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying.

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken. Complaints alleging unlawful discrimination, harassment, or retaliation in violation of Board Policy/Regulation 1300 and/or 1310 shall be referred to the compliance officer for investigation pursuant to Board Policy/Regulation 1310.

#### **Reporting Student Abuse**

The Board of Education believes that school staff members are in a unique position to assist children, families, and the community in dealing with the issue of child abuse and neglect. Child abuse is defined as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means. Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's well-being. Employees making reports of allegations of sexual abuse of a student will be provided immediate unrestricted use of communication technology and will be temporarily released from their work duties to make an immediate report.

If a school employee has a reasonable belief, including a report of abuse, to believe that a student has been or may be subjected to abuse or neglect, such employee and the Superintendent shall forward the information immediately upon receiving the information to the Children's Division. Thereafter, the Superintendent will investigate the allegation for the purpose of making decisions about the accused person's employment. Depending upon the specific facts, the District may place the alleged abuser on paid leave of absence; place the employee in a non-student contact position; initiate dismissal proceedings; or continue the employee in their present position pending outcome of the investigation.

Any school district employee, acting in good faith, who reports alleged sexual misconduct on the part of a school employee will not be disciplined or discriminated against because of such reporting.

The District will annually provide employee training, which will include but not be limited to current information concerning identification of the signs of sexual abuse in children as well as the identification of the danger signals of potentially abusive relationships between children and adults. This training will emphasize the importance of mandatory child abuse reporting, including the obligation to report suspected abuse by other mandated reporters. Employees will receive training on the need for and methods to create an atmosphere of trust so that students believe their school and school employees are available to discuss matters concerning abusive behavior.

The District will post in each student restroom and in a clearly visible location in each school office, the toll free child abuse and neglect hotline number established by the Children's Division. These signs will be published in both English and Spanish. Such child abuse and neglect hotline numbers shall be depicted in large print on posters 11 inches by 17 inches and will be placed at eye level for easy viewing. The hotline number will be shown in bold print. The signs shall also contain instructions to call 911 for emergencies and contain directions for accessing the Children's Division's website for more information on reporting abuse and neglect.

#### **Student Safety**

The District places a high priority on the safety of its students and employees. When a student or employee is the victim of a violent criminal offense, severe disciplinary consequences will be imposed. (See also Regulation 2610 – Behavioral Expectations.) In addition and pursuant to the No Child Left Behind Act of 2001, student victims of a violent criminal offense that was committed on school premises will be offered transfer to another District school. To insure awareness of this policy, the parents of student victims will be notified in writing of their right to a school transfer.

For purposes of this policy, a *victim* is a student who has suffered personal injury or injuries to his or her property as a direct result of a violent criminal offense. This definition does not include bystanders or witnesses to the act unless they suffered personal or property injury as a direct result of a violent criminal offense while on school premises.

#### **Wellness**

The District promotes healthy schools, by supporting wellness, good nutrition, and regular physical activity as part of the total learning environment. The District supports a healthy environment where children learn and participate in positive dietary and lifestyle practices. Schools contribute to the basic health status of children by facilitating learning through the support and promotion of good nutrition and physical activity. Improved health optimizes student performance potential. The goals of the District's wellness policy are as follows:

**1. Provide a comprehensive learning environment for developing and practicing lifelong wellness behaviors.**

The entire school environment, not just the classroom, shall be aligned with healthy school goals to positively influence a student's understanding, beliefs, and habits as they relate to good nutrition and regular physical activity. A healthy school environment should not be sacrificed because of a dependence on revenue from high added fat, high added sugar, and low nutrient foods to support school programs.

**2. Support and promote proper dietary habits contributing to student's health status and academic performance.**

All foods available for purchase on school grounds and at school-sponsored activities during the instructional day should meet or exceed the district nutrition standards. Emphasis should be placed on foods that are nutrient dense per calorie. To ensure high quality, nutritious meals, foods should be served with consideration toward variety, appeal, taste, safety, and packaging.

**3. Provide more opportunities for students to engage in physical activity.**

A quality physical education program is an essential component for all students to learn about and participate in physical activity. Physical activity should be included in a school's daily education program from grades K through 12. Physical activity should include regular instructional physical education, co-curricular activities, and recess.

**4. The District is committed to improve academic performance.**

Educators, administrators, parents, health practitioners, and communities should consider the critical role student health plays in academic stamina and performance and adapt the school environment to ensure students' basic nourishment and activity needs are met.

**5. Establish and maintain a district-wide Nutrition & Physical Activity Advisory Council with the purposes of:**

- Developing guidance to this policy
- Monitoring the implementation of this policy
- Serving as a resource to school sites

#### **Foster Care Bill of Rights**

The District is committed to ensuring and facilitating the proper educational placement, enrollment in school and checkout from school for foster children.

In order to facilitate this process and to serve as the educational liaison for District foster children, the District will designate the Director of Neighborhood Family Services to oversee and assess the District's foster care program.

A foster care child whose home placement is changed may remain enrolled and attend their school of origin, or return to a previously attended school in an adjacent district. The District will accept for credit full or partial course work satisfactorily completed by a foster child while attending a public school, nonpublic school or non-sectarian school in compliance with District policies, regulations and practices.

If a child in foster care is absent from school due to a decision to change the placement of a pupil made by a court or child placing agency, or due to a verified court appearance or related court-ordered activity, the grades and credits of the pupil will be calculated as of the day the pupil left school and no reduction in grades will occur as a result of the pupil's absence under these circumstances.

If a foster care student transfers into the District prior to or during a school year, the District will initially honor the placement of the student in educational courses and programs based on the student's prior enrollment or educational assessments; will provide comparable services to transferring foster care students with disabilities based on the student's current IEP; and will make reasonable accommodations and modifications to address the needs of a student with disabilities, subject to an existing 504 or Title II Plan in order to provide equal access to education. The District will conduct evaluations, where necessary, to ensure proper placement and services.

The District will waive specific courses required for graduation if similar course work has been satisfactorily completed at another school. Similarly, the District may waive prerequisites for placement in a District course or program based upon courses taken at a prior school. If a waiver is denied for reasonable justifications, the District will provide an alternative means of acquiring the required course work so that graduation may occur on time. If foster care students who transfer at the beginning of their senior year or during their senior year are deemed ineligible to graduate after all alternatives have been considered, the sending District and this District will ensure that a qualified student who satisfied graduation requirements of the sending school, will receive a diploma from the sending school.

Students in foster care who have completed the graduation requirements of the District while under juvenile court jurisdiction will receive a diploma in the same manner as other District students.

The term does not include such interventions as voice control, limited to loud, firm commands; time-limited ignoring of a specific behavior; token fines as part of a token economy system; brief physical prompts to interrupt or prevent a specific behavior; interventions medically necessary for the treatment or protection of the student. Corporal punishment administered in accordance with state law is not an aversive intervention for the purpose of this policy.

“**Behavior Intervention Plan (BIP)**” means a plan developed by an IEP team for a student with a disability who displays need for specific behavior interventions for chronic patterns of problem behavior. If a disabled student’s team develops a BIP in those circumstances, the BIP becomes a part of the IEP.

“**Discipline**” means consequences for violating the district’s student code of conduct.

“**Emergency situation**” is one in which a student’s behavior poses a serious, probable threat of imminent physical harm to self or others or destruction of property.

“**Functional Behavior Assessment**” a formal assessment to identify the function or purpose the behavior serves for the student so that classroom interventions and behavior support plans can be developed to improve behavior. **“Mechanical restraint”** means a device or physical object that the student cannot easily remove that restricts a student’s freedom of movement of or normal access to a portion of his or her body. This includes but is not limited to straps, duct tape, cords or garments. The term does not include: (1) an adaptive or protective device recommended by a physician or therapist when used as recommended; (2) safety equipment used by the general student population as intended (e.g. seat belts, safety harnesses on student transportation; or (3) assistive technology devices.

**“Physical restraint”** means the use of person-to-person physical contact to restrict the free movement of all or a portion of a student’s body. This would include, for example, the act of preventing a student from leaving an enclosed space for safety purposes. Safe Room placement also includes the confinement of a student alone in a room with a staff-engaged locking system where the student is constantly attended and supervised by school personnel through a window or other viewing device. Safe Room placement does not include supervised in-school suspension, detention, or timeout/time away used as disciplinary consequences in accordance with the district’s student discipline code.

- Any person working on school grounds or at a school function for another agency providing educational or related services to students.

**“Seclusion”** means the confinement of a student alone and unattended in an enclosed space from which the student is physically prevented from leaving by locking hardware. Seclusion does not include situations where a student is alone in a locked room if the student is constantly attended and supervised by school personnel through a window or other viewing device.

“**Section 504 Plan**” means a student’s individualized plan developed by the student’s Section 504 multidisciplinary team after a pre-placement evaluation finding the student is disabled within the meaning of Section 504 and its implementing policy.

“**Time out**” means brief removal from sources of reinforcement within instructional contexts that does not meet the definition of seclusion or Safe Room placement. Time out includes both of the following:

- a) Non-exclusionary time out: removal of reinforcers from the student without changing the physical location of the student (*e.g.*, asking the student to put his/her head down on the desk); and
- b) Exclusionary time-out: removal of the student from participation in an activity or removal from the instructional area.

### **Use of Restrictive Behavioral Interventions:**

#### **Time-Out**

Nothing in this policy is intended to prohibit the use of time-out as defined in this section.

#### **Seclusion**

Seclusion as defined in this policy is strictly prohibited.

#### **Use of Aversive Interventions**

Aversive interventions will only be used in accordance with this policy. District personnel shall never use aversive interventions that compromise health and safety.

##### **o Safe Room Placement**

Safe Room placement, as defined in this policy, may only be used by authorized school personnel, as defined in this policy.

At the time a student’s Individualized Education Program (IEP), Section 504 plan, BIP, or other parentally agreed-upon plan to address a student’s behavior is developed, the parent/guardian will be provided with a permission form regarding the use of the Safe Room.

If a student’s parent/guardian has not had the opportunity to sign the permission form because no IEP, Section 504 Plan, BIP, or other parentally agreed-upon plan to address a student’s behavior is in place for the student, the following procedure will take place if deemed necessary by school personnel:

- The classroom will be cleared of all other students and the student's behavior will be managed in that room, if appropriate;
- The student will be disciplined in accordance with the student discipline code;
- A parent/guardian will be notified of the need to clear the classroom due to the student's behavior and of the discipline imposed;
- A behavior team meeting will take place within five (5) school days following the incident and a BIP or other parentally agreed upon plan will be developed for the student, if necessary.

If a student's parent/guardian has signed the permission form, the Safe Room will be utilized for that student if necessary and a staff member will be present in the room with the student at all times unless one of the following escalations in conduct occurs: (1) the student becomes physically violent; (2) the student expels bodily fluids; or (3) the student begins disrobing. If any of these escalated behaviors occurs, the staff member will leave the room, utilize the staff-engaged locking system, and supervise the student through a window or other viewing device.

If a parent chooses not to give permission for his/her student to be placed in the Safe Room, the following procedure will take place if deemed necessary by school personnel:

- The student will be taken to the Recovery Room;
- The Recovery Room will be cleared of all other students;
- The student's parent/guardian will be notified of the behavior issue and will be required to pick-up the student from school;
- Law enforcement officials will be notified if an assault or other crime has occurred and charges may be pressed against the student; and
- If the parent/guardian of the student fails to pick-up the student within thirty (30) minutes of receiving notification of the behavior issue (or if the parent/guardian cannot be reached upon reasonable attempts by school personnel) and it is determined that an emergency situation exists, the student will be placed in the Safe Room.
- The parent/guardian will be responsible for any and all damage to property caused by their student during the incident.

Use of Safe Room placement requires all of the following:

- The student to be monitored by an adult in close proximity who is able to see and hear the student at all times. Monitoring shall be face-to-face unless personal safety of the child or staff member is significantly compromised, in which case technology-supported monitoring may be utilized.
- The total time in Safe Room placement is to be reasonably calculated by District personnel on a case-by-case basis based on the age of the child and circumstances, and is not to exceed 40 minutes without a reassessment of the situation and consultation with parents and/or administrative staff, unless otherwise specified in an IEP or Section 504 Plan or other parentally agreed-upon plan to address a student's behavior.

- The space in which the student is placed should be a normal-sized meeting or classroom commonly found in a school setting.
- The space in which the student is placed is comparable in lighting, ventilation, heating, cooling, and ceiling height to those systems that are in use in other places in the school.
- The space in which the student is placed must be free of objects that could cause harm.

Safe Room placement shall never be used as a form of punishment or for the convenience of school personnel.

- **Physical Restraint**

Physical restraint shall only be used in one of the three circumstances below:

- In an emergency situation as defined in this policy;
- When less restrictive measures have not effectively de-escalated the situation; or
- When otherwise specified in an IEP, Section 504 Plan or other parentally agreed-upon-plan to address a student's behavior.

Physical restraint shall:

- Only be used by authorized school personnel as defined in this policy.
- Only be used for as long as necessary to resolve the actual risk of danger or harm that warranted the use of the physical restraint;
- Use no more than the degree of force necessary to protect the student or other persons from imminent physical harm [or harm to property];
- Not place pressure or weight on the chest, lungs, sternum, diaphragm, back, neck or throat of the student which restricts breathing; and
- Only be done by school personnel trained in the proper use of restraint.

Any school personnel using physical restraint shall:

- Use only methods of restraint in which the person has received district approved training.
- 
- Conduct restraint with at least one additional adult present and in line of sight, unless other school personnel are not immediately available due to the unforeseeable nature of an emergency situation.

Physical restraints should never be used as a form of punishment or for the convenience of school personnel.

- **Mechanical Restraint**

Mechanical restraint shall only be used as specified in a student's IEP, Section 504 plan,

BIP, or other parentally agreed-upon plan to address a student's behavior with the exception of mechanical restraints employed by law enforcement officers in school settings used in accordance with law enforcement policies, procedures, and appropriate professional standards.

- **Chemical Restraint**  
Chemical restraints shall never be used by school personnel.

### **Communication and Training**

- **School Personnel Meeting**  
Following any situation involving the use of Safe Room placement or restraint, as defined in this policy, a meeting shall occur as soon as possible but no later than two (2) school days after the emergency situation. The meeting shall include, at a minimum, a discussion of the events that led to the emergency and why the de-escalation efforts were not effective; any trauma reactions on the part of the student, other students or school personnel; what, if anything, could have been done differently; and an evaluation of the process.
- **Parental Notification**  
Except as otherwise specified in a student's IEP, Section 504 plan, BIP, or other parentally agreed-upon plan to address a student's behaviors:

Following a situation involving the use of restraint or use of the Safe Room where the staff member was required to leave the room due to escalated behaviors, the parent or guardian of the student shall be notified through verbal or electronic means of the incident as soon as possible, but no later than the end of the day of the incident unless circumstances render it unreasonable or impossible to notify the parent or guardian by the end of the day in which case the parent or guardian shall be notified through verbal or electronic means of the incident no later than noon of the next day.

- The parent or guardian shall receive a written report of the emergency situation within five (5) school days of the incident. The written incident report shall include all of the following:
  - Date, time of day, location, duration, and description of the incident and de-escalation interventions.
  - Event(s) that led up to the incident.
  - Nature and extent of any injury to the student.
  - Name of a school employee the parent or guardian can contact regarding the incident, and contact information for that employee.
- **Staff Training**  
School districts shall ensure that all school personnel are trained annually regarding the

policy and procedures involving the use of seclusion, Safe Room placement and restraint.

**Students with Disabilities**

The foregoing policy applies to all students. However, if the IEP or multi-disciplinary team determines that a form of restraint, Safe Room placement, or aversive behavior intervention may be appropriate in certain identified and limited situations, the team may set forth the conditions and procedures in the IEP or Section 504 plan. Any use of restraint, Safe Room placement, or aversive behavior interventions must be limited to what is set forth in the IEP or Section 504 plan unless otherwise provided for in this policy. Before adding the use of restraint, Safe Room placement, or aversive behavior interventions to an IEP or Section 504 plan, the student must have undergone appropriate assessments which may include, but are not limited to, a functional behavior assessment, a review of existing data, and formal assessment observations. The plan must outline preventative techniques, de-escalation strategies, and the development of coping strategies, and the preventative techniques should support the elimination of the use of restraint, Safe Room placement, or aversive behavior intervention over time.

**Reports on Use of Safe Room Placement, Restraint or Aversive Behavior Interventions**

The District will maintain records documenting the use of Safe Room placement and restraint showing each of the following: when they were used, reason for use, duration of use, names of school personnel involved, whether students or school personnel were injured, name and age of the student, whether the student has an IEP, Section 504 plan, Behavior Intervention Plan (BIP) or other personal safety plan when the parents were notified, if the student was disciplined, and any other documentation required by federal or state law.

**Applicability of this Policy**

This policy applies to all district school personnel. School personnel assigned to programs not located on district premises (hospitals, detention centers, juvenile facilities, and mental health facilities) shall follow the policy and procedure of the facility/program where they work.

1. Parents
2. Student's legal guardian
3. Relative caregiver
4. Foster parent
5. Any person who under court order is authorized to give consent for a student

A "relative caregiver" is defined by statute as a competent adult (18 years of age or older) who is related to the student by blood, marriage, or adoption and who is not the parent. Relative caregivers are required to provide an affidavit attesting that the student lives with the relative caregiver and they are responsible for the care of the student. (See Form 2835).

A relative caregiver acting under the requirements of an affidavit may consent to medical treatment and educational services for a student who cannot otherwise legally consent if the parent has delegated these responsibilities in writing or if after reasonable efforts the consent of the parent cannot be obtained.

The consent of the relative caregiver will be revoked in the event the student's parent withdraws their authorization provided the parent's decision does not threaten the life, health or safety of the student. In addition, if the student ceases to live with the relative caregiver, the relative caregiver must immediately notify the District. Upon receipt of such notice, the relative caregiver can no longer consent to medical treatment or educational services.

A relative caregiver's affidavit is valid for one year from the date received by the District.

#### **Students with Communicable Diseases**

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

#### **Administering Medicines To Students**

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. The Board of Education recognizes that some students may require medication for chronic or short-term illness/injury during the school day to enable them to remain in school and participate in their education. Employees providing routine first aid according to District procedures will be immune from liability or disciplinary action. Similarly, trained employees will be immune from civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices. The Board of Education also recognizes that the administration of medication may be required under Section 504 of the Rehabilitation Act of 1973 and/or the Individuals with Disabilities Education Act to provide a free appropriate public education for identified as disabled under those laws.

#### **Student Allergy Prevention and Response**

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.

This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

#### **Identification**

An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

#### **Prevention**

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.

All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.

Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.

The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list for all foods provided by

the district as part of the district's nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.

Prepackaged items used in concessions, fundraisers and classroom activities must include a list of ingredients on the package. If the package does not contain a list of ingredients, the list of ingredients must be available at the location where the package is sold or provided.

### **Education and Training**

All staff members will be annually trained on the causes and symptoms of and responses to allergic reactions. Training will include instruction on the use of epinephrine premeasured auto-injection devices.

Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

### **Confidentiality**

Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

### **Response**

Response to an allergic reaction shall be in accordance with established procedures, including application of the student's 504 Plan or IHP/EAP, where applicable. Each building will maintain an emergency supply of epinephrine premeasured auto-injection devices to be administered in accordance with Board policy, and if parents are aware that their student(s) have a life-threatening allergy, they should supply the school with the epinephrine premeasured auto-injection devices to be administered in accordance with Board policy.

#### **Student Physical Examination**

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless State or Federal law specifically mandates the examination to be the responsibility of the school.

**Student Services****Do Not Resuscitate (DNR) Orders**

The School District recognizes that some students have progressive medical conditions that may result in the students' death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.

At a minimum, the procedures will require an individualized evaluation of each request. The procedures will comply with federal and state law. A health care and resuscitation/non-resuscitation plan shall be developed for each request and shall include a determination regarding what if any resuscitation efforts are appropriate. Health care and resuscitation/non-resuscitation plans will be developed by a multidisciplinary team that shall include the student's parents or guardians and physician; appropriate school personnel (including but not limited to, the principal, counselor, and school nurse) and their consultants; and when appropriate, the student. This team will consider the best interests of the student.

The team will also address and plan for the effect of a student's sudden death on other students and staff in each school setting in which the student participates. Health care and resuscitation/non-resuscitation plans shall be reviewed regularly and have a specific limited duration. Such plans will be communicated to all school personnel who have a need to know in order to implement these plans. The administration shall coordinate with local emergency medical services to implement the plans.

#### **Student Publications**

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The Board of Education recognizes that freedom of speech and press bring corresponding responsibilities, therefore, in its inherent authority based on Missouri Public School Law, it designates the school principal as the Board's representative. The principal, through appointment of a faculty advisor or committee, shall provide guidance to students in appropriate methods for preparing and producing publications.

The building principal/designee may delay or stop distribution of any materials proposed for printing or that have been printed which may be reasonably forecast to cause substantial and material disruption or obstruction of any lawful mission, process, or function of the school or school district.

#### **Interscholastic Activities and Athletics**

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

#### **Hazing**

Student hazing is inconsistent with the educational goals of the District and poses a significant risk to the physical and mental welfare of District students. Hazing of students, on or off District property, is prohibited and may result in suspension or expulsion from school and from activity/athletic participation.

Pursuant to the Equal Access Act, District secondary schools will provide an opportunity for student-initiated noncurricular groups to conduct meetings on school premises, during noninstructional time, and will not discriminate against students on the basis of the religious, political, philosophical, or other content of the speech at such meetings.

An activity is to be considered curricular if the subject matter is or will be taught in a regularly offered class; if the subject matter concerns the body of courses as a whole; if participation in the group is a requirement for a course; or if academic credit is available for participation. Extracurricular activities include activities organized and supervised under the auspices of the school. Extracurricular activities primarily involve students in activities occurring outside academic class time, for which no units of credit are awarded. Any activity which does not meet the definition of a curricular or extracurricular activity will be considered noncurricular.

## **Policy 3100** **(Regulation 3100)**

### **Financial Management**

The Board of Education will adopt a series of policies to provide direction regarding the District's budget and financial affairs which reflect the educational philosophy of the School District and provide a framework in which the District's administration can effectively operate.

The budget and finance processes will conform to all state and local requirements as set forth by the State constitution, State statutes, Department of Elementary and Secondary Education rules, and Board policies.

Good business necessitates keeping accurate, legal and understandable records of receipts and expenditures. It is also essential that procedures be followed which will help to insure that the budget adopted by the Board of Education is effective in providing parameters for the fiscal affairs of the School District.

The purpose of the District budget and finance policies will be to provide direction for a systematized procedure that maintains continuity from year to year and informs the public regarding the education and financial operations of the School District.

**Financial Operations**

**Debt Management Policy**

The debt management policy of the District is to remain in full compliance with statutes of the State of Missouri by borrowing within the allowable limits of no more than fifteen percent (15.00%) of the District's assessed valuation, which can include state assessed railroad and utility properties located within its boundaries. It is also important that the District exercise caution and prudence concerning its full compliance with the rules and regulations of the United States Department of the Treasury Internal Revenue Service (IRS) to avoid any risk of loss of the tax exempt status of any proposed financings, as well as those currently in existence. Generally the improper spending of the bond proceeds is what triggers a violation of IRS regulations and not complying with the ballot language for the projects can create problems with the Missouri State Auditor and local patrons.

In terms of philosophy toward the monitoring of a long term debt management policy, the Board of Education and Administrators recognize that to achieve the necessary 4/7 or 2/3 majority for approval by the voters of general obligation bond issues it is likely to be much easier if no increase in the debt service fund levy occurs. As a result, it is the District's practice to issue general obligation bonds with optional redemption (call) provisions that facilitate prepayments when excessive debt service fund balances accumulate with the goal of maintaining a constant debt service fund levy. This policy has enabled the District to achieve significant interest savings by issuing refunding bonds to capture lower interest when municipal bond markets change.

On occasion the District may consider capital facilities or equipment lease financing programs. It is the intent to only enter into those types of transactions when it is clear based upon reports from the District's Municipal Bond Underwriter that such a program is affordable and that its implementation does not harm the overall operating budget. If the project and lease financing are deemed essential, but beyond the range of reasonable affordability, the Board of Education and Administration will approach the voters for a temporary or permanent increase in the operating levy to produce the additional revenue.

Since general obligation bond issues and capital facilities or equipment lease financings happen intermittently, it presents challenges for administrators and board members to keep fully informed about the conditions of the municipal bond market, changing rules and regulations issued by the U.S. Treasury Department, etc. For these reasons the Board of Education engages the service of a municipal bond underwriter on a continuing basis to assist the administrators and board members to keep up to date and understand what refunding opportunities exist and what actions are necessary to preserve the existing debt service fund levy to remain on track with the long range facilities plans.

The Superintendent of Schools and other staff providing assistance with those special duties are responsible to the Board of Education for carrying out this policy.

**Financial Management**

**Fraud Prevention**

The District is committed to protecting the public funds with which it has been entrusted. Minimizing the losses to fraud and corruption is an essential part of ensuring that all of the District's resources are used for the purpose for which they are intended.

The public is entitled to expect the District to conduct its affairs with integrity, honesty and openness, and demand the highest standards of conduct from those working for it and with it.

**Definition of Fraud and Corruption**

Although there is no precise legal definition of fraud, the term is used to describe a multitude of offences, including deception, forgery, theft, misappropriation, collusion and false representation of material facts.

Corruption arises when a person receives any benefit which influences them and causes them to act differently when conducting District business.

**The District's Response**

Board policy requires that matters involving any financial irregularities are referred to the Superintendent for investigation. These matters are taken seriously and additional action, such as disciplinary proceedings and/or prosecution, will be taken where evidence of offences is found.

The Superintendent/designee will:

- ◆ Compile a report of findings for submission to the Board with a recommendation as to whether disciplinary action is appropriate.
- ◆ Where appropriate, coordinate with the police in order for them to consider taking criminal action.
- ◆ Advise departments on how to address procedural weaknesses identified during investigation.

**The Investigation Process**

The purpose of any investigation is to establish the facts in an equitable and objective manner.

The process will involve the use of authority or delegated powers to:

- ◆ screen allegations or information to gauge their credibility;
- ◆ secure all evidence;

- ◆ interview suspects;
- ◆ interview witnesses;
- ◆ take statements; and
- ◆ coordinate with departments or other agencies (including the police).

The Superintendent/designee will establish and record the basis of the concerns raised and establish what further actions are required. The Board will be informed of all reported disclosures and the actions being taken. In the case of disclosures on alleged fraud and corruption, the Chief Financial Officer will inform the District's external auditors.

Whenever possible, the individual raising the concern will be advised of the outcome of the investigation. If an individual is not satisfied with the response received and any subsequent action taken, they should put their concerns in writing to the Superintendent who will arrange any further investigation as he/she deems appropriate. The Superintendent will send a written response to the individual concerned.

### **Reporting Suspicions**

If fraud or corruption is suspected, then the matter should be reported without delay. Employees should report suspicions to a supervisor at the outset and retain all evidence. However, if it is thought the supervisor might be involved or there may be a conflict of interest, the matter should be reported directly to a more senior administrator.

It is recognized that for some individuals, raising a concern under this procedure may be a difficult experience. All reported incidents will be investigated.

All reports will be dealt with in confidence, with staff being informed on a need to know basis only.

To ensure that this policy is adhered to, and to assure staff that the concern will be taken seriously, the District will:

- ◆ not allow the person raising the concern to be retaliated against for doing so;
- ◆ treat retaliation against whistle blowers as a serious matter leading to disciplinary action that may include dismissal;
- ◆ not attempt to conceal evidence of poor or unacceptable practice;
- ◆ take disciplinary action if an employee destroys or conceals evidence of poor or unacceptable practice or misconduct; and
- ◆ ensure confidentiality clauses in employment contracts do not restrict, forbid or penalize whistle blowing.

**Overall Objectives**

The District's overall objective is to identify and maintain good practices, address weaknesses in current processes and introduce improved systems for the management of those processes. The end result is that of minimizing the amount of fraud and corruption which may occur within the system and significantly reduce the opportunity for fraud or corruption to occur in the future.

The District will maintain the following funds for the accounting of District moneys: teachers' fund, incidental fund, capital projects fund and debt service fund. The treasurer of the District will open and maintain an account for each fund. These funds are denoted for state reporting purposes as: General Fund, Fund 1 – comprised of the Incidental; Fund 2 – the Special Revenue Fund, comprised of the Teachers' Fund; Fund 3 – The Debt Service Fund; and Fund 4 – the Capital Projects Fund.

All sums received from the county school fund and all sums derived from taxation for teachers' wages will be credited to the teachers' fund. All tuition fees, state moneys received under §162.975 and 163.031, and all other sums received from the state except as otherwise provided in this policy will be credited to the teachers' fund and incidental funds at the discretion of the Board. The portion of state aid received by the District pursuant to §163.031, which is included in the operating levy for school purposes, will be credited to the debt service or capital projects funds. Sums received from other Districts for transportation and sums received from taxation for incidental expenses will be credited to the incidental fund. All sums received from taxation or received from any other source for the erection of buildings, building additions, remodeling, or reconstruction, furnishing, for the payment of lease purchase obligations, for purchase of real estate, for sale of real estate or personal property, from insurance, from sale of bonds other than refunding bonds will be credited to the capital projects fund.

Sums received from taxation for the retirement of bonds and the payment of interest on bonds will be credited to the debt service fund. Receipts from delinquent taxes will be credited to individual funds on the same basis as receipts from current taxes. However, where such distribution of receipts from delinquent taxes would affect the previous years' obligations, distribution to the various funds will be based on the levies for the years in which the obligations were incurred. All refunds will be credited to the fund from which the original expenditure was made. Sums donated to the District will be credited to the fund from which it can be expended to meet the purpose of the donation. Sums received from any other source will be credited to the fund designated by the Board.

**Financial Management**

**Fund Balance**

This Policy establishes guidelines to be used during the preparation and execution of the annual budget to ensure that sufficient reserves are maintained for unanticipated expenditures or revenue shortfalls. The Policy is based upon a long-term perspective with a commitment to keeping the District in a strong fiscal position that will allow it to better weather negative economic trends.

**Background**

Statement No. 54 of the Governmental Accounting Standards Board (GASB 54) establishes accounting and financial reporting standards for all governments that report governmental funds.

It establishes criteria for classifying fund balances and clarifies definitions for governmental fund types.

GASB 54 establishes five fund balance categories: Nonspendable, Restricted, Committed, Assigned, and Unassigned.

**Nonspendable Fund Balance** consists of funds that cannot be spent due to their form (e.g., inventories and prepaids) or funds that legally or contractually must be maintained intact.

**Restricted Fund Balance** consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.

**Committed Fund Balance** consists of funds that are set aside for a specific purpose by the District's highest level of decision making authority. Formal action must be taken prior to the end of the fiscal year. The same formal action must be taken to remove or change the limitations placed on the funds.

**Assigned Fund Balance** consists of funds that are set aside with the intent to be used for a specific purpose by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance.

**Unassigned Fund Balance** consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

**Actions Leading to Restricted, Committed, and Assigned Fund Balances**

The Board of Education has the authority to set aside funds for a specific purpose. Commitments are authorized by formal Board resolution. The passage of a resolution must take place prior to June 30th of the applicable fiscal year. If the actual amount of the commitment is not available by

June 30th, the resolution must state the process or formula necessary to calculate the actual amount as soon as information is available. Assignments are authorized by fund placement in the Special Revenue, Capital Projects and Debt Service funds in the original adopted and later revised budget.

Upon adoption of a budget where fund balance is used as a source to balance the budget, the Chief Financial Officer shall record the amount as Assigned Fund Balance.

The Board delegates the authority to assign amounts for specific purpose(s) to the Chief Financial Officer.

**Order of Spending**

When both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it.

When committed, assigned and unassigned funds are available for expenditure, committed funds should be spent first, assigned funds second, and unassigned funds last.

#### **Petty Cash**

In order to facilitate minor purchases and refunds, the Board authorizes a petty cash fund checking account in each school facility including attendance centers, Facilities office, Transportation office, Food Service office and Central office.

The account custodian for the accounts in the schools will be the building principal. The account custodian in the district wide offices will be the department director. Each account custodian will appoint a second administrator in their facility to be a backup custodian. Authorized check signers will be approved annually by the Board. Each account's authorized signers will include the account and backup custodians, Controller and Director Business/Benefits.

Each transaction must be supported with proper receipts by the account custodian. Justifiable expenditures from the petty cash accounts include but are not limited to miscellaneous instructional materials and supplies, office supplies, postage, freight, refunds, or refreshments. Petty cash should not be used to avoid district policy on purchasing authority.

The petty cash funds will be reconciled by the custodian monthly. The reconciliation and all receipts will be submitted to accounts payable for reimbursement.

#### **Investments of District Funds**

The Board has an obligation to the citizens of the District to direct the management of District funds. The primary objective of the District's investment plan will be legality, safety, liquidity, yield and the provision of a capital base for future needs. In the management of such funds, the District adheres to the "prudent investor" rule. Investments will be made with judgment and care, under the circumstances which persons of prudence, discretion and intelligence exercise in the management of their own investments. Funds will be managed for investment, not for speculation considering the safety of the funds invested and the probable income to be derived.

District personnel, including Board members, who are involved in the investment of District funds, will not engage in any personal business activity which could:

1. Impair their ability to make impartial decisions concerning investment of District funds;
2. Conflict with proper execution of the District's investment program; or
3. Create an appearance of impropriety.

District employees and directors involved in investment of District funds will disclose any material interests in financial institutions in which they conduct business. Such disclosure will include, but not be limited to any personal financial/investment positions that could be related to the performance of the District's investment portfolio. Similarly, District employees and directors involved in investment of District funds will not engage in personal investment transactions with the same individual with whom business is conducted on behalf of the District.

Investments will be made through banks or securities dealers who have been approved by the Investment Committee of the State Treasurer's Office. Such banks and securities dealers will have been subjected to an appropriate investigation by the staff of the State Treasurer's Office. This investigation will include, among other things, a written review of the firm's financial statements and the background of the sales representatives. All approved dealers must be fully licensed and registered FINRA Brokers/Dealers or exempt banks. Criteria used to select securities dealers include:

1. Financial strength and capital adequacy of firm;
2. Services provided by firm;
3. Research service available;

4. Resume, reputation, and qualifications of sales representatives.
5. Due diligence and firm references; and
6. State government expertise.

The performance goals of the District's active investment management program, over time, should produce book yields which are greater than yields from low risk passive investments. In analyzing the results of the District's investment program, the District will calculate the book yield and total rate of return on District funds compared to the appropriate security market indexes.

The Superintendent/designee will direct the preparation of quarterly investment reports providing a summary of the District's current investment portfolio and all transactions executed since the last report.

Such investment reports will be prepared by the appropriate bank(s) or security dealers for review by the Board and the Superintendent. Investment reports are considered to be public records and will be made accessible to the public.

Criteria and procedures implementing the District's investment policy have been approved by the Board and are contained in Regulation 3160.

#### **Purchases By and/or Solicitation of School Staff**

##### **Conflict of Interest**

The School District will not purchase supplies or materials from a staff member of the School District, nor from a member of the household of the staff member, except in emergency situations as determined by the Superintendent of Schools. Neither will the District purchase supplies, materials or services from a member of the Board of Education or from a member of his/her household, or from a firm in which he/she holds a major interest.

##### **Endorsements**

Employees of the District will not endorse products or services in such a manner that will identify the employee as an employee of the School District.

##### **Procurement Activities**

In any purchasing activities all employees shall refrain from soliciting, discourage the offer of, and decline gifts if offered by any vendor wishing to do business with, or who is doing business with the School District. Instead of making an offer of gifts, the vendor should be encouraged to discount the price of the goods to the school.

##### **Solicitation/Distribution**

The advertising of sale or distribution of any goods or service on school property, for any school activity, shall have prior approval from the building principal or Superintendent. This includes but is not limited to: school personnel, students, parents/guardians, relatives, general public and commercial businesses.

##### **Solicitations of School Staff**

Agents, solicitors, and salespersons will be denied the privilege of seeing the school staff during the school day except with permission of the administration.

**Financial Operations****Procurement of Professional Services**

The Board of Education and the Administrators recognize that some professional services are necessary on certain occasions to assist in the governance of the District. These services include attorneys to provide legal counsel with specific expertise regarding education policy matters, architects, and certified public accountants to annually audit the financial statements of the District and to provide answers to questions that arise during the course of the fiscal year. Similarly, it may be necessary to obtain financial advisory services to monitor the long range debt objectives of the District, as well as, bond counsel to address questions that arise with existing debt and various reports occasionally sought by the Missouri State Auditor and the United States Treasury branch of Internal Revenue Service and others.

While in some instances it may be possible to seek bids for the financial services and bond counsel each time a need arises, there are also numerous benefits to maintaining longer term relationships with specific professionals. Having a satisfactory relationship with a professional service provider includes fair pricing, timely delivery, dependable and sound advice concerning areas of expertise, a personality match with administrators and board members and numerous other factors. As long as the board members and administrators are comfortable with the quality of services provided, it is not essential that annual bidding occur merely to drive prices to their lowest level. By losing historical memory of any professional service provider, the District may in the long run incur more expense for the new firm to educate their representatives. On other occasions if the administrator expresses belief that service quality is slipping, expenses and fees are escalating at unacceptable levels, or any other non favorable working situation is developing, nothing in this policy is intended to preclude seeking proposals from other vendors offering similar services. The Board of Education and Administration believes that the collective expertise within the District is sufficient to judge if and when seeking alternative providers is prudent.

A written description of each district-wide committee established in the District will be posted in each building explaining the goals and objectives of the committee and the method used to select members to the committee.

**Mentoring**

The District's mentoring goal is to facilitate the growth and development of new educators by pairing them with experienced veteran educators. Through the effort of both the mentor and the mentee, the mentee shall draw upon the experience and knowledge of the veteran mentor to enhance professional skills and enhance student learning. It is vital to the success of our students that new educators become integrated through the mentoring program into the school's culture and are given the opportunity to better themselves with the assistance of one of their veteran peers.

Through the mentoring program the Board hopes to not only create a stronger learning community but also a community where the strong professional and personal bonds between the educators in the District provide students and employees the best possible working and learning environment.

**Performance Evaluation**

**Certificated Personnel Performance Evaluation**

The Board of Education's ultimate goal in education is to provide the highest quality educational experience to all District students. The District's performance-based evaluation system contributes to that goal by promoting the professional improvement of each staff member and, when necessary, by providing data to remove an employee whose employment is detrimental to students.

Performance-based evaluation is a process endorsed by the Board of Education for performance improvement that includes identification of performance expectations, documentation of performance, discussion of performance, development of improvement plans, and making personnel decisions based upon performance. The evaluation process for every employee is an on-going process that takes place every day. Formal, summative evaluations will be prepared and reviewed with each tenured teacher at least every other year. All other District employees will receive summative evaluations annually.

Evaluation of all teachers is to be made in accordance with the following guidelines:

1. Procedure for Evaluation - The evaluator shall be the teacher's principal and/or immediate supervisor.

2. Frequency and Time Schedule

a. Probationary Teachers

All probationary teachers shall be evaluated annually. The evaluations will be completed by March 1.

b. Tenure Teachers

A permanent teacher may be evaluated at any time at the teacher's request or the evaluator's discretion. However, the teacher must be evaluated at least once every four years before March 1.

c. Reevaluation

A teacher may request a reevaluation of the formal evaluation between March 1 and April 1. The principal will complete the evaluation prior to October 15.

3. Evaluation Conference - The evaluator(s) shall discuss with the teacher in personal conference the evaluation instrument and any other information relative to the success and professional growth of the teacher.

The District's performance evaluation system incorporates the seven "Essential Principles of Effective Evaluation" adopted by the State Board of Education and set out as follows:

1. Uses research-based and proven practices to measure educator performance;
2. Establishes performance indicators for educators based on their level of performance;
3. Aligns the evaluation process with an educator's probationary period to provide for an appropriate accumulation of performance data;
4. Uses student learning, based on a variety of performance measures, in the evaluation process;
5. Assesses educator performance on a regular basis and provides feedback to teachers and administrators that they can use to improve their performance through their careers;
6. Ensures evaluators are highly trained so that evaluation ratings are fair, accurate and reliable; and
7. Uses the evaluation process to guide school district policies that impact the development of educators and student learning.

Notwithstanding the State's essential principles, the major focus on the District's evaluation system is on positive learning outcomes, cognitive and affective, for District students. Educators are responsible for the positive learning outcomes for their students.

#### **Service Animals in Schools**

The District recognizes that service animals may be used to provide assistance to qualified individuals with disabilities. This policy governs the presence of service animals in the District's buildings, on school property (including school buses), and at school activities. The Board of Education adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from District programs, activities and services, and to ensure that the District does not discriminate on the basis of disability.

Qualified students and/or adults with disabilities may be accompanied by a "service animal" on school property, in school buildings, and at school functions when required by law and subject to the conditions of this Policy.

#### **Service Animals**

Under federal law, a "service animal" means "any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability." Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition (See, however, provisions on miniature horses below). The work or tasks performed by a service animal must be directly related to the handler's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Under Missouri law, the term "service dog" is defined as "any dog specifically trained to assist a person with a physical disability by performing necessary physical tasks which the person cannot perform. Such tasks shall include, but not be limited to, pulling a wheelchair, retrieving items, and carrying supplies.

The District will permit the use of a miniature horse as a service animal if: (1) the miniature horse has been individually trained to do work or perform tasks for the benefit of an individual with a disability.

In determining whether to permit the use of a miniature horse as a service animal, the District will consider: (1) the type, size and weight of the miniature horse and whether the facility can accommodate these features; (2) whether the handler has sufficient control of the miniature horse; (3) whether the miniature horse is housebroken; and (4) whether the miniature horse's presence compromises legitimate safety requirements that are necessary for the safe operation of the facility. All additional requirements outlined in this Policy which apply to service animals, shall apply to miniature horses.

If an individual with a disability requests to use a service animal in a District building, on District property, in a District vehicle or at a District function, the District will not ask about the nature or extent of the person's disability. However, the District may make the following inquiries to determine whether an animal qualifies as a service animal: (1) whether the animal is required because of a disability; and (2) what work or task the animal has been trained to perform. The District may not make these inquiries when it is readily apparent that an animal is trained to work or perform tasks for an individual with a disability.

The District will not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal.

The Board of Education is committed to identifying and assessing the educational needs of students whose native or home language is other than English. Once identified, the District will provide appropriate programs to address the needs of these students. Students entitled to considerations under this policy include:

1. Language Minority (LM) - students who come from a background where English is not the student's first language, or where the primary language of the home is not English or both.
2. Limited English Proficient (LEP) - Students whose English language skills are insufficient to lead to success in an English-only classroom.

The District will also take steps to ensure to the maximum extent practicable that the interests of ELL students are included in the development and implementation of District programs and services that are offered by the District to and for its student body.

To ensure that parents/guardians are properly notified of the ELL program, all new and enrolling students are to be given the Student Home Language Survey (Form 6180). #### **Virtual Instruction Program**

The District will participate in the State's Virtual Instruction Program (MoVIP). MoVIP offers District students the opportunity to participate in free or tuition-paid online courses in a variety of grade level and content areas from kindergarten through grade 12. District students who wish to enroll in the Missouri virtual school must first enroll in the public school of residence.

MoVIP courses may be taken during the school day or outside of the school day. The number of credits that a student may earn during any academic period will not be limited by the District. Students and their parents/guardians are encouraged to meet with school counselors to develop an educational program, including MoVIP courses, which best meets the individual needs of District students. Students participating in MoVIP courses will have access to District facilities and technology which are otherwise available to students participating in the regular school program. The District does not provide equipment, Internet access, supplies, or materials to students participating in the Missouri Virtual School.

The District will receive notification from MoVIP concerning the percentage of work satisfactorily completed by each student for each virtual education class completed. District staff members will assign a grade and course credit depending upon the percentage of work satisfactorily completed for each class. In awarding credit and assigning grades, the District will apply the same standards for grade assignment and credit award as are applied to courses completed in the District's traditional curriculum. Credit toward meeting District graduation requirements will be awarded for MoVIP courses provided the work completed meets the academic standards required in the District's traditional educational program.

The District may also recognize and assign credit for courses offered through other electronic media courses such as satellite video courses, cable video courses, interactive education television consortium, and computer-driven or on-line courses. Students may also be awarded credit for satisfactorily completed course work from accredited institutions. In addition, the District may offer virtual courses that could take place outside of a District facility. The District will ensure that virtual courses purchased from outside vendors are aligned with the Show-Me curriculum standards and comply with state requirements for teacher certification. Students and their parents/guardians should consult with their school counselor to determine whether satisfactory completion of such work is eligible for award of District credit. This discussion should occur prior to enrollment in such programs.

#### **Challenged Materials**

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accordance with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political, or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and nonprint materials. Despite the care taken to select those materials deemed to be educationally useful, occasional objections to the selection of instructional materials may be made by the public.

#### **Independent Educational Evaluation Policy for Disabled Students under the IDEA**

The parent or legal guardian of a student with a disability pursuant to the Individuals with Disabilities Education Act (“IDEA”) or of a student suspected of having an IDEA disability has the right to obtain an independent evaluation subject to the provisions of this policy. The parent or legal guardian has the right to an independent educational evaluation at public expense if they disagree with an evaluation or any component of an evaluation obtained or conducted by the District. The parent or legal guardian may request one independent educational evaluation in response to each evaluation completed by the District. If the parent request for an independent evaluation comes one year or more from the date of the completion of the District’s evaluation, the District may seek to complete a reevaluation prior to paying for an independent educational evaluation.

#### *Definitions:*

1. *An independent educational evaluation (IEE)* means an evaluation conducted by a qualified examiner who is not employed by the District. An independent educational evaluation must meet the educational evaluation criteria used by the District when it initiates an evaluation to the extent those criteria are consistent with the parent’s right to an IEE.
2. *Public expense* means that the District either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent. The District may, therefore, use whatever State, local, Federal or private sources of financial support are available to pay for the costs of an independent educational evaluation.

A parent is not required to notify the District prior to obtaining an IEE. However, if the parent or legal guardian requests an independent educational at public expense, the District will request that the parent provide a reason why he or she objects to the District’s evaluation. In making that request, the District may not unreasonably delay either providing the requested independent educational evaluation at public expense or initiating a due process hearing to defend the District’s evaluation.

If a parent requests an independent educational evaluation at public expense, the District will:

- (1) Provide the parent or legal guardian with a copy of this policy and the District’s IEE procedures; and
- (2) Provide the parent with information about where an IEE may be obtained within the parameters of this policy and the District’s procedures; and

(3) (a) ensure that an independent educational evaluation is provided at public expense; or (b) initiate a due process hearing to show that the District's evaluation is appropriate or that the IEE obtained by the parent did not meet District criteria.

If the District initiates a hearing and the final decision supports the appropriateness of the District's evaluation, the parent still has the right to an independent educational evaluation, but not at public expense.

If a parent or legal guardian obtains an IEE at private expense and presents that IEE to the District, the results of that evaluation must be considered by the District in any decision regarding the provision of a free appropriate public education to the student. In addition, any IEE obtained by the parents at private expense may be presented as evidence at a due process hearing regarding that student.

All facilities construction projects which exceed an expenditure of \$15,000 shall be advertised once a week for two consecutive weeks in a newspaper of general circulation located in the city or county in which the District is located. In addition to the city or county newspaper, the District may also advertise in business, trade or minority newspapers. Competitive bids shall be solicited according to state law only after the plans and specifications have been approved by the Board of Education. In order to protect the Board of Education, each bidder may be required to submit, with his bid, a bidder's bond in an amount determined by the estimated cost of the project

The construction contract shall be awarded to the best bidder whose bid is in accordance with the Board approved plans and specifications and has provided the required security. The Board reserves the right to waive any informalities in, or reject any or all bids or any part of any bid. No bid for the construction, alteration, or repair of any building shall be accepted if it does not conform to the Board approved plans and specifications.

Whenever two or more proposals or bids of equal amount are the lowest proposals submitted by reasonable bidders pursuant to the advertisement of bids, the Board of Education may award the contract to any one of the bidders as determined by exercise of discretion.

The contractor shall receive monthly payments for the work completed, less a percentage to be determined to ensure completion. The contractor may be required to submit a performance bond and a material and labor bond to the satisfaction of the Board. The final payment shall be made only after acceptance of the project by the Board of Education and completion of the items to be corrected. Lien waivers shall be provided by the contractor and his subcontractors and suppliers.

All pay requests by the contractor shall be approved by the architect prior to submission to the Board of Education for payment.

If a change order is submitted to the architect, approval by the superintendent or designee is required prior to the performance of the work specified in the change order. The change order submitted to the architect must provide the following:

- a detailed description of the change proposed
- the reason for the change
- the original amount contracted
- the amount related to the change proposed
- the total amount of the proposed change is approved

In the event that the change amounts to \$15,000 or more or 5% of the total originally contracted amount, whichever is greater, Board approval is required prior to performance of the work described in the change order.

The superintendent/designee or Board must also determine, with respect to any change order submitted and on a case-by-case basis, whether the change proposed warrants rebidding of the project. The following factors must be weighed in order to make a rebidding determination:

1. The increase or decrease in cost related to the change, as compared to the total original amount contracted;
2. Whether the scope of the contract is deemed to have substantially changed due to the change order;
3. Whether the additional work proposed under the change order is sufficiently distinct from the original scope of the project;
4. The location of the work for the proposed change;
5. The time required in order to rebid the project;
6. The deadline for completion of the project and circumstances related thereto; or
7. The cost associated with rebidding the project as compared to the cost associated with approval of the change order.

Change orders which must be submitted to the Board for approval due to the proposed cost of the change pursuant to this policy shall be accompanied by Superintendent's recommendation regarding the necessity for rebidding based on these factors.

If it is determined that the change order should be approved without rebidding, either by the superintendent/designee or by the Board, the approval must be signed and transmitted to the contractor prior to performance. Once the work has been performed, the invoice for the work must be attached to the next pay application submitted to the district and processed normally, unless a contract specifically dictates to the contrary.

Certain school buildings may no longer be adequate for instructional purposes and should be used to benefit the School District or public in other ways. In determining when a facility is to be retired from regular school purposes, the Board will be guided by a combination of factors, to include:

1. Review of the in-depth demographic studies and population groupings.
2. Age and current physical condition of the building, its operating systems and program facilities.
3. Adequacy of site, location, accessibility, surrounding development, traffic patterns, and other environmental conditions.
4. Reassignment of children, including alternative plans, according to Board policy.
5. Transportation factors including numbers of children bused, time, distance and safety.
6. Alternate uses of the building.
7. Costs/savings

### **Naming Rights for School Sites and Facilities**

The Board of Education recognizes that the naming of District buildings, facilities, programs, and special events is important to all constituents including students, parents, and community members. Therefore, it is necessary to consider carefully all factors relevant to the name including the overall benefit to the school system and whether the names will continue to reflect positively on the District.

The final responsibility for naming or renaming schools, facilities, programs, special events, and/or equipment rests with the Board of Education.
