School District Philosophy

It is the responsibility of the Board of Education to ensure that all children located within our school district have access to a quality education that enables them to achieve their full potential and to fully participate now and in the future in the social, economic, and educational opportunities of our local community, state and nation. Our beliefs are grounded on two principles. First, that a general diffusion of knowledge is essential for the future welfare of the children we serve. Second, that a successful public education system is directly related to a strong, dedicated, and supportive family and that parental involvement in the school is essential for the maximum educational achievement of a child.

In carrying out its responsibilities, the Board of Education is guided by the desire to use the resources of the community, staff and students to provide the highest quality education permitted by financial resources. In reaching decisions, the Board will act in the best interests of its students.

To this end the Board of Education has adopted the following:

School District Vision

A community united to improve the quality of life through education.

School District Mission

By providing a quality education, the Independence School District will ensure that each learner will achieve the skills and self-confidence to be successful in an ever-changing world.

School District Values

All students can learn
All people have the right to be accepted and treated with respect
Schools will be safe, orderly and caring environments
Effective teaching / learning is the responsibility of the family, school and community

School District Goals

Increase student achievement
Attract, support, and retain high quality staff
Improve relationships through effective communication
Maximize resources to facilitate learning

School Board Organization

School Board Purpose and Roles

The Board of Education is a representative body elected by the registered voters of the Independence School District. It is the purpose and the role of the Board of Education to exercise general supervision over the schools of the district, and to ensure that the schools are maintained as provided in state statutes, the rules and regulations of the Missouri State Board of Education and/or the Missouri Department of Elementary and Secondary Education, and the policies, rules and regulations of the school district. In addition, the Board is accountable to the electorate, and shall be responsive to the educational needs and imposed financial constraints of the district. In conducting its various functions as the legislative and policy-making authority for the district, the Board recognizes the following general responsibilities as paramount:

Legislative and Policy Making – The Board is responsible for the development of policies, rules and regulations to serve as guidelines for the general management and administrative actions of the district. The establishment of the goals and objectives of the school district and the methods of financial support needed to reach those goals and objectives are a part of the policy-making function of the Board.

Executive – The Board shall employ a superintendent to serve as the chief executive officer of the district. The Board shall delegate, in writing to the superintendent, the executive and administrative duties and responsibilities necessary for carrying out its policies, and shall hold the superintendent accountable.

Appraisal – The Board is responsible for evaluating the effectiveness of its policies and their implementation to determine the efficiency of operation, the value of the activities and instruction and the need to revise existing activities and programs. The Board shall hold the superintendent responsible for furnishing complete information necessary for the Board's evaluation of the district's programs.

Provision of Financial Resources – The Board is responsible for the adoption of the annual budget, which will provide financial basis for personnel, facilities, materials and equipment to enable the district to carry out its educational program. The Board will exercise fiscal responsibility that includes long range implications as well as short range effect.

Staffing and Appraisal – The Board is responsible for employing the professional and support staff necessary for carrying out the district's instructional program. The Board is also responsible for establishing salary schedules, terms of employment, and other policies district-wide, and for regular evaluation of its staff.

Public Relations – The Board is responsible for keeping the district patrons informed about the schools, and for keeping itself and the school staff informed about the needs and wishes of the public.

Policy 0310
Page 2

Educational Planning and Evaluation – The Board is responsible for establishing educational goals which will guide both the Board and the staff in working together toward the continued improvement of the educational programs of the district. It is responsible for providing for an ongoing evaluation of the school program as measured through the goals and objectives set forth by the Independence School District and by the Missouri State Board of Education.

Judicial – The Board is responsible for acting as a court of appeals for the professional and support staff members, students, and the district patrons when issues involve Board policies and their fair implementation.

The Board of Education shall control all aspects of the operations of the district within the limits of the law. However, the Board will make its members, the district professional and support staff, and the district patrons aware that the Board has the authority to take official action only when it is acting as a whole. The Board shall be the final authority. No section of the policies, rules and regulations may be construed to limit the statutory powers of the Board to exercise its own prudent judgment.

The achievement level of students shall be the guiding standard through which all success shall be measured.

School Board Organization

Statement of Practices

Attendance

Members shall attend all regularly scheduled Board of Education meetings insofar as possible. Any member failing to attend the meeting of the Board for three (3) consecutive regular meetings, unless excused by a majority of the Board for reasons satisfactory to the Board, shall be deemed to have vacated the seat; and the secretary of the Board shall certify that fact to the Board. The vacancy shall be filled as other vacancies occurring in the Board. Attendance for purposes of this provision shall be defined as actual, physical attendance at the Board meeting until all of the business of the Board has been completed unless a member is excused by a majority of the Board.

Knowledge

Members shall come to Board of Education meetings informed concerning the issues to be considered.

Abstentions

Members shall avoid abstaining except when required by statute or Board policy. The members of the Board have been elected to make difficult decisions on behalf of the students, parents, patrons and employees of the district. The concept of trusteeship requires each member to review the issues under the Board's consideration and to take a stand regarding those issues. A member who has conformed to the above-described tenets of knowledge, open discussion, and independent judgment, should be prepared to cast a vote on each of the issues before that member.

Cooperation/Delegation

Members shall work with other Board members to establish effective Board policies and to delegate authority for the administration of the schools to the Superintendent. Members shall not attempt to by-pass, undermine, or usurp the Superintendent's authority and responsibility for the daily operation of the schools.

Conflict of Interest

Members shall avoid being placed in a position of conflict of interest, and shall not use the Board position for personal or partisan gain. Members shall conduct themselves in accordance with the conflict of interest policy and disclosure requirements prescribed by statute, Missouri Ethics Commission Rules and Regulations, and Board policy.

Confidentiality

Members shall not disclose confidential information. Information is confidential if it is (a) communicated during executive session; or (b) otherwise communicated with a mutual understanding of confidentiality.

Acceptance of Gifts

Members shall not solicit or accept gifts, payments, or anything greater than a nominal value item or holiday gifts of nominal value from any person, organization, group, or entity doing business or desiring to do business with the School District.

Contact with Vendors

Members, if contacted by a vendor requesting information about the District's bidding procedures, whether of a general nature or with regard to specific goods or services to be bid, shall provide the vendor with the name and business telephone number of the administrator responsible for purchasing such goods or services. The member shall request that the vendor contact the relevant administrator and direct all questions and concerns to that administrator.

Board Communications to Staff

All official communications, policies, and directives of staff interest and concern will be communicated to staff members through the Superintendent, and the Superintendent will employ such media as are appropriate to keep the staff fully informed of the Board's concerns and actions.

Visits to Schools

Individual Board members who, in their parental capacity, wish to visit the school(s) or classroom(s) of their child(ren) will follow the regular procedures for visitors. Board members who wish to visit other schools or classrooms as an informal expression of interest in school affairs will report to the principal's office on entering the building so that the office will be aware of their presence. Official visits by Board members will be conducted only with the full knowledge of the Superintendent and principal(s) involved.

Educational Welfare

Members shall remember always that the first and greatest concern must be the educational welfare of the students attending the School District.

School Board Elections and Term

The qualified voters of the School District shall biennially, on the first Tuesday after the first Monday of April, elect two (2) directors for terms of six (6) years, except, effective for Board elections beginning in April of 1994, and each six years thereafter, when three (3) directors shall be elected for terms of six (6) years.

An election shall not be held if the number of candidates who have filed for the Board is equal to the number of positions available, unless a ballot proposition (i.e. tax levy, bond issue) is on the ballot as well. If no election would be held due to the number of candidates equaling the number of vacancies when there is not a ballot proposition on the ballot, the District will publish a notice containing the names of the candidates who will assume a Board directorship absent an election. This notice will be published in a newspaper of general circulation in the District on or by March 1 prior to the scheduled election.

Qualified Voters in the School District

An individual must be a registered voter in order to vote in a school election. In order to vote, a person must be eighteen (18) years of age or older, must be a citizen of the United States, and must reside in the School District thirty (30) days.

Candidate Qualification - Method of Filing

Qualified applicants for the Board may file for office beginning at 8:00 a.m. in the Superintendent's office commencing on the sixteenth (16th) Tuesday prior to the election and ending at 5:00 p.m. on the eleventh (11th) Tuesday before the election. The candidate shall declare his/her intent to become a candidate, in person and in writing to the secretary of the Board of Education. The names of qualified candidates shall be placed on the ballot in the order of filing. The notice of election and certification of candidates must be submitted to the county clerk by the tenth Tuesday prior to the election. Candidates must comply with all of the prevailing laws concerning eligibility and campaign financing.

A candidate who files for one vacancy and later decides to run for another shall be positioned on the ballot according to the time when his/her change of declaration is received by the secretary of the Board, not on the basis of when the first petition was filed.

Candidates must be citizens of the United States and resident taxpayers of the District, reside in his/her state for one year next preceding their election or appointment, and be at least twenty-four (24) years of age. Candidate must also complete a notarized copy of Missouri Department of Revenue Form 5120 (MCE Form 0320) attesting that the candidate is not currently aware of any

delinquency in the filing or payment of state income taxes, personal property taxes, municipal taxes or real property taxes on the candidate's place of residence provided on the Department of Revenue Form 5120. Candidates will be disqualified from participation in a Board election if the candidate is delinquent in the payment of any state income taxes, personal property taxes, municipal taxes, or real property taxes on the residence of the candidate. The candidate must further attest that they are not a past or present corporate officer of the office that owes any taxes to the state, which are not in dispute. Failure to accurately complete and file Form 5120 with the Department of Revenue may disqualify a candidate from the ballot. Each newly elected or appointed director shall qualify and take his/her oath of office in the manner prescribed by law and according to Policy 0330 - Oath of Office.

No person may be a candidate for a position on the Board if such person is registered as a sex offender or is required to be registered as a sex offender under state law. Any Board member who is likewise required to register or who is registered as a sex offender under state law will immediately be requested by the Board to resign from the Board. Should such Board member refuse to resign, the member will be ineligible to serve as a Board member at the end of his/her term.

In addition, no person shall qualify as a candidate for the Board of Education who has been found guilty of or has pled guilty to a felony or misdemeanor under federal law or to a felony under Missouri law or has been found guilty of an offense in another state, that would be considered to be a felony in the State of Missouri.

It is not the District's responsibility to investigate and determine a candidate's eligibility. That responsibility rests with the Department of Revenue and/or the County Election Authority.

Within seven (7) days after their election, the newly elected or appointed members of the Board shall take the oath of office prescribed by Article VII, Section II, of the Constitution of Missouri, RSMo. Section 162.301(1).

OATH OF OFFICE

I, _____, do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of Missouri, and that I will faithfully and impartially discharge the duties of school director in and for The School District of the City of Independence, County of Jackson, State of Missouri, to the best of my ability according to the law, so help me God.

School Board Organization

Code of Ethics

The Board shall be guided by the following:

- A. As a member of a local Board, representing all citizens of my district, I recognize:
1. That my fellow citizens have entrusted me with the educational development of the children and youth of this community.
 2. That the public expects my first and greatest concern to be in the best interest of each and every one of these young people without distinction as to who they are, what their background may be, or where they may live.
 3. That the future welfare of this community, of the State and of the nation depends in the largest measure upon the quality of educational experiences we provide in the public schools to fit the needs of every learner.
 4. That my fellow Board members and I must take the initiative in helping all the people of this community to have all the facts all the time about their schools, to the end that they will readily provide the finest school program, school staff and school facilities.
 5. That legally, the authority of the Board is derived from the State which ultimately controls the organization and operation of the school district and which determines the degree of discretionary power left with the Board and the people of this community for the exercise of local autonomy.
 6. That I must never neglect my personal obligation to the community and my legal obligation to the State, nor surrender these responsibilities to any other person, group or organization; but beyond these, I have a moral and civic obligation to the Nation which can remain strong and free only so long as public schools in the United States are kept free and strong.
- B. In view of the foregoing consideration, it shall be my constant endeavor:
1. To devote time, thought and study to the duties and responsibilities of a school Board member so that I may render effective and creditable service.
 2. To work with my fellow Board members in a spirit of harmony and cooperation in spite of differences of opinion that arise during vigorous debate of points and issues.

3. To base my personal decision upon all available facts in each situation; to vote my honest conviction in every case, unswayed by partisan bias of any kind; thereafter to abide by and upon the final majority decision of the Board.
4. To resist every temptation and outside pressure to use my position as Board member to benefit either myself or any other individual or agency apart from the total interest of the district.
5. To bear in mind under all circumstances that the primary function of the Board is to establish policies by which the schools are to be administered, but that the administration of school matters shall be left to the employed superintendent and his or her professional or non-professional staff.
6. To welcome and encourage active cooperation by citizens and organizations in the district with respect to establishing policy on current school operation and proposed future developments.
7. Finally, to strive step by step toward ideal conditions for the most effective Board service to my community, in a spirit of teamwork and devotion to public education as the greatest instrument for the preservation and perpetuation of our representative democracy.

Requests to Address the Board

The Board is very interested in citizen viewpoints and problems, however, citizens are encouraged to work through problems at the building and/or administrative levels before coming to the Board. District residents and employees who desire to address the Board during the public comment period must present items to be considered for placement on the agenda. This request must be in writing, specifying the individual's name who will be addressing the Board, the subject of the presentation, supporting data, and the desired action. The Board President and the Superintendent shall determine whether or not the request is appropriate for inclusion on the agenda, either in open or closed session, or for public comment.

The Board may refuse to address an issue if the individual proposing the topic has not first attempted to resolve the matter through the appropriate established procedures and policies. The Board reserves the right to impose reasonable restrictions on the number of items placed on the agenda and the number of spokespersons for any given public comment period. In the event the Board agenda is full, items may be rescheduled for the next regular Board meeting.

Policy 1100 **(Regulation 1100)**

Religion

The School District supports the constitutional separation of church and state. The philosophy of the District is to share with the community the responsibility for education. Since religious observances and the display of religious symbols rightfully belong in the home and in the church or synagogue and not in a tax-supported entity, the District urges that the responsibility for the use of such symbols, and observances of religious occasions, be the province of the home and community.

The District respects the diversity of its community, staff, and student body and wishes to encourage the teaching and appreciation of cultural pluralism in the District curriculum and school-sponsored activities without emphasizing or giving school time to religion(s) or religious celebrations beyond the scope of the curriculum.

It is expected that all activities during school time will be geared toward instruction and will have curriculum significance in accordance with the District's curriculum guides. When developing instructional units and educational activities, staff members should recognize the differences between the religious and the cultural heritage of groups in a pluralistic society.

Calendar Requirements

School Year and School Day

Beginning with the 2019-2020 school year, the Board will annually adopt a school calendar that will provide for 1,044 hours of pupil attendance with no minimum number of school days. The beginning of the school year shall not be earlier than fourteen (14) calendar days prior to Labor Day.

The length of the school day will meet State Department of Elementary and Secondary Education requirements for six (6) clock hours of instruction. A school year and school day in excess of the state required minimum may be recommended by the Superintendent and approved by the Board. The planned calendar adopted prior to the beginning of the school year must be reported to DESE on Core Data Screen 10 by August 15 of each year, and cannot be changed after that date.

The District will only be required to make up the first thirty-six (36) hours of school lost or canceled due to inclement weather and half the number of hours lost or canceled in excess of thirty-six (36) hours up to twenty-four (24) hours of additional lost or canceled hours. Thus, the maximum number of hours that must be made up is sixty (60) hours. For purposes of this Policy, "inclement weather" shall mean ice, snow, extreme cold, flooding, a tornado, or excessive heat.

The District may make up thirty-six (36) hours of school lost or canceled due to exceptional or emergency circumstances during a school year, if DESE has approved an alternative method of instruction plan submitted by the District.

Calendar Requirements

School Day

The length of the school day will meet State Department of Elementary and Secondary Education requirements for six clock hours of instruction. The length of the school day in excess of the state required minimum will be recommended by the Superintendent and approved by the Board. The specific daily opening and closing time for individual schools may vary to facilitate the scheduling of the District's transportation program.

If the District's schools are dismissed due to inclement weather after school has been in session for three or more hours, that day shall count as a full day.

Days that the District's schools are closed for inclement weather or emergency reasons, which cause a violation of the necessary 173 days of pupil attendance, will be made up in accordance with state statutes and as approved by the Board upon the Superintendent's recommendation.

Equal Opportunity and Statement of Non-Discrimination, Harassment, and Retaliation

The District is committed to providing equal opportunity in all areas of admission, recruiting, hiring, retention, promotion, contracted services, and access to programs, services, activities, and facilities. The District also prohibits retaliatory action, harassment, or discrimination against individuals who make complaints of, report, or otherwise participate in the investigation of any such unlawful discrimination, harassment, or retaliation.

Persons who believe that they have been discriminated, harassed, and/or retaliated against in violation of this policy should report the alleged discrimination, harassment and/or retaliation to the Compliance Officer, unless the Compliance Officer is unavailable or the subject of the report. In that case, the report should be made directly to the alternative Compliance Officer (see Board Policy/Regulation 1310 or Board Policy/Regulation 1301).

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken.

Community Use of School Facilities

School District facilities are available for community use when facilities are not required for instructional or administrative purposes. Use of District facilities is subject to approval of the community group's application and is subject to conditions established by the Board of Education as set forth in administrative regulations.

To the extent that school facilities are available for community use, such facilities will be open, under the same terms and conditions, to youth groups including but not limited to Boy Scouts, Girl Scouts, Big Brothers-Big Sisters of America, Boys and Girls Clubs of America, Little League Baseball and similar groups. When outside groups are permitted to use school facilities under this policy, the District will not lawfully discriminate against groups based upon a group's religious, political or philosophical content of the speech at such meetings.

Polling Places on School Premises

School District facilities may be used as polling places pursuant to Section 115.117.1 of the Revised Missouri Statutes.

Pursuant to Section 115.637(18) of the Revised Missouri Statutes, exit polling, surveying, sampling, electioneering, distributing campaign literature, posting sign or placing vehicles bearing signs with respect to any candidate or question to be voted on shall be prohibited on election day inside any School District building in which a polling place is located or within twenty-five (25) feet of the building's outer door closest to the polling place. School/Community Relations

School Volunteers

The District encourages participation of parents and citizens of the community to volunteer in the schools in order to serve as additional resources to the teachers and students.

Screened Volunteers

Individuals who assist our schools on an uncompensated basis and who may periodically be left alone with students are considered “screened volunteers” under state statute. These individuals, among other service providers, may volunteer to regularly assist in the school office or library; mentor or tutor students; coach or supervise student activities before or after school; or chaperone students on overnight trips. Prior to being left alone with students at school or school activities, screened volunteers must have a clear criminal records check from the State Highway Patrol and Federal Bureau of Investigation. The District will pay for the cost of obtaining such criminal records checks. Screened volunteers may have access to students’ educational records where necessary and when supervised by a staff member.

Non-Screened Volunteers

Non-screened volunteers are those individuals who are not left alone with students at school or school activities. For these volunteers, the District will, with the volunteer’s consent, obtain a criminal records check from local law enforcement prior to beginning volunteer service. The District will assume any costs in obtaining such records checks.

Application for Volunteer Service

All volunteers must complete an application for volunteer service and may be interviewed prior to beginning volunteer service. (Form 1425). The District reserves the right to deny individual applicants where the best interests of the educational program are served.

Visitors to Schools

Principals and teachers shall welcome and encourage visits by parents/guardians, Board members, volunteers and patrons of the schools. All visitors shall report to the principal's office on entering the building so that the office will be aware of their presence. When a patron of the school has a need for a conference with a teacher or counselor, an appointment should be made so the staff member may proceed with his/her assigned duties without undue interruption.

Groups of visitors wishing to visit the school or facilities shall notify the Superintendent as far in advance as possible.

Students dismissed earlier in one school than others are not permitted to be on the grounds of any other school in the District.

All persons who do not obtain permission from the principal's office to visit the school, or visitors who create serious distractions to the learning environment in the building or on the premises, shall be considered trespassers and subject to arrest and prosecution.

In order to minimize the potential harm to staff and students, persons listed on the sex offenders list may not be present in any school building, or on district property, in any district vehicle utilized to transport students, or be present at school activities without the written permission of the Superintendent. If permission is granted for a specific event or events, the Superintendent will notify the principal, where the sex offender will be present. Sex offenders cannot reside within 1,000 feet of a school or victim unless the individual is receiving treatment in a treatment facility or nursing home for purposes of getting treatment.

Observations by Parents, Advocates, or Others

Under applicable state and federal law, a parent does not have a right to observe his/her child in the educational setting. However, if a parent, advocate or other person wishes to conduct an observation of any child, activity, teacher, or classroom, he or she must submit a written request to the building principal, within five school days of the date he or she wishes to observe, with the following information:

2. The date and time he or she wishes to observe;
3. The amount of time he or she wishes to observe;
4. The specific purpose for which he or she wishes to observe.

The building principal must then grant written permission for the observation to occur. Public Access to District Documents

The District provides public access for the inspection and copying of the District's public records. As a general practice, the District requires advance payment of a copy fee which does not exceed the actual cost of document search and duplication. However, copies of the District's public records may be provided without a fee or at a reduced fee when it is determined by the Board that a reduction is in the public interest. In assessing fee reductions, the Board will consider the potential that the reduction will significantly contribute to public understanding of the District's operations and will consider the degree of commercial value to be gained by the person requesting a fee reduction.

Similarly the District will provide public access for inspection and duplication of the District's public records maintained on audio, video, or similar media. Public access includes but is not limited to computer facilities, recording tapes, discs, video tapes, films, pictures, slides, graphics, and illustrations. The District requires advance payment not to exceed the expense of duplication, staff time required to duplicate, programming if necessary and the cost of the disc or tape used for duplication.

In order to facilitate public access to the District's public records, the Board will appoint the Board Secretary as the custodian of records. The custodian will be responsible for maintaining the District's public records as well as for assuring access to the District's public records. The identity, business address, and office telephone number of the custodian of records will be published annually and will be available at the District's administrative office. The superintendent is authorized to accept donations and gifts to the school district. The superintendent may designate other administrators to be authorized to accept the gifts for particular schools on behalf of the Board. All major donations or gifts will be reported to the Board of Education and publicly announced.

Memorials

Sadly the death of a student, former student, or staff member is an event that may occur at any time. Temporary memorials can provide students the opportunity to give testimony to their peers, as well as learn how to direct their generosity to grieving family members. The opportunity to participate in temporary activities and projects can help students and staff come to accept the finality of their loss. An initial memorial site will be designated by the principal where flowers, poems, pictures, stuffed animals in an area where those who wish not to be reminded can easily avoid that location. Memorial items will be removed after the family funeral in a way that permits presentation of these symbols of caring to the family.

Memorials for staff and students lost through suicide will not be established. This policy is the result of the fact that recognition of student suicide may adversely affect others predisposed to suicide.

School/Community Relations

Public Complaints

Although no member of the community shall be denied the right to petition the Board of Education for redress of a grievance, the complaints will be referred through the proper administrative channels for solution before investigation or action by the Board. Exceptions are complaints that concern Board actions or Board operations only.

The Board advises the public that the proper channeling of complaints involving instruction, discipline, or learning materials is as follows:

1. Teacher
2. Principal
3. Appropriate Central Office Administrator
4. Superintendent
5. Board of Education

Any complaint about school personnel will be investigated by the Administration before consideration and action by the Board.

Private, State, and Federal Funding

Grants from outside agencies are to be related to the needs and priorities of the District in the form of program improvement. Outside funds are to be regarded as supplemental in nature, intended to enhance or augment the usual efforts toward desired goals, quality of learning, inservice education, or capital improvement. Grants may lead to research and development that will be of value to the District. All such funds will be deposited, accounted, and reported through the District's accounting office. The Board directs that the Administration keep financial and program records to document the compliance with all state and federal requirements and to corroborate program success.

All employees of the School District who plan to apply to an outside agency (private, corporate, or governmental) for grants or other types of funds for District use must clear the request with the Superintendent of Schools or designee before preparing an application. The application must then be approved by the Board of Education before submission to the source of funding.

Grants cannot be requested that would require District expenditures not budgeted in the current fiscal year. District funds may not be obligated in advance for future years by the terms of a grant without prior Board approval.

If a grant requires participation by children in experimental types of instruction, written permission of parents must be secured.

Head Start Program Policies – 1994

Conflict of Interest/Nepotism - Required by: Code of Federal Regulations (CFR) 130.31

No Head Start employee shall solicit or accept gratuities, favors, or anything of monetary value from contractors or potential contractors.

Head Start shall not employ any individual if a director of that individual's immediate family is employed in an administrative capacity or is a director of the Head Start Policy committee. The term "immediate family" means wife, husband, son, daughter, mother, father, brother, sister or relative by marriage of comparable degree; the term "administrative capacity" means a position having responsibilities related to the selection, hiring or supervising of employees. If a vacant position cannot be filled without hiring such an individual, the policy may be waived. However, employment records must be maintained to provide evidence that no other individual within the service area is qualified and available for employment.

Probationary Period - Required by: 45 CFR part 101, Subpart D

All Head Start staff directors will be subject to a Probationary Period. The first six (6) months following appointment to a position is the "Probationary Period." The Probationary Period allows time to examine and act on the results of criminal records check and child abuse/neglect check.

Should a criminal record or child/abuse neglect record check reveal an arrest, pending criminal charge, or a conviction of a probationary employee, a review of the case by District administrators, the Head Start Director, and the Head Start Personnel Committee to assess the relevancy of an arrest charge or conviction to a hiring decision will be conducted. No probationary employee will be dismissed arbitrarily on the basis of arrest, a pending criminal charge, or a conviction.

The Probationary Period also permits the employee to demonstrate his or her capacity to perform and the employer to measure the employee's performance. There may be evaluations of the employee during the Probationary Period. There shall be an evaluation of the employee at the end of the six (6) months, and the employee shall receive a written copy of the evaluation.

At the end of this period, the employee shall be advised of the decision regarding his or her retention as an employee of Head Start.

At any time during the Probationary Period, the Head Start Director, after following procedures, may terminate an employee whose performance does not meet the required standards. The

employee may request notification in writing as to the reason for his or her dismissal, and any such notification shall become part of the permanent personnel records of the School District of Independence.

The School District of the City of Independence reserves the right to shorten the probationary period for any employee found to be fully qualified, and the District may end the probationary period if, in the sole discretion of the District, circumstances make an elongated probationary period necessary.

Employee Grievance Procedure - Required by: CFR 1301.31

All grievances and problems of the Head Start staff director must first be presented to the Head Start Director. Any grievance or problem not resolved after consultation with the Head Start Director should be presented in writing to the Assistant Superintendent for Student Services, and if not then resolved to the Associate Superintendent for Human Resources. If a grievance or problem is not resolved at that level, the Head Start staff director should present the complaint in writing to the Superintendent of Schools.

Searches by School Personnel

School lockers and desks are the property of the Board of Education and are provided for the convenience of students, and as such, are subject to periodic inspection without notice, without student consent, and without a search warrant. The lockers and desks may be searched by school administrators or staff who have a reasonable suspicion that the lockers or desks contain drugs, alcohol, material of a disruptive nature, stolen properties, weapons, items posing a danger to the health or safety of students and school employees, or evidence of a violation of school policy. In addition, the Board of Education authorizes the use of trained dogs to sniff lockers or other school property to assist in the detection of the presence of drugs, explosives, and other contraband.

Students or student property may be searched based on reasonable suspicion of a violation of District rules, policy or state law. Reasonable suspicion must be based on facts known to the administration, credible information provided or reasonable inference drawn from such facts or information. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses, if such witnesses are available. Students may be asked to empty pockets, remove jackets, coats, shoes and other articles of exterior clothing for examination if reasonable under the circumstances.

No employee shall perform a strip search of any student. The exception to this would be if a school administrator reasonably believes that a student possesses a weapon, explosive, or substance that poses an imminent threat of physical harm to himself or herself or another person, and if a commissioned law enforcement officer is not immediately available. Strip searches may be conducted by, or under the authority of, a commissioned law enforcement officer.

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains the authority to conduct routine patrols of the student parking lots. Resident students of the District five to twenty-one (5-21) years of age who have not graduated from high school or received any document evidencing completion of the equivalent of a secondary curriculum (G.E.D.) and are not barred from enrollment by provisions of the Safe Schools Act (See Policy and Regulation 2664) may attend District schools tuition free. Resident students must provide proof of residency in the District at the time of enrollment. To be a resident of the District, a student must both physically reside and be domiciled within District boundaries. Where due to military stationing or deployment out-of-state of one or both of a child's parent(s), the child, a resident of Missouri, relocates to live with other family members that live in the District or live in a military support community located in the District, the child may attend District schools. If the parents' active duty orders expire during the school year, the student will be permitted to finish the current school year at the District.

In addition, the District will provide tuition-free special education services to resident students who qualify for special education services between the ages of 3 and 21 as required by law.

Students Entitled to Enroll Without Proof of Residency

The residency provisions of this policy are not applicable to homeless students, inter-District court-ordered desegregation students, wards of the state, students placed in residential care facilities, students placed in a residential care facility due to a mental illness or developmental disability, students placed in a residential facility by a juvenile court, students with a disability identified under state eligibility criteria if the student in the district for reasons other than accessing the district's educational program, students attending regional or cooperative alternative education programs, students attending an alternative education program on a contractual basis, or students attending a school pursuant to R.S.Mo s/s 167.151(2) or (4). The exemptions to the residency requirement are expressly established by state law and entitle such students to tuition free school attendance. Additionally, a student may be partially exempt from the payment of tuition as set forth in Policy and Regulation 2240 and state law. For purposes of IDEA special education evaluation and provision of special education services, a student attending a private school located within the District will be evaluated as a resident student.

Requests for Waiver of Proof of Residency Requirements

Those students who are unable to satisfy the proof of residency requirements and who are not entitled to enroll as provided in the previous section of this Policy and state law may request a waiver of the proof of residency requirements. Upon filing a Request for Waiver of Proof of Residency (Form 2230.1) and satisfaction of all other enrollment requirements, the student will be conditionally enrolled and allowed to attend school pending a Board of Education hearing on the student's request unless there is reason to suspect that the admission of the pupil will create an immediate danger to the safety of other students or employees of the District. If there is reason to suspect that the student poses an immediate danger, the Superintendent/Designee may convene a hearing within five working days of the request to register and determine whether or not the pupil may register. (See Policy and Regulation 2200, Regulation 2230 and Policy and Regulation 2664).

Students of Nonresident Teachers and Regular Employees

Nonresident students of District teachers or regular District employees may be permitted to attend school without payment of tuition. Such students will be considered a "resident" student for purposes of state aid.

Admission and Withdrawal

Admission and Tuition – Nonresident Students

Nonresident students will be permitted to attend the District schools only upon the processing of the student's Request for Waiver of Proof of Residency (Form 2230.1) and payment in full of tuition as determined by District representative in their sole discretion, and provided the student is not barred from enrollment by provisions of the Safe Schools Act. (See Policy 2664.) Prior to the first day of school, the District must receive the full tuition payment as established by the Board, unless the student is exempt from tuition as required by law. All costs of transportation for any student admitted on a tuition basis will be the sole responsibility of the person enrolling the student, unless otherwise required by law. In no event shall the Independence School District be responsible for the transportation costs for a student admitted on a tuition basis. Tuition rates will be determined annually by the Board of Education on the basis of the per-pupil cost for the preceding year including operation, maintenance, and debt service of the schools.

In accordance with state law, the district will admit nonresident students (“transfer students”) who reside in a Missouri school district that: (1) is located in the same or an adjoining county as the district (Jackson County, Missouri); and (2) is currently classified as unaccredited by the Missouri State Board of Education.

The unaccredited school district shall pay the full tuition for each semester before the transfer student will be enrolled or allowed to attend that semester, unless an alternative arrangement is made with the district and approved by the Board of Education. If a timely payment of tuition is not made, the transfer student shall not be entitled to attend the district.

Transfer students will be permitted to enroll in the district on a semester basis only. Transfer students will not be admitted during the term of a school semester. For the fall semester, applications will be accepted from January 1 to February 1. For the spring semester, applications will be accepted from October 1 through October 31. Late applications will not be considered. Students residing in an unaccredited district must submit an application by no later than January 1 for every school year they wish to attend the district, but students who have been admitted for the fall semester are not required to reapply for the spring semester.

Pursuant to guidance issued by the State Board, the district has adopted a procedure for establishment of class size and student-teacher ratios for all grade levels. The district will not enroll transfer students if enrollment would require the district to exceed its standards for class size and student-to-teacher ratios.

Within two (2) business days of enrollment in the District by state officials of a nonresident student pursuant to state statute, the Superintendent/designee will request the student’s transfer and discipline records from all schools or facilities previously attended and from other state agencies

and entities involved in the placement of the student within the twenty-four (24) month period preceding enrollment. The Superintendent/designee is authorized to share relevant portions of such student's transfer and discipline records with District employees who, based upon their duties, have a need to know such information. Such records will be maintained in confidence for purposes of maintaining discipline and for assistance to the student.

Homeless Students

The Board of Education is committed to providing equal access for all eligible homeless students to a free, appropriate education in the same manner as is provided to other District students. In carrying out this commitment, the District will identify and assess the needs of the District's homeless students; provide for the placement of its homeless students in the school of best interest; provide access to the District's programs; and appoint a homeless liaison. The Superintendent will review all District policies to determine whether they act as barriers to the enrollment of homeless students. Special attention will be given to policies regarding transportation, immunization, residency, birth certificates, school records and guardianship.

Migrant Students

The Board of Education is committed to the identification, needs assessment and enrollment of migrant students living within the District. The District's Coordinator of Programs for Homeless Students is also responsible for implementation and maintenance of the District's program for migrant students. (See Policy 6274 - Instruction for Migrant Students.)

The Board of Education directs the administration to screen students, as required by law, to assist the state in identifying migratory children. If the District becomes aware of any student who might be a migrant student, the superintendent or designee will notify the state director of migrant education, as designated by the Department of Elementary and Secondary Education (DESE), so that the student may be formally recognized as a migrant student.

The administration will develop written administrative procedures for ensuring that migrant students, once identified, receive services for which they are eligible. In developing and implementing a program to address the needs of migratory children, the District will:

1. Screen students and assess the educational and related health and social needs of each student identified as migrant.
2. Provide a full range of services to migrant students, including applicable Title I programs, special education, gifted education, career or technical education, language programs, counseling programs, elective classes, fine arts classes, etc.
3. Provide migratory children with the opportunity to meet the same statewide assessment standards that all children are expected to meet.
4. To the extent feasible, provide advocacy and outreach programs to migratory children and their families and professional development for district staff.
5. Provide parents/guardians an opportunity for meaningful participation in the program.

Admission of Home Schooled Students

Students who enroll in the District from a home-schooled status must meet residency requirements as stipulated in Policy 2230.

Denial of Admission and Student Withdrawal from School

Denial of Admission

A student who is conditionally enrolled pending a Waiver of the Proof of Residency Requirement hearing may be denied admission and barred from attending school after denial of the student's waiver request as provided in Regulation 2230 and state law.

A student may be denied admission based upon a previous disciplinary expulsion that would result in expulsion in the District or criminal conduct as provide in Policy and Regulation 2664 and state law.

A nonresident student who is not otherwise entitled to a free public education in the District may be denied admission for any nondiscriminatory reason in accordance with District policies, regulations and rules, and state and federal law.

Administrative Removal of Student from Enrollment Not Resulting from Student Disciplinary Action

Upon information that calls into question a student's entitlement to a free public education in the District, the Superintendent/Designee will attempt to contact the student's parent(s) or guardian and give him/her the opportunity to respond. If the Superintendent/Designee determines after this communication or attempted communication that the student is not entitled to a free public education in the District, the Superintendent/Designee will provide written notification of this determination to the parent(s)/guardian and will notify the parent(s)/guardian of the right to appeal this determination to the Board of Education. The student will not be removed from the District's enrollment and barred from school attendance until after the time period to appeal to the Board has expired or if the Superintendent/Designee's determination is appealed, the Board has upheld the Superintendent/Designee's determination.

Voluntary Student Withdrawal

Students who voluntarily withdraw from school for any reason are required to notify the building principal and provide a specific reason for withdrawal.

Each building principal will submit a monthly report to the Superintendent concerning the identity and reason of each student withdrawing from school.

Requests to Transfer Student's Records to Another Public, Private or Charter School

Building principals will respond within five (5) business days to requests by other schools for the records of students transferring from District schools. Records transferred pursuant to such requests will include the written notification of criminal charges/adjudications by law enforcement officials for criminal acts listed in Regulation 2673.

Student Attendance

The Board of Education believes that regular attendance is essential to achieving success in school. Education is a total process based upon continual communication and shared responsibilities among parents, students, teachers and school. As students mature and progress through the educational system, they should increasingly assume responsibility for regular attendance. However, parents have a legal and moral responsibility to require regular attendance at school.

Truancy and Educational Neglect

The Board of Education believes regular attendance is important to academic success. Therefore, the Board directs that problems with attendance on the part of any student be investigated and acted upon promptly.

Truancy is defined as deliberate absence from school on the part of the pupil with or without the knowledge of the parent/guardian and for which no justifiable excuse is given. When a pattern of truancy becomes evident, the principal will investigate and take such action as circumstances dictate.

Section 210.115 R.S.Mo. mandates reporting to the Division of Family Services when there is reasonable cause to suspect that a student's nonattendance is due to the educational neglect of the parents/guardians.

Any school official or employee who knows or has reasonable cause to suspect that a student is being subjected to home conditions or circumstances which would reasonably result in truancy will immediately report or cause a report to be made to the building principal, or his/her designee, who will then become responsible for making a report via the Student Abuse Hotline to the Missouri Division of Family Services (DFS). The building principal shall inform the Superintendent/designee that a report has been made, and keep the Superintendent apprised of the status of the case.

Student Educational Records

A cumulative educational record shall be maintained for each student from his/her entrance into school through the last date of attendance or through graduation, whichever occurs first.

Each student's educational record will include information required by state and federal statutes, regulations or agencies and shall include other information considered necessary by school officials.

The District will comply with the mandates of the Family Educational Rights and Privacy Act (FERPA) and the Safe Schools Act regarding confidentiality of student records and disclosure of personally identifiable information.

The parents/guardians of students who are attending or have attended the District's schools have the right to inspect and review the educational records of their students and to request amendment of their students' educational records. The District has adopted procedures (Regulation 2400) for the granting of parental requests for access to the educational records of their students within a reasonable period of time, but in no case more than forty-five (45) days after the request is made.

All information contained in a student's educational record, except information designated as directory information by the District, shall be confidential and shall be directly accessible only to school officials who demonstrate a legitimate educational interest in the student's records and to parents/guardians or eligible students.

Upon request by military recruiters or an institution of higher learning, the District will provide students' names, addresses and telephone listings. Parents will be notified annually of their right to individually request that such information not be released without prior parental consent. Military recruiters will be provided the same access to students as is given to institutions of higher learning.

Grade Placement for Transfer Students

All students entering the District from other educational settings are required to submit evidence of their achievement in the last grade attended. Grade placement of a student may be adjusted on the basis of examination of the student's previous record, achievement tests administered, or other factors which the principal and staff believe are appropriate under the circumstances. A transcript of all entering secondary school students is required before enrollment can be completed. However, a student may be permitted to enroll temporarily until a full transcript is obtained.

Transfers from Unaccredited Schools

Parents/guardians should be advised that if they choose to transfer their student to the public school from an unaccredited school, the student will not be guaranteed comparable placement in the public schools. Students transferring will be assigned an appropriate grade level and class assignment based on their educational and developmental level as determined by the principal through assessment of student's age, educational experience, achievement tests and consultation with parent/guardian and personnel from the student's former school.

Promotion and Retention

The purpose of promotions and retentions is to provide maximum consideration for the long range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work, however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

Parents/guardians who wish to appeal the decision for retention must first contact the building principal. If parents/guardians do not accept the decision at the building level, an appeal may be made in writing to the Superintendent. All appeals must be requested within two (2) weeks after the last student attendance day.

The process for reading assessments and remediation, and retention guidelines for students who fail to meet the District's objectives for reading, are contained in Regulation 2520 – Promotion and Retention.

Student Academic Achievement**Graduation Requirements - Students with Disabilities**

The District must provide a free appropriate public education (FAPE) for students with disabilities pursuant to the Individuals with Disabilities Education Act (IDEA) until they graduate or until the student reaches twenty-one (21) years of age.

Students with disabilities pursuant to the IDEA who have completed four years of high school shall be allowed to participate in the graduation ceremony of the student's high school graduating class and all related activities if the student's individualized education program (IEP) prescribes special education, transition planning, transition services, or related services beyond the student's four years of high school, and the student's individualized education program team determines the student is making satisfactory progress toward the completion of the individual education program and participation in the graduation ceremony is determined appropriate.

The District shall provide timely and meaningful written notice to children with disabilities and their parents or guardians about this policy. [Notice of the District's policy shall be provided at the annual IEP meeting that occurs prior to the student's fourth year of high school.] The purpose of the notice is to inform parents and students about the policy and should not be confused with IDEA notices of action relating to the identification, evaluation, placement, or provision of FAPE.

This policy does not apply to non-IDEA students.

Early Graduation

Graduation, with all attendant privileges, will be allowed any time after seven (7) semesters of attendance beginning with grade nine and attainment of all requirements as set by the state and local School Boards. Early graduation should be part of a cooperative plan arrived at by students, their parent/guardian, and the school.

The above requirements may be modified in exceptional cases with approval of the Board of Education, upon recommendation of the Superintendent.

Discipline

The District has the authority to discipline for student conduct that is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, and during school-sponsored activities. Students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline up to and including expulsion. However, no student will be confined in an unattended locked space except for emergency situations while awaiting the arrival of law enforcement officials.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610, the code of student conduct, and/or state or federal law. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities and school social events); the reassignment of the student to another school; removal for up to ten (10) school days by building principals; extension of suspensions for a total of 180 days by the Superintendent; and longer term suspension and expulsion from school by the Board of Education. See also Policies 2610, 2662, and 2663.

Removal of any student who is a student with a disability under Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act is subject to state and federal procedural due process rights. See policy 2672 and its corresponding regulation.

The District will provide annual in-service training to all employees concerning the District's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities, and the requirements of student confidentiality.

Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to discipline the student, to deter future misconduct, and to provide a safe and positive environment in which students can learn. Firearms and Weapons in School

The District recognizes firearm and weapon possession as a potential threat to the health, safety and security of students, employees, and other persons. The District will not tolerate the presence of firearms or weapons on the premises of our schools. This prohibition includes possession of firearms and weapons on school playgrounds, school parking lots, school buses, and at school activities, whether on or off school property. The District complies with the provisions of the Improving America's Schools Act of 1994 and other applicable federal and state law.

Nothing in this policy shall prohibit the District from permitting a Civil War re-enactor to bring a Civil War era weapon to school for educational purposes so long as the weapon is not loaded.

Students who violate this policy will be suspended for no less than one (1) year and are subject to permanent expulsion. However, the Superintendent may recommend to the Board a modification of the suspension on a case-by-case basis. Students with disabilities under the Individuals with Disabilities Act and/or Section 504 of the Rehabilitation Act are entitled to the protections of those laws.

Student Use of Tobacco, Alcohol and Drugs

Smoking

The Board of Education believes that smoking and the use of any tobacco products or substances appearing to be tobacco products are detrimental to the health and well-being of staff and students. Therefore, the Board prohibits the use, sale, transfer, and possession of any tobacco products or substances appearing to be tobacco products, e.g. e-cigarettes, vaping paraphernalia, and/or other tobacco or nicotine delivery devices at school and at school activities. This prohibition includes, but is not limited to, electronic cigarettes, vaping devices, electronic nicotine delivery systems, and similar devices used in conjunction with vaping.

Alcohol and Drug Use

The improper use of controlled substances, alcohol, and substances represented to be such is detrimental to the health and welfare of students and is detrimental to discipline in school. Such conduct, as well as the possession of drug paraphernalia, is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

Pursuant to 29 U.S.C. 705(20c)(iv), a student with a 504/ADA disability who is currently engaging in the illegal use of alcohol or drugs is not considered a student with a disability under those laws, and the District may take disciplinary action – to the same extent that disciplinary action is taken against nondisabled students – in relation to that use or possession of alcohol or drugs. In such cases, the due process procedures contained in the Section 504 regulations will not apply to protect those students. This provision does not apply to students who are identified as disabled under the Individuals with Disabilities Education Act. However, school personnel may remove an IDEA disabled student to an interim alternative educational setting for not more than 45 school days without regard to whether that student’s behavior is a manifestation of his/her disability where that student knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the District’s jurisdiction. “Illegal drug,” as it pertains to the discipline of IDEA students, means a controlled substance but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or under any other authority.

The determination of whether or not a student is under the influence of alcohol or a controlled substance is based upon a variety of information including but not limited to physical appearances, speech patterns, and witnesses’ statements. While not required, District administrators may request a student suspected of alcohol use to submit to a Breathalyzer. Conduct that includes possession of or use of alcohol or controlled substances as well as the possession of drug paraphernalia is prohibited and is subject to disciplinary action as set forth in Regulation 2610.

CBD Products

The use or administration of CBD at school or school related activities is strictly prohibited unless such administration is required under the law for a student with a disability. Penalties for violations of this policy will be consistent with the penalties for alcohol and drug possession.

Pursuant to requirements of the 1989 amendments of the Drug-Free Schools and Communities Act and to the requirements of the Safe Schools Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, the District shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs to all students from early childhood level through grade twelve (12). (See also Policy 6130 – Drug Education.) Such programs will address the legal, social and health consequences of drug and alcohol use, and provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs. All parents/guardians and students shall annually be provided with a copy of this policy.

The District certifies that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. The District will seek restitution from students and other persons who have damaged or destroyed District property. As permitted by law, the District will also seek restitution from the parent/guardian of children involved in such misconduct.

Discipline**Bullying**

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation toward District personnel or students on school grounds, during the school day, at any school-sponsored activity, or in any school-related context. Bullying of students and District personnel is prohibited on all school property, during any District-sponsored activity, and on all District school buses.

“Bullying” means intimidation, unwanted aggressive behavior, or any other unwanted negative action that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, cyberbullying, electronic or written communication, and any threat of retaliation for reporting such acts.

Bullying occurs when a student:

- Communicates to another individual by any means (including face to face, by telephone, in writing, through cyberbullying, or via electronic communications), an intention to intimidate, or inflict physical, emotional, or mental harm without legitimate purpose, or
- Physically contacts another individual with the intent to intimidate or to inflict physical, emotional, or mental harm without legitimate purpose. Physical contact does not require physical touching, although touching may be included.

“Cyberbullying” means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager.

The District shall have jurisdiction to prohibit cyberbullying that originates on a school’s campus or at a District activity if the electronic communication was made using the school’s technological resources, if there is sufficient nexus to the educational environment, or if the electronic communication was made on the school’s campus or at a District activity using the student’s own personal technological resources. The District may discipline any student for such cyberbullying to the greatest extent allowed by law.

Anti-Bullying Coordinator

The Superintendent shall, on an annual basis, appoint a District employee who is teacher-level staff or above at each school to serve as the Anti-Bullying Coordinator.

The list of District Anti-Bullying Coordinators shall be kept on file at central office, along with this Policy.

Reporting

District employees are required to report any instance of bullying of which the employee has first-hand knowledge. District employees who witness an incident of bullying are required to report the incident to the school Anti-Bullying Coordinator within two (2) school days of the employee witnessing the event, unless the Anti-Bullying Coordinator is unavailable or is the subject of a report. In that case, the report should be made directly to the District's Compliance Officer (see Board Policy 1310).

All District employees shall instruct all persons seeking to report an incident of bullying to communicate directly with the Anti-Bullying Coordinator.

If a verbal report is made, the person will be asked to submit a written complaint to the Anti-Bullying Coordinator. If such person refuses or is unable to submit a written complaint, the Anti-Bullying Coordinator will summarize the verbal complaint in writing.

Even if a written complaint is not directly filed, if the Anti-Bullying Coordinator otherwise learns about possible bullying or cyberbullying, the District will conduct a prompt, impartial, adequate, reliable, and through investigation to determine whether unlawful conduct occurred and will implement the appropriate interim measures, if necessary. The District may take action upon finding a violation of law, District policy, or District expectations even if a complaint is not directly filed.

Investigation

Within two (2) school days of receiving a report of an incident of bullying, the Anti-Bullying Coordinator, the school principal, or his/her designee shall initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation.

The investigation shall be completed within ten (10) school days from the date of the written complaint of bullying, unless good cause exists to extend the investigation.

Retaliation

The District prohibits retaliation against any person who files a complaint of bullying,

cyberbullying, or retaliation, and further prohibits retaliation against any person who testifies, assists, or otherwise participates in any investigation, proceeding, or hearing relating to such bullying, cyberbullying, or retaliation. The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who retaliates against any such person.

Consequences and Remedies

When the District receives a report of bullying, cyberbullying, and/or retaliation, the District will take appropriate interim measures to protect the alleged victim(s). If, after investigation, it is determined that bullying, cyberbullying, and/or retaliation did occur, the District shall take prompt, effective, appropriate action reasonably calculated to end the bullying, cyberbullying, and/or retaliation and to protect individuals from further bullying, cyberbullying, and/or retaliation.

Students who are found to have violated this policy will be subject to the following consequences: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in-school suspension, out-of-school suspension, expulsion, and/or law enforcement contacted. Consequences imposed shall depend on factors such as: age of student(s), degree of harm, severity of behavior, disciplinary history and number of incidents.

The District will discipline or take other appropriate action against any student, teacher, administrator, or other school personnel who is found to have violated this Policy. Patrons, contractors, visitors, or others who violate this Policy may be prohibited from District property or otherwise restricted while on District property.

Public Notice

The superintendent or designee will continuously publicize the District's anti-bullying policy and will disseminate information to employees, parents/guardians, and students, as well as to newly-enrolled students and newly-hired employees, regarding how to report incidents of bullying. This Policy shall also be published in District student handbooks.

In addition, the District shall:

- a. Provide information and appropriate training to district staff who have significant contact with students regarding the policy;
- b. Give annual notice of the policy to students, parents/guardians, and staff;

- c. Provide education and information to students regarding bullying, including information regarding the school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying (including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have
- d. engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying);
- e. Instruct school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques shall include, but not be limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills; and/or encouraging the student to develop an internal locus of control; and
- f. Implement programs and other initiatives to address bullying, respond to such bullying conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying.

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken. Complaints alleging unlawful discrimination, harassment, or retaliation in violation of Board Policy/Regulation 1300 and/or 1310 shall be referred to the compliance officer for investigation pursuant to Board Policy/Regulation 1310.

Reporting Student Abuse

The Board of Education believes that school staff members, school volunteers, and school contractors are in unique positions to assist children, families, and the community in dealing with the issue of child abuse and neglect. Child abuse is defined as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means. Neglect is defined as the failure to provide the proper or necessary support, education, nutrition or medical, surgical or other care necessary for the child's well-being. Employees, volunteers, and school contractors making reports of allegations of sexual abuse of a student will be provided immediate unrestricted use of communication technology and will be temporarily released from their work duties to make an immediate report.

If a school employee, volunteer or school contractor has a reasonable belief that a student has been or may be subjected to abuse or neglect, such employee, volunteer, or contractor and the Superintendent shall report the information immediately upon receiving the information to the Children's Division. Thereafter, the Superintendent will investigate the allegation for the purpose of making decisions about the accused person's employment. Depending upon the specific facts, the District may place the alleged abuser on paid leave of absence; place the employee in a non-student contact position; initiate dismissal proceedings; or continue the employee in their present position pending outcome of the investigation.

Any school district employee, volunteer, or school contractor acting in good faith, who reports alleged sexual misconduct on the part of a school employee will not be disciplined or discriminated against because of such reporting.

The District will annually provide employee and volunteer training, which will include but not be limited to current information concerning identification of the signs of sexual abuse in children as well as the identification of the danger signals of potentially abusive relationships between children and adults. This training will emphasize the importance of mandatory child abuse reporting, including the obligation to report suspected abuse by other mandated reporters. Employees and volunteers will receive training on the need for and methods to create an atmosphere of trust so that students believe their school and school employees are available to discuss matters concerning abusive behavior.

The District will post in each student restroom and in a clearly visible location in each school office, the toll free child abuse and neglect hotline number established by the Children's Division. These signs will be published in both English and Spanish. Such child abuse and neglect hotline numbers shall be depicted in large print on posters 11 inches by 17 inches and will be placed at eye level for easy viewing. The hotline number will be shown in bold print. The signs shall also

Student Safety

The District places a high priority on the safety of its students and employees. Students in Foster Care

The District is committed to ensuring and facilitating the proper educational placement and enrollment in school and checkout from school for foster children.

In order to facilitate this process and to serve as the educational liaison for District foster children, the District will designate the Director of Neighborhood Family Services to oversee and assess the District's foster care program.

The Board recognizes students in foster care experience mobility in and out of the foster care system and from one home placement to another that may disrupt their education, and which may create barriers to academic success and on-time graduation. The District, in collaboration with state and local agencies, to minimize or eliminate educational barriers for students in foster care, particularly in enrollment, transfer of student records, and transportation to their school of origin, where appropriate. For purposes of this policy, "school of origin" is the school in which the student is enrolled at the time of placement in foster care. The District will, to the largest extent possible, ensure that a child in foster care enrolls or remains in his or her school of origin, unless a determination is made that remaining in the student's school of origin is not in the student's best interest.

In determining the student's best interest for purposes of this policy, the following factors will be considered:

1. Preference of the student;
2. Preference of the student's parent or educational decision making;
3. The student's attachment to the school, relationships with staff and peers;
4. Placement of the student's siblings;
5. Influence of the school climate on the student, including safety;
6. Availability and quality of the services in the school in meeting the student's educational and socioemotional needs;
7. History of school transfers and their impact;
8. Impact of the length of commute;
9. Whether the student has a disability under the IDEA or Section 504;
10. Whether student is an EL student receiving language services.

A foster care child whose home placement is changed may remain enrolled and attend their school of origin, or return to a previously attended school in an adjacent district. The District will accept for credit full or partial course work satisfactorily completed by a foster child while attending a public school, nonpublic school, or non-sectarian school in compliance with District policies, regulations, and practices.

If a child in foster care is absent from school due to a decision to change the placement of a pupil made by a court or child placing agency, or due to a verified court appearance or related court-ordered activity, the grades and credits of the pupil will be calculated as of the day the pupil left school and no reduction in grades will occur as a result of the pupil's absence under these circumstances.

If a foster care student transfers into the District prior to or during a school year, the District will initially honor the placement of the student in educational courses and programs based on the student's prior enrollment or educational assessments; will provide comparable services to transferring foster care students with disabilities based on the student's current IEP; and will make reasonable accommodations and modifications to address the needs of a student with disabilities, subject to an existing 504 or Title II Plan in order to provide equal access to education. The District will conduct evaluations, where necessary, to ensure proper placement and services.

The District will waive specific courses required for graduation if similar course work has been satisfactorily completed at another school. Similarly, the District may waive prerequisites for placement in a District course or program based upon courses taken at a prior school. If a waiver is denied for reasonable justifications, the District will provide an alternative means of acquiring the required course work so that graduation may occur on time. If foster care students who transfer at the beginning of their senior year or during their senior year are deemed ineligible to graduate after all alternatives have been considered, the sending District and this District will ensure that a qualified student who satisfied graduation requirements of the sending school, will receive a diploma from the sending school.

Students in foster care who have completed the graduation requirements of the District while under juvenile court jurisdiction will receive a diploma in the same manner as other District students.

Transportation

Some students in foster care who are residents of the District may need transportation to remain in their school of origin when it is in their best interest. To facilitate transportation for such students, the District will collaborate with the state and/or local child welfare agencies to ensure that transportation for such students is arranged, provided, and funded. If there are additional costs incurred in providing transportation to the school of origin, the District will provide such transportation if:

- a) The local child welfare agency agrees to reimburse the District for such costs;
- b) The District elects to pay the costs; or
- c) The District and the local child welfare agency agree to share the cost.

Dispute Resolution

In the event that a caregiver or education decision-maker disputes a District decision regarding the best interest or the provision of other educationally related services for a student in foster care, the caregiver or education decision-maker may use the District's dispute resolution procedure.

During the pendency of the dispute resolution, the student shall remain in his or her school of origin in order to minimize disruptions and to reduce the number of moves between schools. Similarly, students attending their school of origin are entitled to continue to receive transportation during the appeal.

In the event of such dispute, the District will inform the educational decision-maker or parent of their right to appeal the Best Interest Determination in a language and format reasonably calculated to inform the parent/educational decision-maker of their rights. They will also be provided with the following:

1. Contact information for the District's foster care point of contact.
2. An explanation of the Best Interest Determination.
3. A step-by-step description of how to appeal the Best Interest Determination at Level I.
4. A statement advising that the student will remain in the school of origin, receiving all appropriate educational services during the pendency of the appeal.
5. Timelines for dispute resolution at each level.
6. Notice of rights to appeal to DESE if the parent/educational decision-maker is not satisfied of the level decision.

Level I

In order to appeal from the Best Interest Determination, a parent/educational decision-maker must submit their appeal in writing. This writing must contain the following:

1. The school in which enrollment is sought.
2. The basis for seeking enrollment.
3. The requesting parent/educational decision-maker's name and contact information.

If the appeal is submitted by email, the subject line should provide "Foster Care Appeal."

The appeal letter must be submitted within ten (10) weekdays of receiving the District's notice of the right to appeal the decision. Failure to timely submit an appeal letter may result in dismissal of the appeal.

The Superintendent/designee will arrange for a personal conference with the parent/educational decision-maker, the student where appropriate, and the student's case manager or point of

contact. Prior to the meeting, the Superintendent will have reviewed the documentation from the Best Interest Determination meeting. The conference will be arranged within ten (10) days of receipt of the appeal letter and will be conducted as soon as practicable.

Within five (5) days of the conference, the Superintendent/designee will inform the parent/educational decision-maker as well as other parties attending the meeting of the Superintendent/designee's decision. The decision will be communicated in writing. The written decision will include the following:

1. Copy of the complete Level I appeal packet (appeal, Best Interest documents, notices, and decision).
2. The decision and an explanation of the decision.
3. Directions concerning the procedure to appeal the decision to Level II, including the DESE foster care point of contact, including that individual's name, phone number and email address.

Level II

If the parent/educational decision-maker disagrees with the Level I decision, they may submit a written and dated appeal letter headed "Foster Child Appeal" which must include:

1. The school in which enrollment is sought and the basis for seeking such enrollment.
2. The parent/educational decision-maker's name and contact information.
3. Best Interest Determination notes and reports.
4. Copy of the Level I appeal letter.
5. Copy of the District's Level I decision.

The appeal letter must be submitted to the DESE contact person and the District's Superintendent within five (5) days of receipt of the Level I decision. The District will have five (5) days from receipt of the Level II appeal letter to submit its response, which will be headed "Foster Child Appeal." Documents submitted after the stated deadline will not be considered.

The State's decision will be made by a three person panel including the DESE foster care point of contact, an additional DESE representative, and a representative of the state child welfare agency. The panel will make its decision within thirty (30) days of receipt of the Level II appeal letter. The DESE foster care point of contact will send the written decision to the parent/educational decision-maker and the Superintendent. The decision will include:

1. Copy of the Level II packet.
2. The decision and its explanation.

Temporary Alternative Placement Agreements

If a parent/guardian is temporarily unable to provide care or support for their child and if the child is not in imminent danger of death, serious bodily injury, or being sexually abused, an adult relative and the parent/guardian of the child may enter into a Temporary Alternative Placement Agreement (“Agreement”) with Missouri’s Children’s Division.

The Agreement provides for a placement with an adult relative for a period of ninety (90) days. The adult relative shall make the day-to-day decisions for the child as provided in the agreement, and shall further have the authority to make educational and medical decisions.

The adult caregiver (relative) is required to notify the District of the Agreement and is required to provide the District with notice of the Agreement.

This provision will become effective only when the Children’s Division has prepared and disseminated Rules and Regulations governing such Agreements.

Student Welfare**Transfer of Care and Custody**

A parent or legal custodian of a student may execute a power of attorney transferring the care and custody of the student for a period of up to one year. The transfer of custody will not change or modify parental or legal rights contained in an existing court order or deprive parents of visitation. Parents or legal guardians may revoke the power of attorney at any time.

Parents or legal custodians who are members of the Armed Forces, including reserve components, the Commissioned Officer Corps of the National Oceanic and Atmospheric Administration (NOAA), the Public Health Services of the United States, Department of Health and Human Services detailed for duty with the United States Armed Forces, or who is required to enter or serve in the active military service of the United States, under a call or order of the President of the United States, or to serve on state active duty, may delegate care and custody of their student for a period of longer than one year if on active duty service. The delegation of care and custody may not exceed the term of active duty service plus thirty (30) days.

The delegation of care and custody will not alter or affect the District's residency requirements.

If enrolled in the District, as soon as reasonably possible upon execution of a power of attorney for the temporary care of a child, the District shall be notified of the existence of the power of attorney and be provided a copy of the power of attorney as well as the contact information for the attorney-in-fact. While the power of attorney is in force, the District will communicate with both the attorney-in-fact and any parent or legal custodian with parental or legal rights, obligations, or authority regarding the custody, visitation, or support of the child. The District shall also be notified of the expiration, termination, or revocation of the power of attorney as soon as reasonably possible following such expiration, termination, or revocation and will no longer communicate with the attorney-in-fact regarding the child upon the receipt of such notice.

Use of Aversive Interventions

Aversive interventions will only be used in accordance with this policy. District personnel shall never use aversive interventions that compromise health and safety.

○ Safe Room Placement

Safe Room placement, as defined in this policy, may only be used by authorized school personnel, as defined in this policy.

At the time a student’s Individualized Education Program (IEP), Section 504 plan, BIP, or other parentally agreed-upon plan to address a student’s behavior is developed, the parent/guardian will be provided with a permission form regarding the use of the Safe Room.

If a student’s parent/guardian has not had the opportunity to sign the permission form because no IEP, Section 504 Plan, BIP, or other parentally agreed-upon plan to address a student’s behavior is in place for the student, the following procedure will take place if deemed necessary by school personnel:

- The classroom will be cleared of all other students and the student's behavior will be managed in that room, if appropriate;
- The student will be disciplined in accordance with the student discipline code;
- A parent/guardian will be notified of the need to clear the classroom due to the student's behavior and of the discipline imposed;
- A behavior team meeting will take place within five (5) school days following the incident and a BIP or other parentally agreed upon plan will be developed for the student, if necessary.

If a student's parent/guardian has signed the permission form, the Safe Room will be utilized for that student if necessary and a staff member will be present in the room with the student at all times unless one of the following escalations in conduct occurs: (1) the student becomes physically violent; (2) the student expels bodily fluids; or (3) the student begins disrobing. If any of these escalated behaviors occurs, the staff member will leave the room, utilize the staff-engaged locking system, and supervise the student through a window or other viewing device.

If a parent chooses not to give permission for his/her student to be placed in the Safe Room, the following procedure will take place if deemed necessary by school personnel:

- The student will be taken to the Recovery Room;
- The Recovery Room will be cleared of all other students;
- The student's parent/guardian will be notified of the behavior issue and will be required to pick-up the student from school;
- Law enforcement officials will be notified if an assault or other crime has occurred and charges may be pressed against the student; and
- If the parent/guardian of the student fails to pick-up the student within thirty (30) minutes of receiving notification of the behavior issue (or if the parent/guardian cannot be reached upon reasonable attempts by school personnel) and it is determined that an emergency situation exists, the student will be placed in the Safe Room.
- The parent/guardian will be responsible for any and all damage to property caused by their student during the incident.

Use of Safe Room placement requires all of the following:

- The student to be monitored by an adult in close proximity who is able to see and hear the student at all times. Monitoring shall be face-to-face unless personal safety of the child or staff member is significantly compromised, in which case technology-supported monitoring may be utilized.
- The total time in Safe Room placement is to be reasonably calculated by District personnel on a case-by-case basis based on the age of the child and circumstances, and is not to exceed 40 minutes without a reassessment of the situation and consultation with parents and/or administrative staff, unless otherwise specified in an IEP or Section 504 Plan or other parentally agreed-upon plan to address a student's behavior.

- The space in which the student is placed should be a normal-sized meeting or classroom commonly found in a school setting.
- The space in which the student is placed is comparable in lighting, ventilation, heating, cooling, and ceiling height to those systems that are in use in other places in the school.
- The space in which the student is placed must be free of objects that could cause harm.

Safe Room placement shall never be used as a form of punishment or for the convenience of school personnel.

- **Physical Restraint**

Physical restraint shall only be used in one of the three circumstances below:

- In an emergency situation as defined in this policy;
- When less restrictive measures have not effectively de-escalated the situation; or
- When otherwise specified in an IEP, Section 504 Plan or other parentally agreed-upon-plan to address a student's behavior.

Physical restraint shall:

- Only be used by authorized school personnel as defined in this policy.
- Only be used for as long as necessary to resolve the actual risk of danger or harm that warranted the use of the physical restraint;
- Use no more than the degree of force necessary to protect the student or other persons from imminent physical harm [or harm to property];
- Not place pressure or weight on the chest, lungs, sternum, diaphragm, back, neck or throat of the student which restricts breathing; and
- Only be done by school personnel trained in the proper use of restraint.

Any school personnel using physical restraint shall:

- Use only methods of restraint in which the person has received district approved training.
-
- Conduct restraint with at least one additional adult present and in line of sight, unless other school personnel are not immediately available due to the unforeseeable nature of an emergency situation.

Physical restraints should never be used as a form of punishment or for the convenience of school personnel.

- **Mechanical Restraint**

Mechanical restraint shall only be used as specified in a student's IEP, Section 504 plan,

BIP, or other parentally agreed-upon plan to address a student's behavior with the exception of mechanical restraints employed by law enforcement officers in school settings used in accordance with law enforcement policies, procedures, and appropriate professional standards.

- **Chemical Restraint**

Chemical restraints shall never be used by school personnel.

Communication and Training

- **School Personnel Meeting**

Following any situation involving the use of Safe Room placement or restraint, as defined in this policy, a meeting shall occur as soon as possible but no later than two (2) school days after the emergency situation. The meeting shall include, at a minimum, a discussion of the events that led to the emergency and why the de-escalation efforts were not effective; any trauma reactions on the part of the student, other students or school personnel; what, if anything, could have been done differently; and an evaluation of the process.

- **Parental Notification**

Except as otherwise specified in a student's IEP, Section 504 plan, BIP, or other parentally agreed-upon plan to address a student's behaviors:

Following a situation involving the use of restraint or use of the Safe Room where the staff member was required to leave the room due to escalated behaviors, the parent or guardian of the student shall be notified through verbal or electronic means of the incident as soon as possible, but no later than the end of the day of the incident unless circumstances render it unreasonable or impossible to notify the parent or guardian by the end of the day in which case the parent or guardian shall be notified through verbal or electronic means of the incident no later than noon of the next day.

- The parent or guardian shall receive a written report of the emergency situation within five (5) school days of the incident. The written incident report shall include all of the following:
 - Date, time of day, location, duration, and description of the incident and de-escalation interventions.
 - Event(s) that led up to the incident.
 - Nature and extent of any injury to the student.
 - Name of a school employee the parent or guardian can contact regarding the incident, and contact information for that employee.

- **Staff Training**

School districts shall ensure that all school personnel are trained annually regarding the

policy and procedures involving the use of seclusion, Safe Room placement and restraint.

Students with Disabilities

The foregoing policy applies to all students. However, if the IEP or multi-disciplinary team determines that a form of restraint, Safe Room placement, or aversive behavior intervention may be appropriate in certain identified and limited situations, the team may set forth the conditions and procedures in the IEP or Section 504 plan. Any use of restraint, Safe Room placement, or aversive behavior interventions must be limited to what is set forth in the IEP or Section 504 plan unless otherwise provided for in this policy. Before adding the use of restraint, Safe Room placement, or aversive behavior interventions to an IEP or Section 504 plan, the student must have undergone appropriate assessments which may include, but are not limited to, a functional behavior assessment, a review of existing data, and formal assessment observations. The plan must outline preventative techniques, de-escalation strategies, and the development of coping strategies, and the preventative techniques should support the elimination of the use of restraint, Safe Room placement, or aversive behavior intervention over time.

Reports on Use of Safe Room Placement, Restraint or Aversive Behavior Interventions

The District will maintain records documenting the use of Safe Room placement and restraint showing each of the following: when they were used, reason for use, duration of use, names of school personnel involved, whether students or school personnel were injured, name and age of the student, whether the student has an IEP, Section 504 plan, Behavior Intervention Plan (BIP) or other personal safety plan when the parents were notified, if the student was disciplined, and any other documentation required by federal or state law.

Applicability of this Policy

This policy applies to all district school personnel. School personnel assigned to programs not located on district premises (hospitals, detention centers, juvenile facilities, and mental health facilities) shall follow the policy and procedure of the facility/program where they work.

Student Welfare**Student Suicide Awareness**

The Independence School District is committed to maintaining a safe environment to protect the health, safety and welfare of students.

Pursuant to Section 170.048, RSMo., all Independence School District employees will receive information annually regarding this policy and the district's protocol for suicide awareness, prevention and response. The importance of suicide prevention, recognition of suicide protective and risk factors, strategies to strengthen school connectedness and building specific response procedures will be highlighted.

Such information shall include the following:

1. Current trends in youth mental health, wellbeing and suicide prevention and awareness
2. Strategies to encourage students to seek help for themselves and other students
3. Warning signs that indicate a student may be at risk of suicide
4. The impact of mental health issues and substance abuse
5. Communication to students regarding concerns about safety and that asking for help can save life
6. Understanding limitations and boundaries for giving help and techniques to practice self-care
7. Identification of key school personnel who are comfortable, confident and competent to help students at risk of escalated distress and suicide

All students will receive age appropriate information and instruction on suicide awareness and prevention. Information and instruction may be offered in health education, by the counseling staff or in other curricula as may be appropriate.

Student education will include the following:

1. Information about mental health, well-being and suicide prevention and awareness.
2. Promotion of a climate that encourages peer referral and which emphasizes school connectedness.
3. Recognition of the signs that they or peers are at risk for suicide.
4. Identification of issues that may lead to suicide including depression, anxiety, anger, and drug/alcohol dependency.
5. Directive to not make promises of confidentiality when they are concerned about peer suicide.
6. Identification of a trusted adult on campus with whom students can discuss concerns about suicide.

Guidance and Counseling Services

The Board of Education supports a systematic program of Guidance and Counseling which will be provided to all students from kindergarten through twelfth grade. This program will be a total education process with a priority of assisting students in reaching their full potential in their personal and educational development.

The Guidance and Counseling program may include the following areas:

1. Counseling
2. Developmental Guidance
3. Testing
4. Orientation, Registration, and Scheduling
5. Referrals

Student Services**Identification of At-Risk Students**

The District is committed to identifying students who are at-risk of not being ready for college-level work or not being ready for employment in entry-level career positions. It is essential that such identification occur early enough that our schools can intervene with academic counseling, career counseling, and other intervention services to enhance a student's readiness for post high school academic or employment opportunities.

Identification

Consistent with this District's commitment, at-risk students will be identified by at least their ninth grade year, including students who transfer into the District during ninth grade. In order to identify such at-risk students, District staff will utilize the following criteria:

1. Student performance in Mathematics and English on the eighth grade Missouri Assessment Program (MAP) tests.
2. The District will consider comparable statewide assessment performance for students transferring into ninth grade from outside of Missouri.
3. The District's reported rate of students taking remedial courses in basic academic subjects of English, Mathematics, and Reading during their initial year of college. In assessing this data, the District will rely on data submitted by the Department of Higher Education pursuant to § 173.750 RSMo.
4. The student's attendance rates.

While the above at-risk identifiers are mandatory, the District may consider additional criteria including, but not limited to, review of discipline record; performance more than one grade level below in Reading and/or Math; core subject middle school grades; academic assessment results; contents of Section 504 Plan; ACE score (Adverse Childhood Experience) of 5 or more or other relevant identifiers.

Academic and Career Counseling

When at-risk students are identified, the District will initiate academic and/or career counseling as soon as is practicable to enhance at-risk students' opportunity to graduate on-time, and to enhance their college and/or career readiness.

This policy may be appropriately waived for any student with a disability upon the recommendation of the student's Individualized Education Program (IEP) team.

The Board of Education believes that in order to provide for the safety and well being of its students, it is necessary to implement and maintain a District-wide student health services program. The District will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Consent to Medical Treatment and Educational Service

As provided by statute, and as otherwise provided in Board Policy, the following individuals may consent to student medical treatment and educational services:

1. Parents
2. Student's legal guardian
3. Relative caregiver
4. Foster parent
5. Any person who under court order is authorized to give consent for a student

A "relative caregiver" is defined by statute as a competent adult (18 years of age or older) who is related to the student by blood, marriage, or adoption and who is not the parent. Relative caregivers are required to provide an affidavit attesting that the student lives with the relative caregiver and they are responsible for the care of the student. (See Form 2835).

A relative caregiver acting under the requirements of an affidavit may consent to medical treatment and educational services for a student who cannot otherwise legally consent if the parent has delegated these responsibilities in writing or if after reasonable efforts the consent of the parent cannot be obtained.

The consent of the relative caregiver will be revoked in the event the student's parent withdraws their authorization provided the parent's decision does not threaten the life, health or safety of the student. In addition, if the student ceases to live with the relative caregiver, the relative caregiver must immediately notify the District. Upon receipt of such notice, the relative caregiver can no longer consent to medical treatment or educational services.

A relative caregiver's affidavit is valid for one year from the date received by the District.

Students with Communicable Diseases

A student shall not attend classes or other school-sponsored activities, if the student (1) has, or has been exposed to, an acute (short duration) or chronic (long duration) contagious or infectious disease, and (2) is liable to transmit the contagious or infectious disease, unless the Board of Education or its designee has determined, based upon medical evidence, that the student:

1. No longer has the disease.
2. Is not in the contagious or infectious stage of an acute disease.
3. Has a chronic infectious disease that poses little risk of transmission in the school environment with reasonable precautions.

School officials may require any child suspected of having a contagious or infectious disease to be examined by a physician and may exclude the child from school, in accordance with the procedures authorized by this policy, so long as there is a substantial risk of transmission of the disease in the school environment.

A student who has a chronic infectious disease, and who is permitted to attend school, may be required to do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school. A student who has a chronic infectious disease and who is not permitted to attend school or participate in school activities will be provided instruction in an alternative educational setting in accordance with District policy.

Students with acute or chronic contagious or infectious diseases and their families have a right to privacy and confidentiality. Only staff members who have a medical reason to know the identity and condition of such students will be informed. Willful or negligent disclosure of confidential information about a student's medical condition by staff members will be cause for disciplinary action.

The District will implement reporting and disease outbreak control measures in accordance with the provisions of Missouri Department of Health publication PACH-16, "Prevention and Control of Communicable Diseases: A Guide for School Administrators, Nurses, Teachers and Day Care Operators," a copy of which shall be on file in the office of the Supervisor of Health Services and in the office of each school nurse.

Administering Medicines To Students

It shall be the policy of the Board of Education that the giving of medicine to students during school hours be discouraged and restricted to medication that cannot be given on an alternative schedule. The Board of Education recognizes that some students may require medication for chronic or short-term illness/injury during the school day to enable them to remain in school and participate in their education. Employees providing routine first aid according to District procedures will be immune from liability or disciplinary action. Similarly, trained employees will be immune from civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices. The Board of Education also recognizes that the administration of medication may be required under Section 504 of the Rehabilitation Act of 1973 and/or the Individuals with Disabilities Education Act to provide a free appropriate public education for identified as disabled under those laws.

Medical Marijuana

The Board strives to honor families' private medical decisions while ensuring a learning environment free of disruption. To that goal, the District maintains a strict prohibition against the possession, use, sale and presence under the influence of prohibited substances, having adopted a Drug Free School Policy (*Policy 2641 – Drug Free Schools*) as well as a prohibition against Student Use of Tobacco, Alcohol and Drugs (*Policy 2640 - Student Use of Tobacco, Alcohol and Drugs*). The purpose of these policies and others is not primarily punitive to catch offenders, rather it is designed to provide a safe learning environment and to serve as a deterrence to drug use.

The State of Missouri has adopted a limited authorization of medical marijuana, as defined by state law and all applicable regulations (hereinafter “medical marijuana” or “drug”). The law does not authorize, however, the use of medical marijuana on school premises, nor does it require or permit district employees to administer the drug to students. Accordingly, the District does not permit the use or administration of medical marijuana by an Individual while on school premises.

Under this policy, caregivers of qualified users of medical marijuana should administer the drug before or after school hours. Caregivers are advised to administer the drug as early in the morning as possible or after school in order to avoid safety issues at school.

Student possession, use, distribution, sale or being under the influence of marijuana inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

Student Allergy Prevention and Response

The purpose of this policy is to create an organized system for preventing and responding to allergic reactions in accordance with House Bill 922 (2009). This policy is not a guarantee of an allergen-free environment; instead, it is designed to increase awareness, provide education and training, reduce the chance of exposure and outline responses to allergic reactions.

This policy applies to district facilities to which students have access and includes transportation provided by the district. The Board instructs the superintendent or designee to develop procedures to implement this policy.

Identification

An allergic reaction is an immune system response to a substance that itself is not harmful but that the body interprets as being harmful. Allergic reactions range from mild to life-threatening. Each school in the district will attempt to identify students with life-threatening allergies, including food allergies. At enrollment, the person enrolling the student will be asked to provide information on any allergies the student may have.

Prevention

Students with allergies that rise to the level of a disability as defined by law will be accommodated in accordance with district policies and procedures pertaining to the identification and accommodation of students with disabilities. An Individualized Health Plan (IHP), including an Emergency Action Plan (EAP), may be developed for students with allergies that do not rise to the level of a disability.

All staff members are required to follow any 504 Plan or IHP/EAP developed for a student by the district. Staff members who do not follow an existing 504 Plan or IHP/EAP will be disciplined, up to and including termination.

Staff members shall not use air fresheners, oils, candles, incense or other such items intended to add fragrance in any district facilities. This provision will not be construed to prohibit the use of personal care items that contain added fragrance, but the principal may require staff members to refrain from the use of personal care items with added fragrance under particular circumstances.

Staff members are prohibited from using cleaning materials, disinfectants, pesticides or other chemicals except those provided by the district.

The district will not serve any processed foods, including foods sold in vending machines, which are not labeled with a complete list of ingredients. Vended items must include a list of ingredients on the individual package. The food service director will create an ingredient list for all foods provided by

the district as part of the district's nutrition program, including food provided during the school day and in before- and after-school programs. This list will be available upon request.

Prepackaged items used in concessions, fundraisers and classroom activities must include a list of ingredients on the package. If the package does not contain a list of ingredients, the list of ingredients must be available at the location where the package is sold or provided.

Education and Training

All staff members will be annually trained on the causes and symptoms of and responses to allergic reactions. Training will include instruction on the use of epinephrine premeasured auto-injection devices.

Age-appropriate education on allergies and allergic reactions will be provided to students as such education aligns with state Grade-Level Expectations (GLEs) for health education. Education will include potential causes, information on avoiding allergens, signs and symptoms of allergic reactions and simple steps students can take to keep classmates safe.

Confidentiality

Information about individual students with allergies will be provided to all staff members and others who need to know the information to provide a safe learning environment for the student. Information about individual students with allergies will be shared with students and others who do not have a legitimate educational interest in the information only to the extent authorized by the parent/guardian or as otherwise permitted by law, including the Family Educational Rights and Privacy Act (FERPA).

Response

Response to an allergic reaction shall be in accordance with established procedures, including application of the student's 504 Plan or IHP/EAP, where applicable. Each building will maintain an emergency supply of epinephrine premeasured auto-injection devices to be administered in accordance with Board policy, and if parents are aware that their student(s) have a life-threatening allergy, they should supply the school with the epinephrine premeasured auto-injection devices to be administered in accordance with Board policy.

Student Physical Examination

The Board of Education may require any student to be examined by a physician for the purpose of determining whether the student is afflicted with a contagious or infectious disease or have the liability of transmitting the disease.

The Board may also require certification from a physician indicating a student's fitness to participate in specific educational programs or extra-class activities.

Refusal on the part of parent/guardian to obtain the required examination and to submit the certification indicating freedom from contagious or infectious disease may result in student exclusion from school.

Students may be excused from engaging in required educational activities upon proper certification from a physician advising of student disability.

All costs of physical or other examinations shall be at the expense of students unless State or Federal law specifically mandates the examination to be the responsibility of the school.

Student Services**Do Not Resuscitate (DNR) Orders**

The School District recognizes that some students have progressive medical conditions that may result in the students' death while present at school or school activities. The District appreciates the difficult medical and emotional decisions that must be made when families choose to limit resuscitative efforts for these students. Accordingly, the administration shall develop procedures for evaluating requests by a parent or guardian that the District honor a Do Not Resuscitate (DNR) order from a licensed physician.

At a minimum, the procedures will require an individualized evaluation of each request. The procedures will comply with federal and state law. A health care and resuscitation/non-resuscitation plan shall be developed for each request and shall include a determination regarding what if any resuscitation efforts are appropriate. Health care and resuscitation/non-resuscitation plans will be developed by a multidisciplinary team that shall include the student's parents or guardians and physician; appropriate school personnel (including but not limited to, the principal, counselor, and school nurse) and their consultants; and when appropriate, the student. This team will consider the best interests of the student.

The team will also address and plan for the effect of a student's sudden death on other students and staff in each school setting in which the student participates. Health care and resuscitation/non-resuscitation plans shall be reviewed regularly and have a specific limited duration. Such plans will be communicated to all school personnel who have a need to know in order to implement these plans. The administration shall coordinate with local emergency medical services to implement the plans.

Student Publications

The Board of Education encourages student production and distribution of publications which can provide opportunities for practical journalistic experience and for the written expression of differing opinions. The principal, through appointment of a faculty advisor or committee, shall provide guidance to students in appropriate methods for preparing and producing publications.

Interscholastic Activities and Athletics

The District provides opportunities for students to participate in interscholastic activities and athletics. The interscholastic programs should encourage participation by as many students as possible and should be carried on with the best interests of the students as the primary consideration. The programs are expected to be well organized and well conducted and to have a positive influence on the students and the community.

Participation in interscholastic and extracurricular activities is a privilege and not a right. Interscholastic competition may be withheld from any student as a condition of discipline. Furthermore, all policies that apply to the regular school day apply also to interscholastic competition. Coaches and sponsors may establish policies for their groups in addition to those set out by the Missouri State High School Activities Association.

Hazing

Student hazing is inconsistent with the educational goals of the District and poses a significant risk to the physical and mental welfare of District students. Participation by Non-Traditional Students

Should the District elect to permit non-traditional students to participate in interscholastic activities, such students must qualify as bonafide students under MSHSAA regulations in order to participate in such activities.

Non-Traditional students may be considered bonafide under MSHSAA regulations under any of the following options:

Option 1 – Transcribed Credits

1. The student must be enrolled in a District high school although some courses/credits are taken off-campus, i.e. virtual, post-secondary, work study, etc; and
2. All credits attempted must appear on the student's high school transcript; and
3. All classes must be completed by the high school's close of semester in order to be considered counted toward activity eligibility.

Option 2 – Seat Time plus Non-Transcribed Credits

1. The student must be enrolled in a District High School and take a minimum of two (2) credit bearing seat time classes for a minimum of 1.0 units of credit at the high school; and
2. High School Administration must confirm after a full academic review that the student is further enrolled in courses outside of the high school, which bring the student up to full MSHSAA mandated credit requirements of 80%. The High School Administration will develop and submit to the Superintendent a written procedure to determine approval of outside courses/credits; as well as the procedures to determine success/credit confirmation for academic eligibility for the current and following semester. It is not necessary that such confirmed credits be placed on the student's transcript.
3. All classes must be completed by the high school's end of semester in order to be considered toward activity eligibility.

Change of Enrollment Status

Any student whose enrollment status changes from being a non-bonafide activity eligible student to a bonafide activity eligible student will be considered a transfer student. As a transfer student, the student would be activity ineligible until a transfer of eligibility form is filed and an eligibility ruling rendered.

Financial Management

The Board of Education will adopt a series of policies to provide direction regarding the District's budget and financial affairs which reflect the educational philosophy of the School District and provide a framework in which the District's administration can effectively operate.

The budget and finance processes will conform to all state and local requirements as set forth by the State constitution, State statutes, Department of Elementary and Secondary Education rules, and Board policies.

Good business necessitates keeping accurate, legal and understandable records of receipts and expenditures. It is also essential that procedures be followed which will help to insure that the budget adopted by the Board of Education is effective in providing parameters for the fiscal affairs of the School District.

The purpose of the District budget and finance policies will be to provide direction for a systematized procedure that maintains continuity from year to year and informs the public regarding the education and financial operations of the School District.

Financial Operations

Debt Management Policy

The debt management policy of the District is to remain in full compliance with statutes of the State of Missouri by borrowing within the allowable limits of no more than fifteen percent (15.00%) of the District's assessed valuation, which can include state assessed railroad and utility properties located within its boundaries. It is also important that the District exercise caution and prudence concerning its full compliance with the rules and regulations of the United States Department of the Treasury Internal Revenue Service (IRS) to avoid any risk of loss of the tax exempt status of any proposed financings, as well as those currently in existence. Generally the improper spending of the bond proceeds is what triggers a violation of IRS regulations and not complying with the ballot language for the projects can create problems with the Missouri State Auditor and local patrons.

In terms of philosophy toward the monitoring of a long term debt management policy, the Board of Education and Administrators recognize that to achieve the necessary 4/7 or 2/3 majority for approval by the voters of general obligation bond issues it is likely to be much easier if no increase in the debt service fund levy occurs. As a result, it is the District's practice to issue general obligation bonds with optional redemption (call) provisions that facilitate prepayments when excessive debt service fund balances accumulate with the goal of maintaining a constant debt service fund levy. This policy has enabled the District to achieve significant interest savings by issuing refunding bonds to capture lower interest when municipal bond markets change.

On occasion the District may consider capital facilities or equipment lease financing programs. It is the intent to only enter into those types of transactions when it is clear based upon reports from the District's Municipal Bond Underwriter that such a program is affordable and that its implementation does not harm the overall operating budget. If the project and lease financing are deemed essential, but beyond the range of reasonable affordability, the Board of Education and Administration will approach the voters for a temporary or permanent increase in the operating levy to produce the additional revenue.

Since general obligation bond issues and capital facilities or equipment lease financings happen intermittently, it presents challenges for administrators and board members to keep fully informed about the conditions of the municipal bond market, changing rules and regulations issued by the U.S. Treasury Department, etc. For these reasons the Board of Education engages the service of a municipal bond underwriter on a continuing basis to assist the administrators and board members to keep up to date and understand what refunding opportunities exist and what actions are necessary to preserve the existing debt service fund levy to remain on track with the long range facilities plans.

The Superintendent of Schools and other staff providing assistance with those special duties are responsible to the Board of Education for carrying out this policy.

Fraud Prevention

The District is committed to protecting the public funds with which it has been entrusted. Minimizing the losses to fraud and corruption is an essential part of ensuring that all of the District's resources are used for the purpose for which they are intended.

The public is entitled to expect the District to conduct its affairs with integrity, honesty and openness, and demand the highest standards of conduct from those working for it and with it.

Definition of Fraud and Corruption

Although there is no precise legal definition of fraud, the term is used to describe a multitude of offences, including deception, forgery, theft, misappropriation, collusion and false representation of material facts.

Corruption arises when a person receives any benefit which influences them and causes them to act differently when conducting District business.

The District's Response

Board policy requires that matters involving any financial irregularities are referred to the Superintendent for investigation. These matters are taken seriously and additional action, such as disciplinary proceedings and/or prosecution, will be taken where evidence of offences is found.

The Superintendent/designee will:

- ◆ Compile a report of findings for submission to the Board with a recommendation as to whether disciplinary action is appropriate.
- ◆ Where appropriate, coordinate with the police in order for them to consider taking criminal action.
- ◆ Advise departments on how to address procedural weaknesses identified during investigation.

The Investigation Process

The purpose of any investigation is to establish the facts in an equitable and objective manner.

The process will involve the use of authority or delegated powers to:

- ◆ screen allegations or information to gauge their credibility;
- ◆ secure all evidence;

- ◆ interview suspects;
- ◆ interview witnesses;
- ◆ take statements; and
- ◆ coordinate with departments or other agencies (including the police).

The Superintendent/designee will establish and record the basis of the concerns raised and establish what further actions are required. The Board will be informed of all reported disclosures and the actions being taken. In the case of disclosures on alleged fraud and corruption, the Chief Financial Officer will inform the District's external auditors.

Whenever possible, the individual raising the concern will be advised of the outcome of the investigation. If an individual is not satisfied with the response received and any subsequent action taken, they should put their concerns in writing to the Superintendent who will arrange any further investigation as he/she deems appropriate. The Superintendent will send a written response to the individual concerned.

Reporting Suspicions

If fraud or corruption is suspected, then the matter should be reported without delay. Employees should report suspicions to a supervisor at the outset and retain all evidence. However, if it is thought the supervisor might be involved or there may be a conflict of interest, the matter should be reported directly to a more senior administrator.

It is recognized that for some individuals, raising a concern under this procedure may be a difficult experience. All reported incidents will be investigated.

All reports will be dealt with in confidence, with staff being informed on a need to know basis only.

To ensure that this policy is adhered to, and to assure staff that the concern will be taken seriously, the District will:

- ◆ not allow the person raising the concern to be retaliated against for doing so;
- ◆ treat retaliation against whistle blowers as a serious matter leading to disciplinary action that may include dismissal;
- ◆ not attempt to conceal evidence of poor or unacceptable practice;
- ◆ take disciplinary action if an employee destroys or conceals evidence of poor or unacceptable practice or misconduct; and
- ◆ ensure confidentiality clauses in employment contracts do not restrict, forbid or penalize whistle blowing.

Overall Objectives

The District's overall objective is to identify and maintain good practices, address weaknesses in current processes and introduce improved systems for the management of those processes. The end result is that of minimizing the amount of fraud and corruption which may occur within the system and significantly reduce the opportunity for fraud or corruption to occur in the future.

Preparation of Budget

Each year the Superintendent of Schools is required to submit to the Board of Education for their consideration a detailed annual budget showing estimates of income and expenditures for the ensuing fiscal year. The Board may accept, reject, modify or request revisions of the budget, but will adopt a budget by June 30, according to statutory provisions.

By law the approved estimated expenditures for each fund cannot exceed the estimated revenues to be received plus the unencumbered beginning cash balance for the fund. After the beginning of the fiscal year, the Superintendent shall review with the Board the adopted budget in relationship to the beginning cash balances for each fund.

Fiscal Year

The fiscal year begins annually on the first day of July and ends on the thirtieth day of the following June.

Financial Management**District Fund Accounts**

The District will maintain the following funds for the accounting of District moneys: teachers' fund, incidental fund, capital projects fund and debt service fund. The treasurer of the District will open and maintain an account for each fund. These funds are denoted for state reporting purposes as: General Fund, Fund 1 – comprised of the Incidental; Fund 2 – the Special Revenue Fund, comprised of the Teachers' Fund; Fund 3 – The Debt Service Fund; and Fund 4 – the Capital Projects Fund.

All sums received from the county school fund and all sums derived from taxation for teachers' wages will be credited to the teachers' fund. All tuition fees, state moneys received under §162.975 and 163.031, and all other sums received from the state except as otherwise provided in this policy will be credited to the teachers' fund and incidental funds at the discretion of the Board. The portion of state aid received by the District pursuant to §163.031, which is included in the operating levy for school purposes, will be credited to the debt service or capital projects funds. Sums received from other Districts for transportation and sums received from taxation for incidental expenses will be credited to the incidental fund. All sums received from taxation or received from any other source for the erection of buildings, building additions, remodeling, or reconstruction, furnishing, for the payment of lease purchase obligations, for purchase of real estate, for sale of real estate or personal property, from insurance, from sale of bonds other than refunding bonds will be credited to the capital projects fund.

Sums received from taxation for the retirement of bonds and the payment of interest on bonds will be credited to the debt service fund. Receipts from delinquent taxes will be credited to individual funds on the same basis as receipts from current taxes. However, where such distribution of receipts from delinquent taxes would affect the previous years' obligations, distribution to the various funds will be based on the levies for the years in which the obligations were incurred. All refunds will be credited to the fund from which the original expenditure was made. Sums donated to the District will be credited to the fund from which it can be expended to meet the purpose of the donation. Sums received from any other source will be credited to the fund designated by the Board.

Fund Balance

This Policy establishes guidelines to be used during the preparation and execution of the annual budget to ensure that sufficient reserves are maintained for unanticipated expenditures or revenue shortfalls. The Policy is based upon a long-term perspective with a commitment to keeping the District in a strong fiscal position that will allow it to better weather negative economic trends.

Background

Statement No. 54 of the Governmental Accounting Standards Board (GASB 54) establishes accounting and financial reporting standards for all governments that report governmental funds.

It establishes criteria for classifying fund balances and clarifies definitions for governmental fund types.

GASB 54 establishes five fund balance categories: Nonspendable, Restricted, Committed, Assigned, and Unassigned.

Nonspendable Fund Balance consists of funds that cannot be spent due to their form (e.g., inventories and prepaids) or funds that legally or contractually must be maintained intact.

Restricted Fund Balance consists of funds that are mandated for a specific purpose by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance consists of funds that are set aside for a specific purpose by the District's highest level of decision making authority. Formal action must be taken prior to the end of the fiscal year. The same formal action must be taken to remove or change the limitations placed on the funds.

Assigned Fund Balance consists of funds that are set aside with the intent to be used for a specific purpose by the District's highest level of decision making authority or a body or official that has been given the authority to assign funds. Assigned funds cannot cause a deficit in unassigned fund balance.

Unassigned Fund Balance consists of excess funds that have not been classified in the previous four categories. All funds in this category are considered spendable resources. This category also provides the resources necessary to meet unexpected expenditures and revenue shortfalls.

Actions Leading to Restricted, Committed, and Assigned Fund Balances

The Board of Education has the authority to set aside funds for a specific purpose. Commitments are authorized by formal Board resolution. The passage of a resolution must take place prior to June 30th of the applicable fiscal year. If the actual amount of the commitment is not available by

June 30th, the resolution must state the process or formula necessary to calculate the actual amount as soon as information is available. Assignments are authorized by fund placement in the Special Revenue, Capital Projects and Debt Service funds in the original adopted and later revised budget.

Upon adoption of a budget where fund balance is used as a source to balance the budget, the Chief Financial Officer shall record the amount as Assigned Fund Balance.

The Board delegates the authority to assign amounts for specific purpose(s) to the Chief Financial Officer.

Order of Spending

When both restricted and unrestricted funds are available for expenditure, restricted funds should be spent first unless legal requirements disallow it.

When committed, assigned and unassigned funds are available for expenditure, committed funds should be spent first, assigned funds second, and unassigned funds last.

Petty Cash

In order to facilitate minor purchases and refunds, the Board authorizes a petty cash fund checking account in each school facility including attendance centers, Facilities office, Transportation office, Food Service office and Central office.

The account custodian for the accounts in the schools will be the building principal. The account custodian in the district wide offices will be the department director. Each account custodian will appoint a second administrator in their facility to be a backup custodian. Authorized check signers will be approved annually by the Board. Each account's authorized signers will include the account and backup custodians, Controller and Director Business/Benefits.

Each transaction must be supported with proper receipts by the account custodian. Justifiable expenditures from the petty cash accounts include but are not limited to miscellaneous instructional materials and supplies, office supplies, postage, freight, refunds, or refreshments. Petty cash should not be used to avoid district policy on purchasing authority.

The petty cash funds will be reconciled by the custodian monthly. The reconciliation and all receipts will be submitted to accounts payable for reimbursement.

Payment Procedures

All money received by the District shall be disbursed only for the purposes for which they are levied, collected or received.

The Board will give final approval to all bills paid. Payment of bills shall be authorized by the Superintendent/designee, only after verification of delivery and satisfaction by the department or staff receiving the item(s). The Superintendent/designee shall audit all claims, and shall submit all invoices to the Board for approval and authorization for payment. However, payments for materials or services which are necessary for normal business operations which do not individually exceed \$500 or exceed an aggregate monthly amount of \$10,000 may be authorized by the Superintendent/designee. In addition, if cash discount or avoidance of financial penalty can be achieved, the Superintendent/designee is authorized to issue a check. The District will make timely payment to contractors consistent with the terms of each specific contract. Advance payments of Federal funds will be deposited and maintained in insured interest-bearing accounts. Interest amounts of up to \$500.00 per school year will be maintained by the District to be utilized for administrative purposes. Investments of District Funds

The Board has an obligation to the citizens of the District to direct the management of District funds. The primary objective of the District's investment plan will be legality, safety, liquidity, yield and the provision of a capital base for future needs. In the management of such funds, the District adheres to the "prudent investor" rule. Investments will be made with judgment and care, under the circumstances which persons of prudence, discretion and intelligence exercise in the management of their own investments. Funds will be managed for investment, not for speculation considering the safety of the funds invested and the probable income to be derived.

District personnel, including Board members, who are involved in the investment of District funds, will not engage in any personal business activity which could:

1. Impair their ability to make impartial decisions concerning investment of District funds;
2. Conflict with proper execution of the District's investment program; or
3. Create an appearance of impropriety.

District employees and directors involved in investment of District funds will disclose any material interests in financial institutions in which they conduct business. Such disclosure will include, but not be limited to any personal financial/investment positions that could be related to the performance of the District's investment portfolio. Similarly, District employees and directors involved in investment of District funds will not engage in personal investment transactions with the same individual with whom business is conducted on behalf of the District.

Investments will be made through banks or securities dealers who have been approved by the Investment Committee of the State Treasurer's Office. Such banks and securities dealers will have been subjected to an appropriate investigation by the staff of the State Treasurer's Office. This investigation will include, among other things, a written review of the firm's financial statements and the background of the sales representatives. All approved dealers must be fully licensed and registered FINRA Brokers/Dealers or exempt banks. Criteria used to select securities dealers include:

1. Financial strength and capital adequacy of firm;
2. Services provided by firm;
3. Research service available;

4. Resume, reputation, and qualifications of sales representatives.
5. Due diligence and firm references; and
6. State government expertise.

The performance goals of the District's active investment management program, over time, should produce book yields which are greater than yields from low risk passive investments. In analyzing the results of the District's investment program, the District will calculate the book yield and total rate of return on District funds compared to the appropriate security market indexes.

The Superintendent/designee will direct the preparation of quarterly investment reports providing a summary of the District's current investment portfolio and all transactions executed since the last report.

Such investment reports will be prepared by the appropriate bank(s) or security dealers for review by the Board and the Superintendent. Investment reports are considered to be public records and will be made accessible to the public.

Criteria and procedures implementing the District's investment policy have been approved by the Board and are contained in Regulation 3160.

Federal Awards – Allowable Costs

The District assumes responsibility for ensuring that Federal funds have been expended and are accounted for consistent with Federal program regulations and approved applications. Costs are generally categorized as either direct or indirect. All coding of direct and indirect costs will generally follow the Missouri School Finance Accounting Manual.

Direct Costs

Direct costs include salaries, fringe benefits, purchased services, supplies and equipment. Direct charging of administrative or clerical staff costs will be appropriate only if all of the following conditions are met:

1. Such costs are integral to a project or activity.
2. Individuals involved can be specifically identified with the project or activity.
3. Such costs are explicitly included in the budget or have the prior written approval of the Federal Award Agency.
4. The costs are not recovered as an indirect cost.
5. These conditions may be met using a job description along with time and effort documentation.

Indirect Costs

Indirect costs are those which are not readily identified with the activities funded by the Federal grant or contract, but are nevertheless incurred for the joint benefit of these activities and other activities and programs of the District. Accounting, auditing, personnel, budgeting, purchasing and operation/maintenance of plant are examples of services which typically benefit several activities and programs for which appropriate costs may be attributed to the Federal program by means of an indirect cost allocation plan. The indirect rate cost used in calculating the indirect cost depends on whether the grant is a restricted or unrestricted.

Documentation of Personnel Costs

Charges for salaries and wages will be based upon records that reflect the work performed. Records are required for all employees, including teachers, paraprofessionals, administrators and other staff paid with Federal funds. These records will document the time and effort such individuals spend within the program. The portion of the federally paid salary will be reflective of the actual activity, not budgeted, the individuals has contributed for the specific Federal program. Time and effort reporting is required when any part of an individual's salary is charged to a Federal program or used as a match for a Federal program.

Purchases By and/or Solicitation of School Staff

Conflict of Interest

The School District will not purchase supplies or materials from a staff member of the School District, nor from a member of the household of the staff member, except in emergency situations as determined by the Superintendent of Schools. Neither will the District purchase supplies, materials or services from a member of the Board of Education or from a member of his/her household, or from a firm in which he/she holds a major interest.

Endorsements

Employees of the District will not endorse products or services in such a manner that will identify the employee as an employee of the School District.

Procurement Activities

In any purchasing activities all employees shall refrain from soliciting, discourage the offer of, and decline gifts if offered by any vendor wishing to do business with, or who is doing business with the School District. Instead of making an offer of gifts, the vendor should be encouraged to discount the price of the goods to the school.

Solicitation/Distribution

The advertising of sale or distribution of any goods or service on school property, for any school activity, shall have prior approval from the building principal or Superintendent. This includes but is not limited to: school personnel, students, parents/guardians, relatives, general public and commercial businesses.

Solicitations of School Staff

Agents, solicitors, and salespersons will be denied the privilege of seeing the school staff during the school day except with permission of the administration.

Financial Operations**Procurement of Professional Services**

The Board of Education and the Administrators recognize that some professional services are necessary on certain occasions to assist in the governance of the District. These services include attorneys to provide legal counsel with specific expertise regarding education policy matters, architects, and certified public accountants to annually audit the financial statements of the District and to provide answers to questions that arise during the course of the fiscal year. Similarly, it may be necessary to obtain financial advisory services to monitor the long range debt objectives of the District, as well as, bond counsel to address questions that arise with existing debt and various reports occasionally sought by the Missouri State Auditor and the United States Treasury branch of Internal Revenue Service and others.

While in some instances it may be possible to seek bids for the financial services and bond counsel each time a need arises, there are also numerous benefits to maintaining longer term relationships with specific professionals. Having a satisfactory relationship with a professional service provider includes fair pricing, timely delivery, dependable and sound advice concerning areas of expertise, a personality match with administrators and board members and numerous other factors. As long as the board members and administrators are comfortable with the quality of services provided, it is not essential that annual bidding occur merely to drive prices to their lowest level. By losing historical memory of any professional service provider, the District may in the long run incur more expense for the new firm to educate their representatives. On other occasions if the administrator expresses belief that service quality is slipping, expenses and fees are escalating at unacceptable levels, or any other non favorable working situation is developing, nothing in this policy is intended to preclude seeking proposals from other vendors offering similar services. The Board of Education and Administration believes that the collective expertise within the District is sufficient to judge if and when seeking alternative providers is prudent.

Performance Evaluation

Certificated Personnel Performance Evaluation

The Board of Education's ultimate goal in education is to provide the highest quality educational experience to all District students. The District's performance-based evaluation system contributes to that goal by promoting the professional improvement of each staff member and, when necessary, by providing data to remove an employee whose employment is detrimental to students.

Performance-based evaluation is a process endorsed by the Board of Education for performance improvement that includes identification of performance expectations, documentation of performance, discussion of performance, development of improvement plans, and making personnel decisions based upon performance. The evaluation process for every employee is an on-going process that takes place every day. Formal, summative evaluations will be prepared and reviewed with each tenured teacher at least every other year. All other District employees will receive summative evaluations annually.

Evaluation of all teachers is to be made in accordance with the following guidelines:

1. Procedure for Evaluation - The evaluator shall be the teacher's principal and/or immediate supervisor.

2. Frequency and Time Schedule

a. Probationary Teachers

All probationary teachers shall be evaluated annually. The evaluations will be completed by March 1.

b. Tenure Teachers

A permanent teacher may be evaluated at any time at the teacher's request or the evaluator's discretion. However, the teacher must be evaluated at least once every four years before March 1.

c. Reevaluation

A teacher may request a reevaluation of the formal evaluation between March 1 and April 1. The principal will complete the evaluation prior to October 15.

3. Evaluation Conference - The evaluator(s) shall discuss with the teacher in personal conference the evaluation instrument and any other information relative to the success and professional growth of the teacher.

The District's performance evaluation system incorporates the seven "Essential Principles of Effective Evaluation" adopted by the State Board of Education and set out as follows:

1. Uses research-based and proven practices to measure educator performance;
2. Establishes performance indicators for educators based on their level of performance;
3. Aligns the evaluation process with an educator's probationary period to provide for an appropriate accumulation of performance data;
4. Uses student learning, based on a variety of performance measures, in the evaluation process;
5. Assesses educator performance on a regular basis and provides feedback to teachers and administrators that they can use to improve their performance through their careers;
6. Ensures evaluators are highly trained so that evaluation ratings are fair, accurate and reliable; and
7. Uses the evaluation process to guide school district policies that impact the development of educators and student learning.

Notwithstanding the State's essential principles, the major focus on the District's evaluation system is on positive learning outcomes, cognitive and affective, for District students. Educators are responsible for the positive learning outcomes for their students.

Performance Evaluation

3. Quantity of work
4. Dependability
5. Cooperation
6. Attendance

Within ten (10) days, the Superintendent will provide notice of such violation to the Impact Aid Program, United States Department of Education, or other appropriate government agency.

The District will institute a drug-free awareness program to inform employees of:

The confidential nature of the medical records of employees with chemical dependency shall be preserved in the same manner as for all other medical records.

The District's responsibility for chemical dependency is limited to its effects on the employee's job performance. If the employee violates this policy, refuses to accept diagnosis and treatment, or fails to respond to treatment, and performance is adversely affected, the employee will be subject to employment action in proportion to the performance problem. Implementation of this policy will not require or result in any special regulations, privileges or exemptions from the standard administrative practice applicable to job performance requirements.

Upon the request of the Department of Elementary and Secondary Education or an agency of the United States, the District shall certify that it has adopted and implemented the drug prevention program described in this policy, in the form required by such agency. The District shall conduct a biennial review of this policy to determine its effectiveness, implement necessary changes, and to ensure that the disciplinary sanctions are consistently enforced.

It shall be a violation of this policy for any employee to possess, use, manufacture, distribute, or be under the influence of medical marijuana in any manner inconsistent with Missouri state law and applicable regulations. The District will provide special education and/or related services to students with disabilities in accordance with applicable law, including the IDEA, its implementing regulations, the Missouri State Plan for Part B of the IDEA, Section 504 of the Rehabilitation Act of 1973, its implementing regulations, and Title II of the American with Disabilities Act.

For students identified as disabled under the Individuals with Disabilities Act (IDEA), each student's IEP team will develop an Individualized Educational Plan (IEP) that will address how that student's disability affects that student's involvement and progress in the general curriculum. Each student's IEP team also will, in accordance with IDEA, create an IEP that includes a statement of the special education, related services and supplementary aides and services that will enable the student to be involved in and make progress in the general educational curriculum.

Service Animals and Professional Therapy Dogs in Schools

This policy governs the presence of service animals in the District's buildings, on school property (including school buses), and at school activities. The Board of Education adopts this policy to ensure that individuals with disabilities are permitted to participate in and benefit from District programs, activities and services, and to ensure that the District does not discriminate on the basis of disability.

Students and/or adults with disabilities may be accompanied by a "service animal" as defined by federal and Missouri law on school property, in school buildings, and at school functions as permitted by law and subject to the conditions of this Policy.

Service Animals

Under federal law, a "service animal" means "any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability." Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition (See, however, provisions on miniature horses below). The work or tasks performed by a service animal must be directly related to the handler's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition.

Under Missouri law, the term "service dog" is defined as a dog that is being or has been individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Service dogs include but are not limited to: guide dogs, hearing dogs, medical alert or response dogs, mobility dogs, and mental health service dogs or psychiatric service dogs.

An emotional support dog, whose purpose is to provide comfort or companionship does not meet the definition of a service dog under Missouri or federal law.

The District will permit the use of a miniature horse as a service animal if the miniature horse has been individually trained to do work or perform tasks for the benefit of an individual with a disability.

In determining whether to permit the use of a miniature horse as a service animal, the District will consider: (1) the type, size and weight of the miniature horse and whether the facility can accommodate these features; (2) whether the handler has sufficient control of the miniature horse; (3) whether the miniature horse is housebroken; and (4) whether the miniature horse's

presence compromises legitimate safety requirements that are necessary for the safe operation of the facility. All additional requirements outlined in this Policy which apply to service animals, shall apply to miniature horses.

If an individual with a disability requests to use a service animal in a District building, on District property, in a District vehicle or at a District function, the District will not ask about the nature or extent of the person's disability. However, the District may make the following inquiries to determine whether an animal qualifies as a service animal: (1) whether the animal is required because of a disability; and (2) what work or task the animal has been trained to perform. The District may not make these inquiries when it is readily apparent that an animal is trained to work or perform tasks for an individual with a disability.

The District may request but will not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal.

Misrepresentation of Service Dogs

In accordance with Missouri law, a person knowingly misrepresenting a dog as a service dog for the purpose of receiving accommodations of the Americans with Disabilities Act will be guilty of a class C misdemeanor and shall be civilly liable for damages resulting from such misrepresentation.

Professional Therapy Dogs

An animal that is used to provide a supportive or therapeutic service for a student does not meet the definition of a "Service Animal" which is permitted for use by qualified individuals with disabilities consistent with this Policy. However, the District may, at its discretion, permit the use of such dogs that have been individually trained and certified to work with staff to provide certain types of support for its students.

Such dogs are not for the personal use of District students or employees and will be utilized at the discretion of District administration and counselors for their intended purpose.

Curriculum for At-Risk Students

The Board of Education directs that curriculum be developed to meet the needs of students at risk of failure. This curriculum is to include strategies infused in all areas of regular education, K - 12, to address the special needs of students at-risk.

As provided by state and federal guidelines and funds, the Board directs the administration to utilize funds from ESEA, Title I and state programs for alternative education, among others, as resources for curriculum development for students at-risk.

Gifted Education Program

The Board of Education directs that curriculum be developed to meet the needs of students who have been identified as gifted by multi-criteria assessment developed by professional staff. This curriculum is to include strategies infused in all areas of regular education, K- 12, as well as specific curriculum designed to enrich the regular curriculum in order to meet the challenge of educating the gifted student.

The District's Gifted Education Program will allow for grade acceleration for students who demonstrate:

- Advanced performance or potential for advanced performance; and
- The social and emotional readiness for acceleration.

The acceleration opportunity will apply to subject acceleration and/or whole grade acceleration.

Review of Application Denial

Parents/guardians may request a review of the District's determination that their student did not qualify to receive services through the District's Gifted Education Program. The review process is as follows:

- Review of the decision by their building principal;
- Review by the central office administrator who is responsible for supervision of the Gifted Program;
- A written submission to the Board of Education stating the parents'/guardians' basis for an appeal.
- The Board may deny the written submission or may meet with the parents/guardians at a Board meeting to consider the appeal. The Board's decision is final.

While appeal is permitted for denial of entry into the Gifted Program, no such appeal is available for acceleration decisions.

The District and District employees are immune from liability from any and all acts or omissions relating to the decision that a child did not qualify to receive services through the District's Gifted Education Program.

English Language Learner (ELL)

The Board of Education is committed to identifying and assessing the educational needs of students whose native or home language is other than English. Once identified, the District will provide appropriate programs to address the needs of these students. Students entitled to considerations under this policy include:

1. Language Minority (LM) - students who come from a background where English is not the student's first language, or where the primary language of the home is not English or both.
2. Limited English Proficient (LEP) - Students whose English language skills are insufficient to lead to success in an English-only classroom.

The District will also take steps to ensure to the maximum extent practicable that the interests of ELL students are included in the development and implementation of District programs and services that are offered by the District to and for its student body.

School personnel enrolling ELL students are trained in the process of identifying, assessing, and providing services to these students.

To ensure that parents/guardians are properly notified of the ELL program, all new and enrolling students are to be given the Student Home Language Survey (Form 6180). The form shall be completed and returned to the school by the parents/guardians if they feel their child may be in need of such services.

Where the District has or may have in the future a low number of ELL students, the District may contract with a neighboring district for services until a qualified ELL teacher is employed. However, if the District serves twenty (20) or more ELL students, the District will employ a full-time certified ESOL teacher.

The Board has the ultimate responsibility for establishing the curriculum and for purchasing instructional and/or media materials to be used in the District. While the Board recognizes the right of students to free access to the many different types of books and instructional materials, the Board also recognizes the right of teachers and administrators to select books and other materials in accordance with current trends in education and the established curriculum.

It is therefore the policy of the Board to require that books and other instructional materials shall be chosen for values of educational interest and the enlightenment of all students in the community. Instructional materials shall not be excluded on the basis of the writer's racial, nationalistic, political, or religious views. Every effort will be made to provide materials that present all points of view concerning international, national and local problems and issues of our times. Books, or other instructional or media materials of sound factual authority, shall not be prescribed, nor removed from library shelves or classrooms on the basis of partisan or doctrinal approval or disapproval. The Board will strive to provide stimulating, effective materials that will be appropriate to the community's values and the students' abilities and maturity levels.

Instructional or media materials used in the District's educational program consist of various types of print and nonprint materials. Instruction

Independent Educational Evaluation Policy for Disabled Students under the IDEA

The parent or legal guardian of a student with a disability pursuant to the Individuals with Disabilities Education Act (“IDEA”) or of a student suspected of having an IDEA disability has the right to obtain an independent evaluation subject to the provisions of this policy. The parent or legal guardian has the right to an independent educational evaluation at public expense if they disagree with an evaluation or any component of an evaluation obtained or conducted by the District. The parent or legal guardian may request one independent educational evaluation in response to each evaluation completed by the District. If the parent request for an independent evaluation comes one year or more from the date of the completion of the District’s evaluation, the District may seek to complete a reevaluation prior to paying for an independent educational evaluation.

Definitions:

1. *An independent educational evaluation (IEE)* means an evaluation conducted by a qualified examiner who is not employed by the District. An independent educational evaluation must meet the educational evaluation criteria used by the District when it initiates an evaluation to the extent those criteria are consistent with the parent’s right to an IEE.
2. *Public expense* means that the District either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent. The District may, therefore, use whatever State, local, Federal or private sources of financial support are available to pay for the costs of an independent educational evaluation.

A parent is not required to notify the District prior to obtaining an IEE. However, if the parent or legal guardian requests an independent educational at public expense, the District will request that the parent provide a reason why he or she objects to the District’s evaluation. In making that request, the District may not unreasonably delay either providing the requested independent educational evaluation at public expense or initiating a due process hearing to defend the District’s evaluation.

If a parent requests an independent educational evaluation at public expense, the District will:

- (1) Provide the parent or legal guardian with a copy of this policy and the District’s IEE procedures; and
- (2) Provide the parent with information about where an IEE may be obtained within the parameters of this policy and the District’s procedures; and

(3) (a) ensure that an independent educational evaluation is provided at public expense; or (b) initiate a due process hearing to show that the District's evaluation is appropriate or that the IEE obtained by the parent did not meet District criteria.

If the District initiates a hearing and the final decision supports the appropriateness of the District's evaluation, the parent still has the right to an independent educational evaluation, but not at public expense.

If a parent or legal guardian obtains an IEE at private expense and presents that IEE to the District, the results of that evaluation must be considered by the District in any decision regarding the provision of a free appropriate public education to the student. In addition, any IEE obtained by the parents at private expense may be presented as evidence at a due process hearing regarding that student.

B. Access to Inappropriate Material

To the extent practical, technology protection measures shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information. Specifically, as required by the Children’s Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors. Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes.

C. Internet Safety Training

In compliance with the Children’s Internet Protection Act, each year, all District students will receive internet safety training which will educate students about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms, and cyberbullying awareness and response. Such training will include internet, cell phones, text messages, chat rooms, email, and instant messaging programs. (See also Policy 6116 - State Mandated Curriculum – Human Sexuality)

Screening for Dyslexia

Dyslexia is a disorder that is neurological in origin, characterized by difficulties with accurate and fluent word recognition and poor spelling and decoding abilities that typically result from a deficit on the phonological component of language, often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, and of which secondary consequences may include problems in reading, comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

In order to close the gap between struggling readers and their “normally” developing peers, the District will:

1. Identify students at risk for dyslexia or reading failure.
2. Form small groups for instruction and intervention.
3. Plan instruction and intervention.
4. Goal setting for individual student achievement.
5. Set criteria for intervention exit.

Screening

Each student, kindergarten through third grade, will annually be screened for dyslexia within the first thirty (30) days of the school year. In order to monitor progress or lack of progress, benchmark assessments will also be completed for K-3 students in the middle and at the end of each school year.

The dyslexia screening protocol set forth in this policy will also be administered to the following students:

1. K-3 Missouri transfer students who have not been previously screened.
2. K-3 out-of-state transfer students who do not have documentation of previous screening.
3. Students in grades 4 and above with a record of potential dyslexia related issues as determined by the classroom teacher or as requested by the student’s parent/guardian.

The following groups are exempt from dyslexia screening:

1. Students with an existing diagnosis of dyslexia.
2. Students with a sensory impairment (visual/auditory).
3. Students with severe intellectual disabilities.
4. Students who are English Learners where screening administration and/or interpretation are not available. However, English Learners may be screened for dyslexia-related risk factors through screening in the student's native language, where feasible.

Screening Components

There is no one test that encompasses all recommended skills. The District will utilize screening tools that are both reliable and valid. However, universal screening is not sufficient to identify students with dyslexia. Universal screening can reveal specific weaknesses that are consistent with dyslexia. Monitoring a student's response to high quality reading instruction may be the best way to identify students with severe dyslexia.

The District will identify the appropriate staff to complete student screenings. These staff members may include: classroom teachers, reading interventionists, Title I teachers, reading specialists, or coaches or any combination of these individuals.

Supports and Accommodations

Once identified, students with dyslexia will be provided with the supports and accommodations tailored to meet the individual student's needs. These accommodations will derive from the following supports and accommodations.

1. General classroom instruction modifications.
2. Instructional environment.
3. Technology
4. Social/Emotional

5. Design of Classroom Assignments
6. Test and Exams.

The District will consider the specific supports and accommodations set forth in DESE's "Serving Students at Risk for Dyslexia: Guidance to LEAs."

Practicing Teacher Assistance Problems

Practicing teachers will receive two hours of in-service training during the 2018-19 school year regarding dyslexia and related disorders. Teachers employed by the District in subsequent years, who have not received this training in another district will be provided the same training by video or by in-person training.

Such in-service training should include:

1. Introduction to dyslexia and dyslexia simulation;
2. Key areas of literacy and reading intervention;
3. Screening/progress monitoring, data-based decision-making, fidelity and classroom supports.
4. Training for secondary-level staff will be tailored to the unique needs of secondary students.

Under these circumstances, the IEP team or Section 504 team shall determine whether the student shall be included in the computation of class rank. Students who are not included in the class rank shall still receive a cumulative grade point average (G.P.A.) and shall be eligible for the honor roll.

If a non-disabled student is receiving homebound instruction, the principal, counselor and/or classroom teacher(s) for such course(s), in conjunction with the homebound teacher, shall determine whether the student shall be included in the computation of class rank, depending on the degree of modification or alteration to the curriculum the homebound student requires. Educational Specifications

To ensure that all new and remodeled facilities are designed to best implement the educational program of the School District, the Superintendent will provide for the development of detailed educational specifications to apply to the design and construction of new or remodeled buildings. The preparation of educational specifications will serve the following purposes.

1. Clarify and consolidate the thinking of the staff, administration, Board and community on the needs, desires and objectives of educational programs to be conducted within the proposed new or remodeled building.
2. Organize important information in a manner that can be easily and clearly interpreted by an architect.

When educational specifications are prepared, an introductory section will be devoted to a brief description of the community, enrollment trends, and the educational philosophy of the District. Educational specifications are detailed descriptions of the following items:

1. Activities that will take place in the building.
2. Organization of instruction and curriculum to be housed in the building.
3. Specific architectural characteristics desired.
4. Facilities needed, equipment required and space relationship to other facility elements.
5. Pertinent budget and other governing factors.

The persons involved in developing educational specifications should include: the Board, which adopts policies, approves final specifications, employs the architect and provides the budget; the Superintendent, who provides administrative leadership, interpretation and evaluation; principals, staff members, students and patrons, who utilize the facilities; and the architect, who develops architectural plans for the facility.

Consultants may be used in the development of educational specifications when deemed necessary by the Superintendent and the Board.

Construction Manager Selection

The Board of Education may desire to engage the services of a construction manager when planning, designing, improving, altering, repairing, or constructing a building or structure. The District recognizes the need to enter into contracts with qualified construction managers at a price the District considers to be fair and reasonable. It shall be the formal policy of this District to observe the procedures set forth in its Administrative Regulations when the District determines that construction management services are needed.

Construction Contracts, Bidding and Awards

All facilities construction projects which exceed an expenditure of Fifty Thousand Dollars (\$50,000) shall be advertised once a week for two consecutive weeks in a newspaper of general circulation located in the city or county in which the District is located. In addition to the city or county newspaper, the District may also advertise in business, trade or minority newspapers. Competitive bids shall be solicited according to state law only after the plans and specifications have been approved by the Board of Education. In order to protect the Board of Education, each bidder may be required to submit, with his bid, a bidder's bond in an amount determined by the estimated cost of the project

The construction contract shall be awarded to the best bidder whose bid is in accordance with the Board approved plans and specifications and has provided the required security. The Board reserves the right to waive any informalities in, or reject any or all bids or any part of any bid. No bid for the construction, alteration, or repair of any building shall be accepted if it does not conform to the Board approved plans and specifications. Notwithstanding Board policies and regulations providing for construction manager and design build methods, the District may elect to proceed with the traditional method set out in this policy.

Whenever two or more proposals or bids of equal amount are the lowest proposals submitted by reasonable bidders pursuant to the advertisement of bids, the Board of Education may award the contract to any one of the bidders as determined by exercise of discretion.

The contractor shall receive monthly payments for the work completed, less a percentage to be determined to ensure completion. The contractor may be required to submit a performance bond and a material and labor bond to the satisfaction of the Board. The final payment shall be made only after acceptance of the project by the Board of Education and completion of the items to be corrected. Lien waivers shall be provided by the contractor and his subcontractors and suppliers.

All pay requests by the contractor shall be approved by the architect prior to submission to the Board of Education for payment.
